A. GORDON

Watchmaker and Jeweller. Lower Town, — DURHAM.

NOTICE TO CREDITORS.

In the Surrogate Court of the County of Grey, in the Estate of John Kennedy, late of the Township of Bentinck, in the County of Grey, Yeoman, Deceased.

NOTICE is hereby given pursuant to R. S. O. 1877, Cap. 129, Sec. 38, and Amending Acts, that all persons having claims against the Estate of the said John Kennedy who died on or about the 28th day of April A. D. 1900, are required to send by post pre-paid, or to deliver to John P. Telford, Solicitor for the Executors, on or before the 13th day of July, 1900, their names, addresses and descriptions, and a full statement of particulars of their claims, and the nature of the security (if any) held by them duly certified, and that after the said day the Executors will proceed to distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which they shall then have notice.

Dated this 27th day of June A. D. 1900. J. P. TELFORD, Solicitor for Executors. June 27, 1900—3.

PRESBYTERY NOTES.

The Presbytery met at Palmerston on Tuesday of last week. Rev. Mr. Paterson, of Arthur, accepted the call to Chesley. The Presbyterian Young People's Association will meet next year in Harrison, the President elect being Mr. Macdonald, Principal of the Public Schools there. Rev. Mr. Farquharson delivered an address at the Convention of the Young People's Society at the last Convention at Palmerston. Subject "The pervasive Power of Presbyterianism."

WILL WORK AT NIGHT.

Countless thousands have found a blessing to the body in Dr. King's New Life Pills, which positively cure Constipation, Sick Headache, Dizziness, Jaundice, Malaria, Fever and Ague and all Liver and Stomach troubles. Purely vegetable; never gripe or weaken. Only 25 cents at all drug stores.

EXCHANGE ECHOES.

School Section No. 6, Holland, has been awarded the diploma for North Grey for the excellent condition of the school house and premises and general equipment. Miss McCormick the teacher, together with the board of trustees, who so loyally co-operated in the improvements wrought during the year, are deserving of hearty congratulations for their enterprise.—Standard.

Messrs. E. Tolton and M. Richardson, the recently-selected Conservative candidates for the Commons for N. Wellington and S. Grey respectively, called at the Rep. office while in town Thursday attending St. Mary's church picnic. In both gentlemen the Conservative party has standard-bearers it may well be proud of, and if they are not enabled to add M. P. to their names after next election it will be a sad reflection on the judgment and appreciation of worth on the part of the electors of the two ridings.—Mt. Forest Representative.

Mr. W. H. Jenkins, of Owen Sound, has returned from England, where he has been looking after the estate of his father, Mr. Geo. Jenkins, of Nottingham, whose accidental death was announced some months ago. Mr. Jenkins secured letters of administration of the estate, which is valued

up in the thousands. He and his two brothers, Messrs. A. H. N. Jenkins, of Grand Rapids, and A. E. Jenkins, of Manitoba, are the sole heirs.—Chatsworth News.

Gertie Nixon, of Orangeville, who was shot by young Ottawa Hunter on July 2nd, has not undergone much change in condition, and there is a hope for her life. An X-ray apparatus has been brought up for the purpose of making a search for the bullet, which is believed to be in the lung. An injury to her spine has caused paralysis below the waist. Whether or not this will be permanent or fatal depends considerably on the extent of the injury. If the spinal cord is severed or too severely damaged, the worst is to be feared. If, however, the cord is only affected by concussion, the damage may be gradually overcome and the patient's life saved.—Shelburne Economist.

A shocking incident was brought to the notice of our reporter this week and one that would be well for the authorities to look into. Last Saturday morning Mr. Neil McMillan proceeded to tether his cows on the cattle fair grounds as usual when he came across quantities of salt and Paris green laid around on pieces of newspaper, with what he believes was the evident intention of poisoning his cows. Fortunately it was discovered in time to prevent any damage being done. That some one wishes to spite or injure Mr. McMillan is further evidence in the fact that not long ago two dogs and some hens of his were poisoned to death.—Mt. Forest Representative.

On Saturday afternoon last, while a number of little girls were playing in Victoria Park, a serious attempt to outrage one of them was made by a fiend in human form. Little Jennie Cheeseman wandered a short distance from her companions and was seized by a ruffian, who threatened to take her life if she made any outcry. She screamed, however, and her friends rushing to the spot, screamed also, and the brute becoming frightened ran away. The little girl when rescued was almost stripped of her clothing. We hope every effort will be made by the authorities to discover the monster, and give him his deserts—the lash and penitentiary. A little of Southern lynch-law might have a deterrent effect on these human reptiles.—Collingwood Messenger.

SEVENTEEN YEARS OF TORTURE

"I had a cough for seventeen years" writes Mrs. Sam'l Hamilton, of Lawville, Tenn. "No doctor or medicine could cure it until one year ago I began to use Dr. King's New Discovery for Consumption, which did me more good than all other medicines I ever used. It is truly a grand cure for stubborn Coughs, Colds and Throat and Lung troubles." Positively cures Consumption, Pneumonia, Grip, Bronchitis, Asthma, Hay Fever and Croup. Price 50c and \$1.00. Guaranteed. Trial bottles free at all drug stores.

