Life Insurance The Star Life Insurance Co., London England. Has \$1,000,000 more Assurances in force than largest Canadian Company.

GENERAL.

The following special cablegram from London England heralds a glowing victory for the 48th Highlander's team of Toronto.

London, June 8. (Special cable.)—The 48th Highlander's team of Toronto, Canada, to-day met and defeated the pick of the English regulars in the competition bayonet v bayonet.

The team which opposed the Toronto Highlanders were selected from the Household troops of the British army, the life guards, Coldstream Guards, Grenadier Guards, and Scots Guards.

Mr. Whitney, leader of the Ontario opposition is now making a tour of Western Ontario to educate the people on the inefficiencies of the present government in the administration of public affairs.

Mr. Whitney first entered on a criticism of the educational policy of the Government. He said we had in this country a magnificent system of Universities and schools and he denied any hostility to the existence of High Schools.

Premier Laurier arrived in England

last Friday and since that time he has been getting more taffy than any other man in England. On his arrival in Liverpool the Duke of Devonshire, President of the British Empire League, made an address in which he acknowledged the great interest that now filled the hearts and minds of the British people and predicted a stronger and closer bond of union between the colonies and the mother country.

TRAVERSTON.

Jubilee joys to everyone, this glorious June-tide.

Miss L. Johnston spent a few enjoyable days of last week at Mr. W. Greenwood's, and got a fine fellow to eat her pie with at the monster meeting.

Mr. J. Cook of Maple Hill, Bruce Co., and Mr. Mooney, Brussels, spent two days of last week with relatives on the 6th. Uncle Joe as we dub him is one of the finest and jolliest fellows we ever knew.

Mr. and Mrs. George Robertson of Molesworth manage to pay the old home of the latter an annual visit. Mrs. R. and two children arrived ten days ago, while George got along at the close of the week. They are a happy couple.

"Nothing like a wedding to make a fellow feel good," says our genial pedagogue Mr. A. W. Park who is about to gain two brothers-in-law this week. We wish our bright pupils and friend of by-gone days a happy journey through life.

Zion's pie social on Tuesday night was an astonishing success. Over 250 bright spirits gathered from far and near and were packed into the little Patron hall. The 105 pies auctioned realized the neat sum of \$37. It was an appetizing sight to see. The pies were beautifully decorated and delicious, so Barrister Batson said, who made away with about twenty pieces and never felt a spasm.

Mr. and Mrs. Greenwood's pastry reached top notch at 85c, while that of Miss Tena Glenroes followed close at 65c. The most of them went for over 40c. so Mr. Editor you can judge slightly of the value of our pastry rollers. Everybody was jovial, happy, and good-natured. Many thanks.

OBITUARY.

On Thursday last, Mr. Daniel McFadden, of Glenelg, passed the bourne from which no traveller returns, in his 87th year.

Mr. McFadden was born in Tyrone Ireland in 1810 came to Canada in 1837 and settled on Youngs Street near Toronto where he resided until 1849, when he moved to the twp. of Glenelg settling on Lot 1 South Durham Road where he resided until his death last week. He was one of the pioneers of the township and endured all the hardships of pioneer life, so well known to those who experienced the struggles necessary in early days to carve out a home and earn a livelihood.

PRICEVILLE.

Mr. and Mrs. R. J. Watson and family of Walter's Falls paid a visit to friends last week.

Rev. Mr. and Mrs. Humphries were in Toronto last week where Mr. Humphries was attending Conference.

The Scotch bonnets were quite plentiful in our burg one night recently. The Sons of Scotland were out in full force and added over a dozen to their lodge.

Mr. Herbert Watson and Bertie left last Monday for Ventry to erect a brick house there.

The little daughter of Mr. and Mrs. P. Bolger of the Crown hotel died on Friday morning and was buried in the R. C. cemetery in the south of Proton.

Last Sunday a young lady from the north line on attempting to do some fast driving suddenly found her horse and rig in the culvert

opposite Watson's shop with the horses leg under the culvert. Several young men came to her assistance and by some hard pulling managed to get the horse liberated, but not without getting badly besmeared with mud. The young lady also took a hand and was rewarded with a liberal supply of mud.

FLESHERTON.

Flesherton is making preparations to celebrate the Queen's Jubilee on the 22nd. Invitations are being given to the schools of the township to join the school here, each pupil to be presented with a badge with a portrait of the Queen on it, and led by the Flesherton Band, march through the principal streets to the park where patriotic songs and speeches will be given and various games and amusements entered into, followed by a nice display of fireworks in the evening.

Waterson vs. Artemesia.—This is a case where one Mrs. Waterson claims damages from Artemesia tp. for injuries received through a defective place in the road. It was to have been heard before Chief Justice Meredith at Owen Sound last week but the plaintiff failed to appear and judgment was given against her for costs. Tp. Clerk Bellamy, Bailiff Wright and W. Howard were present at the court from here.

At the regular meeting of Prince Arthur Dodge A. F. & A. M. here on Friday evening last the following officers were installed by I. P. M., W. Bro. Geo. Mitchell for the ensuing year: R. McGill, W. M.; J. Boyd, S. W.; J. F. VanDusen, J. W.; A. M. Gibson, Chap. W. J. Bellamy, Sec; A. S. VanDusen, Treas.; W. L. McFarland, S. D.; R. N. Henderson, J. D.; J. A. Rosborough I. G.; J. Sullivan, Tyler.

