ADDITIONAL LOCALS.

Owing to a rush this week to get in the prize list we are unwillingly compelled to condense, or leave over some valuable correspondence.

THE World's Fair at Holstein judging from the posters and prize list is likely to surpass, any ever previously held in Egremont. We hope to see a large attendance. Don't forget the date October 5th.

INSPECTOR CAMPBELL in a letter written in last week's Review refers to a herd of Ayrshire cattle owned by Caldwell Bros. of Orchardville, and considers them equal to any he has seen in their native home in Scotland. The Inspector will sail for home about the 7th of October and we trust his trip will give him an increased mental and physical attendance and a more extended knowledge of the world in general.

MR. R. MACFARLANE JR., who has been absent for over two months visiting England, Scotland, Ireland and France, returned on Thursday evening feeling well, and highly delighted with his trip. The voyage over in July was exceptionally fine, but on the return trip considerable rough weather was experienced and forced those who were not exceptionally good sailors to keep out of the way for a few days. Mac. was one of these and remained in his berth for a day or so, however, he feels that the trip was both pleasant, profitable and instructive. Such an outing he regards as a liberal education in itself.

A very sad accident occurred here on Saturday last. Mr. Alex. Stewart a young man who lives about six miles north of here, was in the act of hitching a horse in front of Mr. Aljoe's blacksmith shop, when the animal kicked him violently in the stomach and prostrated him to the ground. He was at once taken to the Central Hotel, medical aid procured, but his injuries were internal and of such a nature that nothing could be done. From the first, little or no hope was entertained. He lingered on till Monday afternoon when his sufferings were relieved by death. The young man was much respected and his early and sad death has cast a cloud of sorrow over the whole community.

Complaints have been made to Dr. Bryce, secretary of the Provincial Board of Health, that owing to the inactivity of the local health authorities the village of Bolton is in a very unsanitary condition. A number of cases of diphtheria have appeared at Bolton, and the complainants believe the prevalence of the disease is due to the existence in the centre of the village of slaughter houses and pig-pens. The board of health will take prompt action to ascertain the facts.

THE Mount Forest Confederate is now sporting a new "dress" and shows off to good advantage. Under Brother Van-Blaicom the paper has improved rapidly in artistic appearance and literary merit. But it puzzles us to understand how friend V. has raised the wind for such wholesale change. We have been waiting for a "wind-fall" to raise ninety cents to buy a new stick but it's slow in coming. We congratulate our genial friend, Van, on his success and wish him continued prosperity.

An item that has been going the rounds of the press, to the effect that partridge and quail cannot be shot till 1900 is incorrect, the act of 1893 prohibited the sale of partridge or quail till Sept. 15th 1897, but it has not been unlawful and is not now, to shoot these birds during open season, which extends from the 15th of Sept. to the 15th December. The only change made in the game laws in 1897 was to the extension of the close season for wild turkeys, prairie chicken and chicken and English pheasants of 1900. These are the changes of importance effecting the game laws. The regulations as to deer hunting and the open season for all game remaining the same as before, deer Nov. 1st to 15th, moose, reindeer, elk and cariboo prohibited till 1900. No deer to be killed in the water and no one hunt deer without a license, to be had for \$2. Only two deer to be killed by only one person. -Post.