HITS AND MISSES.

A citizen boasts of being a self-made man. That's the reason he worships his maker. When a fellow's collar is too high its hard to get down to work. If a minister pays two dollars for a livery, and three dollars for a wedding present he can't afford to pay much for a notice, if the groom pays him off with a bushel of turnips, or its cash equivalent. The long journey bicycle craze seems to be nearly petered out. Some prefer walking when they're in a hurry.

Two of our wheelmen went four miles in an hour and a half one day last week. When we say the high record is attributable to the fact that they walked half the distance the story wont be so hard to swallow. A Grit farmer tells us we are foolish for publishing the article on "Noxious Weeds." Likely we are, but if so the Grit government must be foolish for issuing the bulletin from which we copied the article. Isn't that so Mr. Grit farmer?

The Hanover Post speaking about last week's hail storm says "One was picked up that measured 3 1/2 inches in diameter." Wasn't the quarter inch allowed for melting that occurred during the act of measuring Brer Mitchell. It's all right and close enough for a newspaper. "I'm considerable of a liar myself" said a citizen when he was told about a hail stone three inches in diameter. We'll take his word for it. If a thing with a hat and coat on constitutes a man, an ordinary scarecrow will fill the bill. A little gossip, like a little learning, is a dangerous thing.

Tenders Wanted

Tenders will be received up to 12 o'clock noon, July 21st, 1900, for the several works of a stone and brick dwelling house for Dr. Freel, Durham. Plans and specifications can be seen at the office of the undersigned from July 14th, 1900 to July 21st, 1900, to whom tenders will be addressed. Tenders will be received separate, or as a whole. The lowest or any tender not necessarily accepted, E. J. FREEL, M. D.

ATTEMPTED MURDER.

(Walkerton Herald.)

Last Sunday night, H. J. Hays, the Pittsburg printer, who has been spending some time here, made an attempt to murder his wife, but in the darkness he caught his mother-in-law and cut her throat from back of her left ear to the centre of the neck in front.

Some time ago it will be remembered by readers of the Bruce Herald that Hays came here and abducted his two children from his wife who left him in Pittsburg seven months previously taking the children with her. He made a mess of the abduction business and was caught at Teeswater. The magistrates, after thinking for ten days, concluded a man could not abduct his own children and dismissed the case. In the meantime Mrs. Hays applied to a higher court who gave her the custody of her children. Hays has been hanging around town ever since and has not been conducting himself very well.

Last Sunday he borrowed a razor for the purpose of shaving himself, so he said. In the evening along about eleven o'clock he went up to the Rev. J. J. Wilson's where his wife is housekeeper and broke a window, climbed into the house, and in the darkness he caught hold of his mother-in-law, Mrs. Barr, a very old lady, threw her on the floor and cut her throat from back of the left ear to the front. Fortunately the cut was not a deep one and fourteen stitches that the doctor put into it will probably bring the old lady around again.

The screeching and noise attracted the attention of Mr. Wm. Shaw and his brother Farquhar, and together they ran down to Wilson's. Seeing the condition Mrs. Barr was in Farquhar went down town to get a doctor. On his way back he met Hays on the little hill east of the woolen mill. Hays probably thought Farquhar was trying to catch him so he pulled the razor and attacked him, but Mr. Shaw was too much for him. Pat. as Farquhar is commonly known, hit Hays and knocked him down then jumped out on the road, picked up a stone and gave Hays such a crack that it knocked him unconscious. Calling for help, Constable Russell, who had in the meantime been searching the neighborhood arrived and Hays was taken to jail.

Hays had a hearing before Magistrate Miller on Monday, but after a little evidence was taken was remanded until next Monday in order that Mrs. Barr might appear. Mr. Otto E. Klein acted for the prisoner and Mr. Thos. Dixon for the crown.

THE GREEN SICKNESS.

Girls who lack sufficient nerve force to develop into healthy womanhood become pale, weak, nervous and irritable. They have chlorosis or "green sickness" and can only be cured when the nerves are restored and revitalized and the blood made rich by using Dr. Chase's Nerve Food, the great restorative in pill form. It makes pale, weak women and girls healthy, rosy and plump. Note increase in weight while taking it.

VICKERS.

Fall wheat harvest has begun in this part. Mr. John Richardson, Port Elgin, spent the first part of July with friends here. Mr. and Mrs. Jos. Corbett left Saturday for the Canadian Soo on an extended visit.

NOXIOUS WEED.