The "Flesherton Advance" is about to treat its readers to an interesting history of Artemesia township accompanied by a synopsis of formation and growth of the county of Grey written by Dr. Christie, the veteran ex-reeve of this township. The Dr's. long residence and intimacy with the public men of the township and county well fit him for the task he has undertaken, and we have no doubt the several issues of the "Advance" in which this appears will go far beyond the wide circulation which that newsy journal always enjoys.

Mr. and Mrs. Keefer, sr., Mr. and Mrs. R. Trimble, Mr. and Mrs. Jas. Keefer, of White Bear, Min., Editor Geo. Keefer and wife, of Norwood, Mr. and Mrs. Wansborough, Mrs. Blackburn, Mrs. and Miss Ida Gjerdrum, and Miss Gertie Keefer spent a pleasant afternoon picnicking at Eugenia, Saturday.

Mr. R. Beattie and family have moved to Mt. Forest. We have now two barber shops in town. A gentleman from Owen Sound is the latest.

We are free this year from the grass-hopper plague so far but the orchards and trees are suffering from the ravages of the caterpillar. Bunches as large as a man's head may be seen on wild cherries and maples.

WANTED

Agents for "Queen Victoria, Her Reign and Diamond Jubilee." Contains the endorsed biography of Her Majesty, with authentic History of her remarkable reign, and full account of the Diamond Jubilee. WHAT VICTORIA HAS

WONDERFUL CHANGES DURING THE QUEEN'S REIGN

Sixty Years of Progress and Science, Education, Peace, Religious Tolerance, Migration, Good Will between Nations, Have Advanced during the Reign.

In June 1897, Victoria, was a young girl of eighteen, a throne of England, on the uncle William IV. Her reign the longest of any sovereign has covered a period of history. No other sixty years such strides of science, elous development in education, legislation for the benefit of humanity, such growth in commerce, such miracles of invention, strengthening of the bonds of nations, such universal advancement higher living. And this has been attained during the reign of a woman—the wise and good Victoria, writes William George Ladies' Home Journal.

When Victoria was called throne the United Kingdom had 26,000,000 people. To-day 39,000,000. "The wise men" said the nation would go to claimed it could never give and colonial possessions. Victoria the new territory acquired is one-sixth larger than all day Victoria rules over 402 ple, or twenty-seven per cent of population of the globe. It extends over 11,399,316 sq covering twenty-one per cent of land of the world.

Australia was chiefly imperial colony in those days. A part of its territory was explored. Its total population 345,000. Now it is over 3,300,000. Its trade exceeds that of Britain at the beginning of its reign. The city of Melbourne consisted of a church, an inn, twenty huts and a kangaroo ket. It is now Australia's largest city with 500,000 people.

Africa was an almost unexplored territory. Maps of the interior of the country almost unexplored. In South Africa alone was known. Now seen one-third of the continent from the natives and brought civilization by Livingstone, H. Speke, Du Chailu, Johnston, and other explorers. Farms and great cities are sites of African deserts and sixty years ago.

IGNORANCE WAS GONE

Forty per cent of the women five per cent of the women Britain could not write their own names when Victoria became their Queen. National education system, three years old; its money estimated to only \$300,000.

Emigrants to America carrying vessels in the early days of the reign. They had to provide food, as the ship supplied only the trip usually took thirty days, times storm and contrary wind ed the trip to two or three weeks. Sickness, suffering and starvation resulted from lack of adequate food for the passengers.

No Submarine Cable—not even—lay in the ocean sixty years ago. Millions of messages are sent year, and the waters of the globe threaded with over 170,000 miles—sufficient to stretch three-quarters the distance from the earth to the moon.

Seventy-eight Elements are known to science. Twenty-four have been discovered during the reign. The instrument that discovers the possible is called a spectroscope. It is so marvelous that it can detect the presence of two-hundred-millionth of a substance.

Dickens had published but one novel when Victoria became Queen. Bulwer was just becoming popular when Victoria became Queen. Her life-work was not begun; Herbert was a name unheard of; Ruskin was known to but few; Robert Browning was a name unknown; Austin was written nothing; Alfred Austin was a name unknown; Victoria was a name unknown; Victoria was a name unknown; Victoria was a name unknown.

GREAT SOCIAL REFORMS

belong to Queen Victoria's reign. The degrading practice of flogging, abolished in the armies and navies of America and England. Child laborer permitted to work in the mines of Britain. Press gangs no longer permitted to work in the navy. The Red Cross Society by forty-nine nations has suppressed. Executions are conducted in public. The criminals have become human beings and building acts make for the poor.

Trans-Atlantic steamers on regular trips, did not exist in Victoria's time. In those days were wooden paddle wheels. The iron screw had not yet appeared. Accommodations were poor. "Travel improvements" that make a delight were unknown. The time for a trans-Atlantic trip was about fourteen days. It is now made in five days and Electricity was in its infancy when Victoria became Queen. EL
