

Supplement to The Durham Chronicle.

DURHAM, NOV'R 23rd, 1899.

ALLAN PARK.

Everything is about completed in Allan Park and everyone is highly pleased with the result.

Mr. Thomas Francis had the misfortune to lose two head of cattle by his straw stack upsetting and killing them.

Mr. Edward Hopkins has wound up his season's threshing and is highly pleased with the patronage he got and all are well pleased with his work.

The sneak thieves have been at work again. We are informed that they broke into the store here lately and helped themselves to some underwear.

We understand that the farmers are going to call a meeting for the purpose of forming a ring to patronize the blacksmith who would not be so daring as to put his hand into their pocket. They say they will leave the grass growing in front of some of their shop doors and they can pound at it for exercise.

Mr. Henry Brigham has purchased the Fensom property for the sum of \$3000. Mr. Brigham knows when he gets a good thing.

Mr. John Brown, the councillor, has gone off on a deer-hunting tour. He will be sure to bring back one, if not two deer.

One of our farmers says that he is going to stop showing his horses and is going to buy a donkey to run the roads.

The measles are going their rounds and some families are under the doctor's care.

Mr. D. McDougal is on the war path again and everyone is delighted over the decrease in taxes.

While Mr. A. Adlam was ploughing on Monday he turned up a living gartersnake about 2 feet long and which, he said, was not down over 3 in. in the soil.

A number of invited guests gathered at the home of Mr. James Alexander one evening last week and had a pleasant time.

Mr. Thomas Brigham has the contract of cutting 200 cords of 4 ft wood for Mr. Caswell. Tom is not one of those fellows who are afraid of work.

Mr. W. McCalmon, the marble man, of Durham, was through this way lately on business.

On week days we are busy, on Sunday we go to church, but when the stage bell rings on mail nights you ought to see the of men and boys around the office door, waiting to get the latest reports of the war.

WORKING NIGHT AND DAY.

The busiest and mightiest little thing that ever was made is Dr. King's New Life Pills. Every pill is a sugar-coated globule of health that changes weakness into strength, and restores energy, brain-fag, and all the wonderful in a few days.

It has such maps as one might expect to find in the most expensive atlases. The details are worked out from official sources not available to the general public and the whole is carefully indexed, enabling one to find the smallest places in a moment. Interesting statistical information, including dates of all important occurrence in the Philippines, are given in the margin and the reverse side of the folder contains no less than sixteen general maps that also bear on the news of the day. The map is printed on satin-surfaced linen paper with an artistic title page in colors. It is such a collection as every newspaper reader needs to have in his pocket or on his desk for instant reference when he reads his daily paper. For sale by the publishers, the Matthews-Northrup Company, Buffalo, N. Y., and by the American News Company at any of its branches. Price 10 cents.

Central Business College.

The Central Business College of Toronto is enjoying unusual prosperity this term and while it is constantly sending out capable young men and women into business positions, it has been found necessary to enlarge its premises and increase its equipment to accommodate the steadily increasing attendance which last week brought in representatives from Thessalon, Listowel, Delhi, Islington, Georgetown, Brampton, Guelph, Sundridge, Newcastle, Fenelon Falls, and St. Johns, Nfld. This is truly a representative Business School.