PERENNIAL SOW THISTLE, FIELD SOW THISTLE, OR CORN SOW THISTLE. A perennial weed, 1 to 3 feet high, with large and vigorous rootstocks, full of milky white juice. The stems are rough, and the growth of the lower part of the plant is rank. The leaves are deeply cut and furnished with small spines, and at their base clasp the stem. The flowers are bright yellow, of fair size, 1 in. across, and quite similar to those of a dandelion. They close up in strong sunlight. The calyx, or flower cup, is green and covered with yellowish bristles. The seed is brown, and quite about 1/2 in. long, with both longitudinal and transverse markings. To the top, a tuft of silken hair is attached. An average plant produces about 2,000 seeds. Time of flowering, June-August. Time of seeding, June-August. Dispersal—by running rootstocks, and the scattering of seeds by the wind. The sow thistle draws much water from the soil and is a heavy feeder. It is less troublesome on stiff clays than elsewhere. ERADICATION.—The method used for the eradication of the Canada Thistle is recommended for this weed. FLEABANE, OR HORSE WEED. A tall hairy plant, very common in meadows. It is a winter annual. The stem is much branched and is hairy. The leaves are downy, from 1 to 4 inches long. The flower heads are numerous, about 1/2 in. broad, with white flower rays. The seeds are small, light in color, and 1-16 in. long, with a pappus of short tufted hairs. An average plant produces 120,000 seeds (Kerner). Time of flowering, June-September. Time of seeding, June-September. Dispersal—chiefly by the wind. ERADICATION. Having a small root, this weed can be easily pulled. Hence, where there is not very much of it, hand-pulling is a satisfactory means of eradication. As a rule, the weed is troublesome only in meadows and the frequent breaking up of meadow land tends to keep it under control.

Fifty Years in Durham.

Mr. Haskins praised South American Nerve, while his wife cannot say enough in favor of South American Rheumatic cure.

Mr. Haskins says that he suffered for years from dyspepsia and indigestion. By the advice of his pastor he purchased a few bottles of South American Nerve and was cured.

Mrs. Haskins, for twenty years, suffered from rheumatism and Neuralgia. The very first dose of South American Rheumatic Cure gave relief, and one bottle so greatly improved her that she thought it was almost magic. Sold by MACFARLANE & CO.

Itching Piles

A Fearfully Bad Case—Much Pain and Acute Misery From the Terrible Itching—Cured by Dr. Chase's Ointment.

It is doubtful if any remedy ever received so much grateful, unsolicited testimony as Dr. Chase's Ointment. The reason is not far to seek, for it is the only preparation known to man which never fails to cure piles. Mr. F. G. Harding, a retired farmer, living at Nilestown, Middlesex county, Ont., writes as follows:—"I have been troubled with bleeding and itching piles for four or five years, and suffered intense agony at times. I had tried almost everything, but could get nothing that would give relief. On hearing of Dr. Chase's Ointment I procured a box, and it only required part of it to completely cure me. I am recommending it to all afflicted as I was." Such incontrovertible evidence from responsible persons cannot, for a moment, be doubted. A few applications of Dr. Chase's Ointment will convince the most skeptical of its wonderful healing and soothing influence. A box or two will positively cure the most severe case of piles; 60 cents a box, at all Dealers, or Edmanson, Bates & Co., Toronto.

EDGE HILL.

The farmers in this vicinity are busy haying. The crop is a light one.

Miss Jennie McGirr is visiting Mrs. John Collier and other friends in this neighborhood.

Miss Maud Banks from North Bay and Miss Bessie from Laurel, are spending their holidays at the old homestead.

Miss McCallum is visiting at her aunt's, Mrs. Robert Ector's.

We are sorry to learn that Mrs. Joseph Firth is on the sick list at present. Dr. Jamieson is in attendance and we hope soon to hear of her recovery.

Quite a number of the young folks from Edge Hill took in the picnic at Bunessan on the 12th. They all enjoyed themselves.

Mr. G. A. Staples, of Holstein, came home on the 12th and attended Bunessan picnic.

Mr. George Gray of Laurel is visiting his daughter, Mrs. Richard Banks, near Glenroaden.

Miss Kate Ector who has been ill for the past three weeks is slowly recovering.

Mr. Wm. Qendar and his two sisters, Misses Josie and Mary, of Orchard visited at Mr. Dan Greenwood's on Sunday last.

Miss Millie Ector is expected home from the West this week.

Mr. George Ritchie is reaping a rich harvest of honey. He extracted nearly 1500 lbs last week.

Mr. George Firth and son John, of Melancton, are visiting the Firth families and other families on the avenue.

The fall wheat is nearly ripe. Mr. Robert Edge has one of the best fields in these parts.

HE FOOLED THE SURGEONS.

All doctors told Renick Hamilton, of West Jefferson, O., after suffering 18 months from Rectal Fistula, he would die unless a costly operation was performed; but he cured himself with Bucklen's Arnica Salve, the best in the world. Surest Pile cure on earth. 25 cents a box. Sold by all druggists.

AYRSHIRE BULL FOR SERVICE.

MARKDALE DEWEY, REGISTERED Pedigree No. 3044—will be kept for service at Lot 9, Con. 2, W. G. R. Bentinck. Terms—\$1.00 payable on or before the first of February. Persons disposing of cows will be charged whether in calf or not. HENRY ALEXANDER, June 6, 1900. 2m Dornoch P. O.
