A MEETING of the Public Library Directors was held in the Reading Room on Friday evening last for the general transaction of business, passing of accounts, etc. At the close of the meeting a pleasant announcement was made by Dr. Gun, the President, who intimated the kindness of Rev. Mr. Stewart in presenting to the Library an excellent volume. The Dr., not to be outdone in generosity, presented also to the Institute two very fine scientific works nicely bound and of considerable value. But the presentation of the evening, for which every member of the institute should feel grateful, was that made by Professor Browne, our artistic photographer, whose donation consisted of a large framed picture of all who took part in the "Temple of Fame" entertainment, held here over a year ago. This real work of art is to be hung up in the Reading Room, where we trust it will serve the double purpose of giving pleasure to all who may see it as well as advertise the business of the liberal donor whose unsurpassed skill as an artist has won for him a wide reputation. Hearty votes of thanks were tendered to all who had made such material contributions to the Library and Reading Room.
