James Boak has purchased a new shot gun. We expect he'll be off to Cuba soon.

Mr John Wilson, sr., while working the stable fell and hurt his leg which will lay him off work for some time. The kind hearted neighbors made a bee to hoe his turnips and had a dance at night.

A hog that Chas. Grey, of the Corners, purchased from Jas. Geddes dropped dead on the way home with the heat.

Misses Elizabeth and Alice Lawrence are home on a visit from Toronto.

Mrs. John Whitmore and her daughter, Miss Mary Ann, left on Monday week for Manitoba where they will meet with many friends and relatives. We hope the young lady's health, which has been poor, may be improved by the change.

Mr. Wm. Brown, of our town, has returned from a three months' trip to the Canadian N. W., well pleased with his trip, but more pleased to remain in Egremont in future.

Rain is very much needed. The pasture is short and the cows are failing in milk.

The farmers are busy cutting the fall wheat and report good crops generally. Other crops are needing rain which appears to have passed to the north and south of us. Fruit, which promised well is also suffering from rain.

Last Saturday Mr. H. Caldwell was blessed by the arrival of a young daughter.

Mr. Lothian, blacksmith, has added some new machinery to his shop and is kept busy almost night and day.

While here they spent the most of their time at the home of their cousin, Mr. John McDonald.

the successful. Misses Maud and Bella McGillivray and Jewel McComb who wrote for Public School Leaving were awarded Entrance Standing. This is a very good work and we congratulate our young friends and their teacher, Mr. Alex. Firth for such a creditable showing for Bunessan School. Bunessan is proud of its school. The best teachers in S. Grey have always been engaged, nor have the people been niggardly mean in rewarding them. Mr. Firth, the present teacher, is making a good name for himself, and his motto is "Excelsior."

SCROFULA.

One of America's most famous physicians says: "Scrofula is external consumption." Scrofulous children are often beautiful children, but they lack nerve force, strong bones, stout muscles and power to resist disease. For delicate children there is no remedy equal to
