Civic Holiday and Firemen's Picnic, August 10th, 1899.
 At the request of Mayor Calder a number of citizens met last Thursday evening in the Town Hall to discuss a resolution from the Firemen, relative to an excursion to Hanlan's Island. The Mayor stated the object of the meeting after which the matter was fully discussed by citizens and members of the Brigade.

Learning that the Firemen were willing to acquiesce in anything the citizens saw fit, and going on the assumption that to make money was the primary object, a consensus of opinion favored the proclamation of Thursday, August 10th as a Civic Holiday when a united effort would be made to hold a monster picnic for the benefit of the firemen. Committees were appointed, arrangements discussed, and this week large posters are out announcing the general features of the proceedings.

During the past year the usefulness of the brigade has been brought home to the citizens with telling effect. It is no use reiterating, as every one knows something of their self-sacrificing efforts and heroism in the saving property, and to say that they deserve the support of the whole community is already the opinion of all citizens. Therefore let every one respond to the invitation to assist in replenishing the funds of the Company. Citizens will be waited on in a few days to provide something in the way of refreshments, and we hope the response will be a most cheerful one. We know not how soon their services will be required to save us from financial ruin, and knowing the willingness with which they have responded to every call in the past, let us not be reluctant in giving them a little assistance now.

An excursion to Toronto on the lines proposed by the resolution would, it seems to us, be a very expensive, and very uncertain way of raising money. Let us suppose that 200 would take in the excursion, and it's very doubtful if so many would go when the exhibition is so near. The proposed Railway Fare is \$2 each of which \$1 75, goes to the Railway Co, or in other words, out of an expenditure of \$400, the Brigade would get \$50. Let us add to this the very modest additional expenditure of \$1.00 each or \$200 more; that is \$600 in all for the sake of giving the Firemen \$50. Further comment we think is unnecessary.

The picnic, should the weather be fine will we feel assured do much better, and with the united effort of the citizens, the Firemen and the press we shall regard the effort unsatisfactory unless the funds of the Brigade are increased at least \$100. The Chronicle will make this the low water mark, and this sum must be reached. We feel that it will and see no reason why under favorable conditions it should not be doubled, after deducting all expenses. The admission to the grounds is placed at 75 and 50c.

Stop It! Stop It!
 Don't imagine for a minute that a cough amounts to nothing. Thousands of people are in their graves to day who let a cough take its course. Stop that cough at once with Shiloh's Consumption Cure, which all druggists sell at 25 cts., 50 cts. and \$1.00 a bottle. If it fails to help you money will be refunded.

"Molina" for its Flavor.
 The rich, delicate flavor of that famous Cereal Breakfast Food, MOLINA ROLLED WHEAT, distinguishes it from all other forms of Wheat Preparations. It is the natural flavor of the Wheat Berry when it is fully ripe—THE BEST WHITE WHEAT THAT GROWS. Better yet—Molina does not heat the blood. Best grocers sell it by the pound.

Dr. W. CHASE
DISCOVERED A NEW TREATMENT FOR NERVOUS DISEASES

In his study of diseases of the nerves, Dr. A. W. Chase found that in nearly every case the cause of trouble was improper nourishment. About one-fifth of all the blood in the human body is found in the brain, and unless this blood is rich and pure the nerves cannot obtain proper nourishment, and become worn out and exhausted.
 Nervous depression, nervous headache, nervous dyspepsia, loss of sleep and vital force, lack of energy, are symptoms of weak, watery blood and exhausted nerves.
 It was as a food for blood and nerves that Dr. A. W. Chase's Nerve Food was prepared. Its remarkable success in curing all diseases arising from thin blood and impoverished nerves is proof that Dr. Chase's theory of feeding the nerves and blood is the proper one; stimulants only urge on the tired and worn out nervous system until there comes a complete collapse.
 Dr. A. W. Chase's Nerve Food creates new brain and nerve cells, and makes the blood pure and rich. It restores to the exhausted nerves the vigor of perfect health. 50c. a large box, at all dealers, or Edmondson, Bates & Co., Toronto.

Farmers!
 Now is the time to see and find out all about our **New Frost & Wood Binder No. 2.**

In almost every locality there is one at work, and every farmer who has one is highly delighted with it every way, and out of 70 or 80 sold in this vicinity there is not one machine that is giving the very best of satisfaction. The same may be said of our **New Frost & Wood Mower No. 8.**

— ALSO OUR NEW —
Steel Wheel Tiger Rake
 which have been sold extensively during the last two seasons.

We have yet a few hundred pounds of the Plymouth Binder Twine
 out of the large quantity we have already handled.

We have also a few Second Hand Binders

Our thanks are due Mr. Gorsling for a present of Golden Queen Raspberries, a fine variety being cultivated by him in his plot. They are all right. Call again Mr. Gorsling.
 MASTER Harry Bentou, one of Mr. Mill's pupils from the entrance class began his career as wage earner on July 1st the day following the close of his examination. A person can generally find work or trouble by hunting for it.

For once we hear very little grumbling about the examinations for Entrance and Leaving. This may be attributed to one of two reasons, or perhaps both. The examinations may have been unusually easy or the candidates may have received better preparation than usual. Let us hope it was the latter, and that the course of success will continue.

Chief Constable Carson has been empowered by the Town Council to impound any cows found running at large during prohibited hours. The night after the publication of his authority, he found about twenty on the streets, but gave the owners a chance more by verbally notifying them. Since then we understand he has empowered men at each end of the town to run in any stray animals they may find. That seems to have put a stop to their night ramblings.

It is pretty safe to assume that advertising always pays if done judiciously. The week before last, some one unknown to us, claimed a dog being led by a little boy in town. At the boy didn't own the dog he meekly gave him up to the claimant who took him into the wagon and brought him home. Mr. James McNally, the owner, learned the dog snatcher's name, so it is claimed, and gave notice of prosecution if the dog were not returned. Part of our party went out Wednesday afternoon, on Thursday morning the dog was home. We presume the snatcher got his eye on the paragraph and cut the string.

Mr. Wm. Black, our hardware merchant, had a narrow escape from an accident on Sunday last. Mr. Black, Mrs. Black and Mr. Blue, Inspector of the Provincial Bureau of Mines, were driving along the base line, Glenelg, not far from Hayward Falls, when the animal he was driving in response to a cut of the wheel from one of the party, threw up his heels above the regulation height and struck Mr. Black in the face causing an ugly gash. No permanent disfigurement will result but it was close enough call all the same. It was a lively horse and Mr. Black thinks he could have dodged another move he made during the whole trip, but this time he wasn't watching.

Mr. N. McKechnie had a telegram on Friday last from the Hon. J. M. Gibson, Commissioner of Crown Lands, announcing that Mr. Blue, Superintendent of the Bureau of Mines for the Province of Ontario would be up on the evening train to examine some of the marl beds in the vicinity of Durham. He pronounced the marl here a first class article and was delighted to see it in such large quantities. Samples were taken to Toronto for analysis after which Government Bulletin will be published when no difficulty is anticipated in getting city capitalists to assist in promoting the cement scheme. An enterprise of such vast possibilities is worthy of the consideration of all.
