ORCHARD. Messrs. Frank and Samuel Calvert, sons of John Calvert, Sr., of the North-west, are visiting in the neighborhood. Frank has been East in Montreal, Hamilton, Toronto and other places buying goods for their clothing department. Sam'l bought a car-load of furniture at the Mount Forest Factory, and had it shipped West to supply part of the demand out there.

The Methodists are holding Revival Services in their Church here and have large gatherings every night. Mr. H. F. Caldwell has disposed of his store and goods to a gentleman from a distance, who will take possession in the early spring when Mr. Caldwell leaves for the West.

Mr. J. Garvey has been busily engaged taking out timber for a new barn.

The new blacksmith has taken possession and is doing some good work.

Mr. Robt. Schram is on a short visit to his old home after an absence of four years in the West. He has a situation near Crow's Nest in the coal and gold locality. While building the railroad he was engaged there as a blacksmith and thinks there was more talk of hard treatment than there was any necessity for.

The Caldwell Bros. are packing hay which will be shipped from Holstein.

POMONA. Mr. John Morrison lost a good 3-year-old heifer through getting strangled in the stable one night last week.

Mr. Neil Campbell and two children, of Hanover, paid a flying visit to his parents one day last week.

Messrs. McMillan and Dan McDonald having squared up all the timber they could lawfully lay their hands on here they are now working near St. George.

St. John's new cemetery now contains ten inmates, but part of those were re-interred from the old one.

One of Glenelg's earliest settlers and nearing the century mark was Catharine Black, relict of the late Angus McPherson who departed this life on Tuesday night of last week, the 6th inst., at the advanced age of 97 years. The exact date of her birth was not procurable, but we give the age as was given on the breastplate. She died at the home of her son Ronald, con. 3, N. D. R., or better known as the east end of Scotchtown. Being a native of the Highlands of Scotland she was possessed of an excellent constitution and the necessary stamina to endure the many hardships incidental to pioneer life. She was led to the hymeneal altar in the old country by her husband who pre-deceased her after coming to this country or about the year 1856. Mr. McPherson was the first to be buried in what was at those early times the first burial plot in this vicinity, which is on the farm now owned by Mr. M. McGrath, of the 4th con. Mrs. McPherson was the last one of her father's family to be called away. She had and has still many relatives in this neighborhood. The late Joseph Black was her brother and J. S. Black her nephew. Her own union was blessed with nine offspring, three sons and six daughters, all of whom grew to men and women's estate except one and were all born in the Highlands. For over 4 years previous to her decease she was deprived of her sight but bore her affliction with Christian patience. The funeral took place on Saturday last. She being a life long Catholic her remains was interred in the new R. C. cemetery hard by the Church. Service in the meantime being dispensed with as the past was unavoidably absent. A number of children are ailing with what appears to be scarlatina. Arise, ye sages, and tell us the

signs of the times as the robins red breast is seen most every day now, something unprecedented at this season of the year.

BEATS THE KLONDIKE. Mr. A. C. Thomas, of Marysville, Tex., has found a more valuable discovery than has yet been made in the Klondike. For years he suffered untold agony from consumption, accompanied by hemorrhages, and was absolutely cured by Dr. King's New Discovery for Consumption, Coughs and Cold. He declares that gold is of little value in comparison with this marvellous cure; would have it, even if it cost one hundred dollars a bottle. Asthma, Bronchitis and all throat and lung affections are positively cured by Dr. King's New Discovery for Consumption. Sold at any Drug Store. Regular size 50 cents and \$1.00. Guaranteed to cure or price refunded.

BUNESSAN. And now every farmer wonders if there is to be any more snow, and what he'll do with the logs and wood that he'd haul, and how he'll pay that debt that these same logs and wood was to pay. John McCoskery and family have returned to their home in Stewart town whence, we understand, he will go to take a situation in Toronto.

Miss Kate Ector, from Collingwood is visiting her sister, Mrs. A. Firth, for a few weeks. After a few months agreeably and profitably spent in Toronto Mr. Grant McComb has returned home probably for good. Grant has enlarged his ideas and experience, and will be all the better a farmer for it.

Mr. T. McComb has purchased the 50 acre farm now occupied by Mr. J. Edwards, paying in the neighborhood of \$600 for it. As there is a house on it we suppose Mr. McComb wants to be ready for the time when his son Grant will need greater accommodation. It may be soon. We have not heard what Mr. Edwards' plans are.

It is reported that Sam Jackson and wife will move into Bentinck to live rather than go to British Columbia as the intention first was.

Miss S. Hughes, from Durham, has been visiting at Mr. A. C. Beaton's for a week and has thoroughly enjoyed the holiday. Mr. McGregor spent two or three days among his flock last week. He never fails to be on time for the service at the Centre.

If you would only get a steam press next, Mr. Editor, we think THE CHRONICLE would leave all competitors about as far behind as the Goat can leave the Gander in gab, wit and family.

