

### DON'T CHIDE THE CHILDREN.

Don't scold the little ones if the bed is wet in the morning. It isn't the child's fault. Weak kidneys need strengthening—that's all. You can't afford to risk delay. Neglect may entail a lifetime of suffering.

### DOAN'S KIDNEY PILLS

Strengthen the Kidneys and Bladder, then all trouble ceases.

Mr. John Carson, employed at M. S. Bradt & Co.'s store, Hamilton, Ont., says: "My little boy seven years of age has been troubled with his kidneys since birth and could not hold his water. We spent hundreds of dollars doctoring and tried many different remedies, but they were of no avail. One box of Doan's Kidney Pills completely cured him."

### PAIN IN THE HEART.

Too serious a condition to neglect.

Guelph harness maker tells how he was cured.

Mr. Wm. Dyson, the well known saddle and harness maker of Guelph, Ont., makes the following statement: "I heartily re-

commend Milburn's Heart and Nerve Pills anyone suffering from nervousness and heart trouble. They are a splendid medicine for such complaints. For a long time I was afflicted with nervousness and pain in my heart, which was especially severe at night, often destroying my rest. These pills cured me and invigorated my system which is now strong and healthy. They restored restful sleep besides removing the distressing heart pains which nearly gave me so much anxiety and trouble."

HORSE HOSPITAL IN LONDON.

These Sick Horses Must Bless This Benevolent Lady. A curious institution at Acton, in the western suburbs of London, is the horse hospital founded and managed by a benevolent lady, Miss Hardy. Two long rows of loose box-stalls surround a central aisle, and the stalls are furnished with comfortable beds for the horses. The care of the horses is entrusted to a staff of experienced grooms, and their feed is of the highest quality. The hospital is a place where the horses are treated with the most delicate care, and the results are often most successful. A few of the inmates have been at the hospital for years, but the average length of stay is six weeks. The hospital is a place where the horses are treated with the most delicate care, and the results are often most successful.

AFLOAT WITH NAPOLEON.

Two men living in St. Helena who were born respectively in 1798 and 1802 are not the only persons now living who have seen Napoleon the Great. Thomas De Moleyns, who was for many years County Court Judge of County Kerry, was called to the Irish bar in 1831, and appointed a Queen's Counsel in 1835. He served in his early boyhood in the royal navy. Mr. De Moleyns was a midshipman on board the Guerrienne when Napoleon on July 15, 1815, after "the hundred days," placed himself under the flag of his country and was received on board the Belle-
