Attracts on Sir Martin Conway in the Bolivian Andes. Martin Conway, the Englishman, has given the world so much interesting information about such widely separated parts of the world as the Andes, Spitzbergen and the Cordilleras of South America, has just published the Royal Geographical Society's report on his explorations in the Bolivian Andes last year, when he ascended the highest of the highest of the Andes. His remarks in his audience, for it is well known that most of them are non-Christians, and it was supposed that they were at least half civilized. Martin says, however, that they are well-disposed toward white men, and that the task of keeping them in order is not a slight one. In fact, the police have little to do with them, and such order as is maintained is due chiefly to the Indians who are exceedingly friendly and retain their ancient superstitions under a mask of Christianity.

natives seriously interfered with Martin's mountain work because of their superstitious belief upon the mountains above the table zone as a part of the sacred abode of divine beings and the haunt of their friends. The Funa Indians that on the summit of one of the Mount Sorata are a bull head, both of gold, that were there by supernatural agency. Sir Conway had no other view in ascending the mountain than to obtain possession of the sacred treasures. So they were never visited by the natives, not get their prey. In Sir Conway's opinion, if he and his men had gone hard with them, they would have been outnumbered.

On other occasions it was necessary to spend some time on a hilltop but the triangulation required a map the explorer was making. Unfortunately a monument of a departed ancestor on this hill, and the naturally object to having their names on the visits of strangers had no sooner set up his monument than he began collecting from all the 200 enraged natives. He had only a half-breed mule and was only by the skin of his teeth that he escaped. He had to take his theodolite and make off to the Indians who were stones at him could run almost as his mule could gallop. He used for four miles until he was within the walls of a town where he began his race for had been able to slip the into its case and next day uninjured. It was necessary to observe his observations and be with persons who were scarcely begun work, before the stone throwing and work had to be suspended. With the aid of Bolivian soldiers he was able to complete the work.

DEER WAGERS. made queer wagers in the present. One man afflicted with gambling spirit was Sir Mark offered to pay any one a dollar for each day Napoleon the taker would pay 100 dollars. A clergyman accepted and made a fine profit, as he had three years.

Ever since I can remember time past it grew constantly and I was fearful if I drew a line to stop to rest and regain would be so overcome with had to sit down to regain subject to nervous headaches deserted me. I am very ill, and as a result am very ill. The blessing of sleep is oppressive sensation has with the greatest of ease, and to me the circulation of blood from my limbs. I can see a world of good."

DEADLY CATARRH

has fastened its relentless grip upon some member of nearly every family in the land. Competent authorities estimate that from eighty to ninety per cent. of the entire population of this continent suffer from some form of this repulsive and dangerous malady. If you or any of your family suffer either from recognized catarrh or from the lingering colds which mark its early stages—don't trifle with it. It is the precursor of consumption and death.

Dr. Agnew's Catarrhal Powder

never fails. It is the remedy of all remedies, endorsed by the most experienced and eminent nose and throat specialists of the day, and having a record of a multitude of radical, permanent cures of chronic cases which had been declared incurable. It also cures cold in the head, influenza, hay fever, loss of smell, deafness, sore throat, tonsillitis, asthma and all similar diseases. It is delightful to use.

"I have had chronic catarrh ever since the war," says J. C. Taylor, of 210 N. Clinton Ave., Trenton, N. J. "I had despaired of ever being cured. I used three bottles of Dr. Agnew's Catarrhal Powder and my catarrh has entirely left me." Rev. C. E. Whitcombe, rector of St. Matthew's Episcopal Church, Hamilton, Ont., was a great sufferer. He used Dr. Agnew's Catarrhal Powder, and now proclaims it a safe, simple and certain cure. The Lord Bishop of Toronto, Can., recommends the remedy over his own signature. Sold by druggists.
