LOCAL NEWS.

Don't forget the Firemen's Picnic, Civic Holiday, Thursday, Aug. 10th.

FOR SALE.—A good second hand Bicycle, Brantford make—almost as good as new.—J. P. TELFORD 2nd.

JOHN Barker, says he wants 100 men to help at Mt. Forest. The Wages going are \$1.25 to \$1.50 a day.

A BUDGET from Watersville and another from Dornoch have just reached us but too late for this issue as we are just going to press.

SHARP'S Creamery in South Egremont near Holstein was totally destroyed by fire on Tuesday night of last week. Loss \$2,500. Insurance \$1000.

We are pleased to learn that Mr. Archie McKinnon who went to the hospital in Toronto some time ago for medical treatment is reported to be on the mend.

Our thanks are due Mr. Gorsline for a present of Golden Queen Raspberries, a fine variety being cultivated by him in his plot. They're all right. Call again Mr. Gorsline.

MASTER Harry Benton, one of Mr. Mill's pupils from the entrance class began his career as wage earner on July 1st the day following the close of his examination. A person can generally find work or trouble by hunting for it.

For once we hear very little grumbling about the examinations for Entrance and Leaving. This may be attributed to one of two reasons, or perhaps both. The examinations may have been unusually easy or the candidates may have received better preparation than usual. Let us hope it was the latter, and that the course of success will continue.

CHIEF Constable Carson has been empowered by the Town Council to impound any cows found running at large during prohibited hours. The night after the publication of his authority, he found about twenty on the streets, but gave the owners one chance more by verbally notifying them. Since then we understand he has empowered men at each end of the town to run in any stray animals they may find. That seems to have put a stop to their night ramblings.

It is pretty safe to assume that advertising always pays if done judiciously. The week before last, some one unknown to us, claimed a dog being led by a little boy in town. As the boy didn't own the dog he meekly gave him up to the claimant who took him into the wagon and brought him home. Mr. James McNally, the owner, learned the dog snatcher's name, so it is claimed, and gave notice of prosecution if the dog were not returned. Part of our papers went out Wednesday afternoon, and on Thursday morning the dog was at home. We presume the snatcher got his eye on the paragraph and cut the string.

Mr. Wm. Black, our hardware merchant, had a narrow escape from an accident on Sunday last. Mr. Black, Mrs. Black and Mr. Blue, Inspector of the Provincial Bureau of Mines, were driving along the base line, Glenelg, not far from Hayward's Falls, when the animal he was driving in response to a cut of the whip from one of the party, threw up his heels above the regulation height and struck Mr. Black in the face causing an ugly gash. No permanent disfigurement will result but it was a close enough call all the same. It was a lively horse and Mr. Black thinks he could have dodged any other move he made during the whole trip, but this time he wasn't watching.

Mr. N. McKEONIE had a telegram on Friday last from the Hon. J. M. Gibson, Commissioner of Crown Lands, announcing that Mr. Blue, Superintendent of the Bureau of Mines for the Province of Ontario, would be up on the evening train to examine some of the marl beds in the vicinity of Durham. He pronounced the marl here a first class article and was delighted to see it in such large quantities. Samples were taken to Toronto for analysis after which a Government Bulletin will be published when no difficulty is anticipated in getting city capitalists to assist in promoting the cement scheme. An enterprise of such vast possibilities is worthy of the consideration of all.

THE name of Annie Hemstock, of Priceville should have appeared amongst the list of Entrance Candidates who wrote at Flesherton.

OUR Traverston Cor. gives an account of the sad, sudden death of Mrs. Kerney. We add nothing more than extend our sympathy to the sorrowing relatives.

LUCAS WRIGHT & BATSON.—At Durham Mondays, 10 a. m. to 4 p. m., and Court Days, and at Priceville on Mondays, 6 p. m. to 8 p. m. (Commercial Hotel.)

Messrs Calder and Browne are at work on two additional new stores now, an extension of the Calder Block which will then extend into the river past high-water mark and complete the block.

Mr. F. W. Merchant, principal of London Collegiate Institute, formerly of Owen Sound, has been appointed principal of the New Normal School at London. A better teacher than Mr. Merchant is hard to find.

MRS. J. ALDRED who underwent an operation for a tumor a week ago is improving nicely. Nurse Wilkinson, who is home on a visit to friends near Varney, is in attendance. Dr. Jamieson has every hope of Mrs. Aldred's recovery.

It may not be generally known that persons, who from carelessness or any other cause, take mail that belongs to others, from the postoffice and fail to return the same are liable to fine or imprisonment. This applies to newspapers thus taken from a postoffice as well as any other mail matter.

MISS ALICE BRADLEY, of Orchard, who spent some time visiting friends in Toronto, returned recently to the parental home, accompanied by her cousin, Mrs. Culross, (nee Miss Wilson) and her little daughter, Ivy. Before returning, Mrs. Culross will visit her uncle, Mr. Thomas Gray, of Bunessan, and other friends.

THE Corbett Correspondent to the Shelburne Economist gives an idea of the morality of some of the citizens of that little hamlet in referring to two young men who went to Dundalk for a keg of beer, which, on returning, they and their companions proceeded to dispose of. Not satisfied to have all the fun to themselves they procured a pig and endeavored to force some of the liquor down his gullet, but the pig objected to fraternize with such low associations, and as soon as he gained his freedom made straightway to his companions, preferring the company of decent pigs.

THE Methodist people at Priceville had a pleasant garden party in their parsonage grounds on Friday evening last followed by a musical and literary program in the church. Mr. Richardson, of Flesherton, who happened there by mere chance, was requested to take the chair. The Durham Methodist Choir furnished good and appropriate music. Short addresses were delivered by the Chairman, Revs. Humphreys and Matheson, of Priceville, and Rev. Mr. Ward, of Flesherton. Maud Irwin gave a couple of recitations and Principal Blakeston two or three instrumentals. In addition to the choir a large load of the youth and beauty of Durham also attended.—Proceeds \$20.00.

D. MACKENZIE, F. A. I. P., Phrenologist and Physiognomist, Graduate and Fellow of the American Institute of Phrenology of New York, is now at the Middaugh House and will give you a Phrenological Examination and Chart, giving a delineation of every Trait in your Character, your Faults and How to Correct them, Talents and How to Improve them, showing in what Trade, Profession or Vocation you will be most successful, also the Adaptation in Marriage and Business Partnership. Brain is money! Character is capital! Knowledge of your Resources is the Secret of Success! What are my son's strong and weak points? What are my daughter's excellencies and failings? How can I lead them to be all I wish and avoid all I fear? What can they best do to earn a living, or to win honor and happiness? Advice as to the training of children a specialty. Will call at your home by appointment if requested. N. B.—There is only one other in Canada holding a fellowship Diploma.

CHASE NERVOUS DISEASES

Study of diseases of the nerves, Dr. Chase found that in nearly every case of trouble was improper nutrition. One-fifth of all the blood in the body is found in the brain, and unless it is rich and pure the nerves cannot receive nourishment, and become worn and exhausted.

Depression, nervous headache, dyspepsia, loss of sleep and vital force, are symptoms of weak, watery blood.

Food for blood and nerves that Chase's Nerve Food was prepared. It is a thin blood and impoverished of Dr. Chase's theory of nerves and blood is the proper one; it will urge on the tired and worn out men until there comes a complete restoration of nerve cells, and makes the blood rich. It restores to the exhausted man of perfect health. 50c. a large bottle, or Edmanson, Bates & Co.,
