### NORMANBY COUNCIL.

The council of the township of Normanby met on April the 12th in meetings were read and confirmed.

The following answer was received from the General Manager of the Grand Trunk Railway Company, relative to complaints as to accomodation for the travelling public at Neustadt and Ayton: "All passenger trains stop at both stations. The train passing through Neustadt about 11 a. m. (to which you refer,) is a freight train, which I am sorry to say, we cannot stop at Neustadt and Ayton, on account of very heavy grades in the vicinity, to do so would cause the reduction of the load hauled, resulting in our inability to handle important business offered. While at all times anxious to patrons, we cannot as you will readily understand, undertake additional expense that the business will not warrant; but in this instance, I think the above should convince you that there is no

really good reason for complaint.

A by-law was passed to confirm the
