Cuffering caused by Piles

Is Quickly Ended when-

Dr. A. W. Chase's Ointment is applied

Besides the intense agony caused by the itching, burning sensations of piles, there are other symptoms which produce restlessness and at times excruciating pains known only to the victim of piles.

What would one give to be free of this terrible disease? And yet there is a cure-a positive cure—which does not cost much and is not painful or difficult to apply. Dr. A. W. Chase's Ointment is, so far as is known, the only absolute cure for blind, itching, bleeding and protruding piles. It gives

relief at the first application and affords a perfect cure in the most aggravated cases. Mr. Isaac Foster, Erieview, Ont., says: "I was troubled with itching piles for two years and could not sleep at night. I was half crazed and tried everything. Finally seeing Dr. Chase's Ointment advertised I tried it and found it good. After a second application I found relief, and one large box cured me. Have never been bothered since, and I can recommend it to all suffering from the same

SLEEP.

All our senses do not slumber simultaneously. They fall into insensibility, one after another. First the eyelids obscure sight, and the sense of taste is la the next to lose susceptibility. Smelling, hearing and touch then follow. Touch is the lightest sleeper and most easily aroused. After touch hearing st somest regains consciousness. Slumber si commences with the feet and works the its way up to the center of the nerv- th ous action. The sense of smell is the la last to awake.