Mrs. Armstrong, who resides near Angus, in Simcoe county, was 108 years of age on Tuesday and is in fair health and able to go around. She was born in the county of Leitrim, Ireland, came to this country in 1840 and has lived in Simcoe 6 years.

You Can't Dodge Them

Did you ever try to dodge the rain-drops? Did not succeed very well, did you? It's just as useless to try to escape from the germs of consumption. You can't do it. They are about us on every hand and we are constantly taking them into our lungs. Then why don't we all have this disease? Simply because these germs cannot gain a foothold in a strong throat and lungs. It's when these are weak that the germs master. The body must be well supplied with fat. The danger comes when the blood is poor and the when is thin. If your cough does not yield, and your throat and lungs feel raw and sore, you should not delay another day. Take

Scott's Emulsion of Cod-Liver Oil with Hypophosphites at once. It will heal the inflamed membranes and greatly strengthen them as well. The digestion becomes stronger, the appetite better and the weight increases. The whole body becomes well fortified and the germs of consumption cannot gain a foothold. It's this nourishing, sustaining and strengthening power of SCOTT'S EMULSION that has made it of such value in all wasting and exhausting diseases.

SCOTT & BOWNE, Chemists, Toronto.

Mr. R. Barber was offered a good price for his matched team last week but did not feel inclined to take it. R. knows when he has a good thing you bet.

Mr. John Carson had a wood bee last week, and got a nice pile put up.

Mr. Adam Little is going to rent his shop and take a trip to the West, thinking it will improve his health. Good idea Adam.

HOW ONE GETS BILIOUS. A sluggish liver fails to filter the bile from the blood, and when the poisonous matter goes through the body in the circulation, the whole system is tainted and outraged. This is called biliousness and can be completely cured by Dr. A. W. Chase's Kidney-Liver Pills, which act directly on the liver, making it healthy and active. One pill a dose, 25 cents a box. The cheapest medicine in the world.

Mr. Andrew Derby, of Normanby, was through this way lately, and bought up a lot of hogs, for which he paid the farmers a good price. Mr. Derby is the right man to deal with. Call again Andrew.

We were informed that a certain man bought a cow for which he gave a fur coat in part payment. Afterwards the right owner appeared on the scene, and brought the bailiff along, seized the cow and took her home. The query is, did they bring the coat along or has it returned yet.

Mr. George Moore sold a horse to W. Peters, of Sullivan, for \$65.00. George intends going west in a few weeks.

BRAVE MEN FALL. Victims to stomach, liver and kidney troubles as well as women, and all feel the results in loss of appetite, poisons in the blood, backache, nervousness, headache and tired, listless, run-down feeling. But there's no need to feel like that. Listen to J. W. Gardner, Idaville, Ind. He says: "Electric Bitters are just the thing for a man when he is all run down, and don't care whether he lives or dies. It did more to give me strength and good appetite than anything I could take. I can now eat anything and have a lease on life." Only 50 cents, at any Drug Store. Every bottle guaranteed.

The Toronto Junction Schools have been closed as a preventive against the spread of small-pox which recently broke out in that town.

Editor Thurston, of the Flesherton Advance, is now domiciled in his comfortable, commodious and convenient office recently purchased. We congratulate our friend of the Advance in his advance upward which to us is an evident sign of advancing prosperity.

The Markdale Standard thinks the Co. Council has erred in deciding to hold its next meeting in Darham not that any fault is to be found with Durham, but that the county town is the only proper place to hold these sessions. Instead of endeavoring to stamp out the evil it is added: "Since they have gone to the north, however, and have decided to go to the south we may confidently expect a session in the centre of the county ere long."

ASTHMA. Mr. George Rutden, Putnamville, Ont., says: "I feel it my duty to recommend Dr. Chase's Syrup of Linseed and Turpentine, as I had the Asthma very bad; could get nothing to do me any good. A friend of mine persuaded me to try this remedy, as he had tried it, and it proved successful. I tried it and it cured me. GREAT LOSS OF LIFE from Bright's Disease

A dreadfully fatal disease which is prevented and cured by Dr. Chase's Kidney-Liver Pills

Bright's disease is a further development of kidney disease, and has for its most marked symptoms backache and urinary troubles. It is so insidious in its beginnings as to frequently escape detection, and with the single exception of consumption is the most fatal disease known to man.

Bright's disease is a wasting away of the tissues of the kidneys, and in its later stages cannot possibly be cured. So long, however, as the kidneys are not in an actual state of decay, Dr. Chase's Kidney-Liver Pills will revitalize the diseased parts and positively cure Bright's disease.

Dr. Chase's Kidney-Liver Pills are a perfect and ideal remedy for all kidney ailments. They act naturally and directly on the kidneys and promptly and positively cure Bright's disease, diabetes, dropsy, rheumatism, and the most serious complications of kidneys, liver and bowels. One pill a dose.
