The Middaugh House, has changed hands, having last week been purchased by Mr. Samuel Beatty, of Brussels, who took charge of the place on Saturday last. The business will be managed by Mr. Jas. Beatty, brother of the purchaser, who with his family will move to town shortly.

Mr. N. M. Campbell, principal of St. Thomas Model School for the past twenty-three years, died very suddenly while at his work last week. An exchange says:—"Arthur H. N. Jenkins, editor of the Grand Rapids, Michigan, Times, has got himself into a fix over an attack made in his paper on Superior Court Judge Newham." He was sentenced for thirty days, to which he submitted courteously, promising to continue his paper during the period of his sentence. Jenkins, a former editor of this paper needs no introduction in this vicinity.

Last week we referred to a strong likelihood of Charter Smith's Foundry being removed from town. This week we regret his intentions are more serious, and the probability is he will soon go to Collingwood where liberal inducements are offered and chances of success are seemingly better. Should Mr. Smith go we hope a good Foundry will be maintained and the old Cochrane building be converted into something more profitable and ornamental.

SEVERE ACCIDENT.—What might have been a fatal accident happened at Proton Station Saturday while Messrs. J. C. Wright and Skelton were building brick in kiln for burning, seven rows fell, burying them under the debris. Help was at hand and the injured men were rescued from their perilous position. Mr. Wright was severely bruised and will be confined to bed for some time. Mr. Skelton escaped with less bodily injury, but had a fine hunting case watch, which he was wearing at the time, smashed. A boy named Myles had his ankle crushed.—Dundalk Herald.

A VERY successful Sunday School Convention was held last week in Trinity Church. Rural Dean Robinson, of Hanover, Rev. Mr. Hill, of Dundalk, Rev. Dr. Caswell, of Meaford, Rev. Mr. Herbert, of Walters Falls, Rev. J. R. Newell, of Markdale and Rev. H. E. Bray, of Hanover, were present and took part. The attendance was good.

Mr. J. D. Gunn, proprietor of the Middaugh House up to last week, died here yesterday, Wednesday, morning. For some time he complained of heart trouble, and his sudden death was not altogether a surprise. He was twenty-eight years of age, and leaves a wife but no children. Much sympathy is felt for Mrs. Gunn who is highly respected in the community. The remains were taken to Rosemont Wednesday afternoon.

While returning from the Convention at Hanover last Friday night, Mr. Slaughter and Miss Irwin, teachers of Flesherton Public School and Mr. Reid of the adjoining section had a narrow escape at the Flesher Station. John Hales was driving the rig and just as he was on the railway crossing an engine shunting in the yard moved rapidly towards him. Seeing their danger all except the driver jumped from the rig which was just then struck by the engine. Miss Irwin was shaken up a little but sustained no serious injuries.

When Does This Century Close?

Some people think the 19th century closes at the end of this year. Such is not the case. It closes December 31st, 1900. To mark the closing year, the publishers of that great paper, "The Family Herald and Weekly Star," of Montreal, are giving their yearly subscribers two magnificent pictures, instead of one as formerly. They have selected the "Battle of Alma" as one, and it is a beauty. The other is also a gem, entitled "Pussy Willows." It pays to be a subscriber to that great weekly. Just think of it. A paper of 24 pages, 192 columns, every issue equal to a book of 384 pages each week, and these two handsome pictures, all for one dollar. The publishers of "The Family Herald and Weekly Star" promised a surprise, but this beats all. All new subscribers as well as old ones are entitled to these pictures. "The Family Herald" office should be kept busy all this winter.

THE Furniture Factory is progressing favorably and a few days more will see the brickwork of the first storey completed. With sixty-one windows and three or four doors on the lower flat the building is beginning to present an imposing appearance. Contractors, McDonald and Moore, are hustling things along as fast as circumstances will permit, and present indications are that the building will be up by the 1st December, the time specified in the contract. The sooner operations begin the better, as orders can easily be had for the whole output of the factory working at its full capacity.
