WILD BOAR AGAINST TIGER.

The Tiger's Only Aim Seemed to be to Jump Out of Reach of the Hog.

A gentleman recently traveling in Dartford, and Rochester, visited India describes a fight he witnessed while there between a wild boar and a savage tiger. The fight was pulled

and the boar rushed underneath and went half a dozen feet beyond. It puzzled the boar immediately to have the tiger get away from him in that way, but he turned and made for his antagonist again. Three times the tiger leaped above the boar, but the fourth time the boar threw up his head and the tiger got a rip with the tusks that drew blood. Then the cat turned on the pig, grabbed him by the nape of the neck and shook him as a schoolmaster shakes a small boy. This done, the tiger dropped the boar and walked away. The tiger had merely intended to punish the little beast.

The boar got his breath and recovered somewhat from his dizziness,
