"Their treatment of the native races has been shocking in the extreme. The evidence comes from too many sources to be questioned. Even although only one-tenth were true, it would be sufficient to arouse the indignation of all lovers of right. The Methodist Times recently published a " Message to the Christian People of Great Britain,' from Mrs. Lewis, a Dutchwoman, sister of the Prime Min-Schreiner. In the course of it she printed. For some months I suffered 6ays:-

ed, maltreated, and, as far as they dressed to heaven from the length and suffer tortures as I did." territory, defy description, and it has seemed as though redress would never come, as though no deliverance were possible. To justice-loving souls who have never known of these wrongs It has been like some horrible nightmare, that in this nineteenth century within the limits of a country over part of which there waves the British flag, political and social oppression by one race over another was being grossly practised, to know that on every side individual brutalities were times, and that not by Arab slave driv- history of South A.rica: ers or Moslem oppressors, out by a Discovery of the Cape of Good ligious people who, with the Bible in | Hope by Bar holomew Diaz. their hands and loud professions of First appearance of the Dutch faith, and prayers, were practising barbarities, in peace as well as war, which put to shame the records of what the savages of this land have First British occupation of inflicted even in war time, upon white races, Oh! it has been horrible be- Cape Colony ceded to Britain Just one other witness, Mr. George Lacy, who resided for many years am- English declared the official ong the Boers writing to the South

WHAT ICELANDERS EAT.

In Iceland the native's dinner usually consists of dried fish and butter. The fish is ling or cod, which, when killed, while the ghastly heap of caught is split and then hung on the mangled limbs, which tilled upward of lines by the seashore to dry in the 20 sacks, probably accounted for many cold winds and hot sun. When thus preserved, they will keep for years, being as hard as the nether millstone. the adjoining home property was re-When wanted for dinner, the fish is ple were rendered homeless. well hammered by a stone mallet and then cut up into strips. In this state they are eaten, but it is said that it needs an Icelander's teeth to get through the meal. The butter there will be found a series of numis not spread on the fish, but the two bers so fine that a glass is needed to are taken alternately, first a mouth- correctly read them. 65 tons. The 9 1-2-in. gun is lighter, and fires a shell weighing three hundredweight.

Both of these guns are too heavy for the system of fighting which the Boers have pursued up to the present; in fact, they are too cumbersome for land warfare altogether. Guns of this calibre are common enough on battleships and in forts; but as part of a mobile, constantly shifting army heavy, too slowly loaded, and no more effective than the lighter, more easily transported and more quickly fired pieces which the enemy is now using. Under the circumstances, what object had the Boer authorities in view when they gave the order for these enormous guns?

One explanation is that they were intended to assist the Transvaal in its designs on Delagoa Bay. Another is with LOCAL APPLICATIONS as they cannot that they were the nucleus of Presi- reach the state of the disease, (attribit a blood dent Kruger's great dream of a Transuguese agreement nipped in the bud 1869 the former scheme; an S.A.R. navy 1877 never came within the range of poe-1879 sibility at any time; so there would 1831 appear to be no mission at all for those giant cannon from Creusot. But the Transvaal Government would not go to the expense of buy-1385 ing the guns unless there was some well-defined object in view. That they 1839 had such an object is now clear. The guns are in the Transvaal at the 1893 present time; they have not moved out of the Transvaal since the outbreak of hostilities-they are being kept for the momentous day when

Eighteenth

The eighteenth annual meeting of the shareholders of the Federal Life Assurance Company of Canada was held at the head office of the Company in Hamilton, on March 6, 19 o. The managing director, David Dexter, presented the following reports and financial statement.

DIRECTORS' REPORT.

The directors have pleasure in submitting for the information and approval of the shareholders the following report of the turiness of the company together with a statement of receipts and disbursements for the year which s os d on Dro. 31, 1889, and of the assets and liabilities on that date. New business consisted of eighteen bundred and fifty-seven applica ions for insurance, aggregating \$2.639.709, of which seventeen hundred and a nety-five applications for \$2.45, \$0 were accepted; applications for \$141,800 having been rejected or held for further information. Annuity prescriptus to the amount of \$4,000 were also received. During the year, as in previous years, at our 30 per cent, of the new business of the company was on its investment place, showing that investment insurance still holds favor in compar son with other forms of investment—on which interest cornings are depreciating steadily. The feature of profit accumulations for a term of yours is

moreceing in popularity. The increasing prosperity of the o untry bas extended its influence to life insurance. is indicated by the large increase in the premiers income and assets of the comp ay. The gross income of the company about a gratifying increase over previous years, and the addition of \$104,272, The great income of the company above a gratifying increase over previous years, and the addition of \$200,000 to the security for Policyholders, the total assets having ris in to \$1,900,600 50, exclusive of gramantee capital. The security for Policyholders, in luding guarantee capital, amounted to \$1,600,600 50, and the liabilities for reserves and all outstanding claims, \$946,403.63—showing a surplus of \$723.257.77. Exclusive of uncalled guarantee capital, the surplus to policyholders was \$114,257.77. Assurances for \$106,000, on forty-five lives, became claims through death, of which amount the company was re-insured for \$4.000. Including cash dividends and dividends applied to the reduction of premiums \$21,460.52, with annuities \$2,572.67, the total payments to policyholders amounted to \$125,454.89. As foreshedowed in last report, the securing of the special act of incorporation the national of Canada has area in increased our presents in the other provinces, much to the advantee. from the parliament of Canada has area by increased our investments in the other provinces, much to the advantage of the company. The investments of the company have been carefully managed, and have yielded results

con iderably above the average results of all companies doing business in Canada. Expenses have been kept within reasonable limits while due fort has been made for new business. The chief officers and agents of the company are entitled to much credit for their able representation of the com any sixterest. The office staff have also proved faithful in the company's service. The accompanying certificate from the auditors vouches for the correctness of the statements submitted here with. Ah secounts, securities and vouchers have been examined by them.

JAMES H. BEATTY. DAVID DEXTER. Managing Director.

President AUDITORS' REPORT. To the President and Directors of the F. deral Life Assurance Company :

Gentlemen: We have made a careful audit of the books of your company for the year ending Dec. 21, 1899. and have certified to heir correctness The securities have been inspected and compared with the ledger accounts and found to agree therewith The funncial position of your company, as on Dec. 31, is indicated by the accompany ng statement.

Respectful y submitted.

H S. STEPHENS. SHERMAN E. TOWNSEND,

Hamilton, March 1, 1900 FINANCIAL STATEMENT, 1899. Premium income Interest and Rents

410,289 14 Paid to policyholders for death claims, endowments, surrender values and 125.454 89 Balance..... 181,200 11

\$ 440,239 14 ASSETS 31ST DECEMBER, 1899. Debentures and Bonds 94.673 84 Mortgag s..... ouns secured by pricy reserves 226,541 63 Cash in banks and other assets..... 245,838 63
