New Goods are Constantly Arriving

The stock of Corsets we received last week was one of the largest and most complete we have ever handle l. All shades - Pink, Dove, White and Black, and are all Crompton's make -the very best. To make room for these we will clear out about fifty pairs of odd sizes and styles below cost.

WE HAVE ALSO opened up a large range of Ladies' Cashmere Hose, Underwear, Straw Hats, Parasois, Boots & Shoes and Dress Goods.

Gentlemen!

Our immense stock of Gent's Furnishings-the largest in the last twenty years arrived last week, comprising:

Socks and Spring Underwear, Colored Cambric and Silk Front Shirts,

Gent's Sashes and Belts, Sweaters and Bike Hose, Handkerchiefs and Neckwear, Waterproofs and Umbrellas.

Great Alteration Sale!

We intend making extensive alterations in the interior of our store this month. Contracts have already been let for tak- hennery started there. ing down walls between our two stores, putting in new shelving, plate glass front in store, plate glass counters, re-painting, Kalsomining, etc. How we are going to do all this work and carry on our business at the same time we hardly know. Our present stock must be very much reduced to enable the work to go on. The carpenters, masons. plasterers and painters will be hard after us, and we want to reduce our stock by Two Thousand Dollars. Can we do it? We will try hard. What will our store look like when finished? We will tell you more about that later on. In the meantime gather together all the money you can and invest it in Dry Goods as such an opportunity to buy first class goods at CUT PRICES will not occur for a long time.

Our special display of Spring Millinery last week would give some idea of what is new and stylish. If you would have a New Easter Hat come right along and give us all the time you can. The new shapes and trimmings are in plentiful assortment, and any ideas the trimmed goods may suggest our clever workers stand ready to embody in a Hat or Bonnet.

Remember Our Alteration Sale

Is now on and will continue until we secure the necessary space.
