### FLESHERTON.

On Sabbath, the 5th inst., Mrs. William Chard, 4th line, was severely injured in a runaway accident which might easily have cost her her life. Mrs. Chard, a 13 year old son and a little niece were going from home in a democrat and had just started on their journey when the tongue of the rig dropped to the ground causing the spirited team to run away. After running several rods the tongue ran into the ground causing the vehicle to capsize and throw the occupants with great force to the ground. The team continued their course for about eighty rods when captured by a neighbor. The rig was badly damaged. Dr. Carter was immediately summoned to attend to Mrs. Chard's injuries which consisted of a cut in the head and severe injuries in the side and back. The patient is recovering. The girl sustained slight injuries; the boy was none the worse for his shaking up.

Building operations are very active throughout this township (Artemesia) and contractors find it difficult to secure the mechanics required. Mr. Dafoe, brick contractor, this place, is having a very busy season. He has already completed several contracts and has a number more to pass through his hands before the season closes. Mr. John Whitten, builder, informs us that he too is rushed and he too has found it the best season for cash contracts that he has experienced for fifteen years.

Of the eight of Principal Slaughter's pupils here who wrote on the P. S. Leaving examinations only two failed. The successful ones are Bert Barnhouse, Emerson Bellamy, Samuel Ranton, Gladys Ward, Eva Small and Carrie Rutledge. Clara Strain, who was attending High School at Owen Sound was also successful. We congratulate the young friends all.

A load of our young people had a jolly picnic at Bell's Lake on Thursday last.

Mrs. Watt, of the manse, picnicked her Sabbath School class in the Park a few days ago and the outing was much enjoyed by the girls and their teacher.

A garden party was given under the auspices of the C. E. Society of the Presbyterian Church at the home of Mr. James McMullen, West Back Line, on Friday evening last which proved a pleasant and successful affair. Mr. W. H. Thurston kindly contributed the advertising, the I. O. F. Band gave their services free and Mrs. McMullen as a special contribution gave provisions for thirty people. The proceeds, in behalf of the Indian Famine Fund sufferers, \$22.00.

Mr. Archibald Cairns, who upon removing to Demington, Assa., last spring retired from the office of elder in the Presbyterian Church here has again been elected to that office by the congregation with whom he now worships. Mr. Cairns' will be a valuable acquisition to their Session.

The Y. M. P. B. A. lodge here celebrated the Relief of Derry in a fitting manner on Monday evening last led by the I. O. F. Band the members in their neat parade dress marched through the principal streets and then to their lodge room where refreshments were served and a very enjoyable social evening spent together.

### HOLSTEIN.

The Agricultural Society of the Township of Egremont held its first annual picnic on Tuesday of last week in Mr. W. T. Petrie's grove. On account of the busy season of the year, especially amongst the farmers, there was not as large an attendance as might have been expected; however there was quite a turnout. The committee had taken great pains in making the grounds look as tasteful as possible. The ladies provided baskets filled with such viands as satisfy the appetite, and there was "Agricultural tea" to quench the thirst. The temperature being somewhat torrid, Messrs. Kedsle and Klemp provided ice-cold lemonade. Swings for the children were erected and hence all were in position to enjoy the afternoon. The program was no mean feature of the day. Music was discoursed by the members of the Methodist choir, assisted by Miss Wenger of Ayton, who also sang several Scottish solos in a manner that reflects credit on her as a singer. Dr. Brown was in his usual form for singing and did his part well. Addresses were delivered by Dr. Landerkin, M. P., Hanover, M. Richardson, Esq., Flesherton, J. Hampton, Mt. Forest and Revs. Miller and Magwood, Holstein.

Mr. and Mrs. W. Robertson returned to Toronto Friday, accompanied by Mrs. D. Allan and Miss Lena.

Miss Minnie Hepler of Listowel, is the guest of Miss M. Cameron.

As Mr. Chas. and Miss Winnie Durrant were coming to the Agricultural picnic they met with a rather serious accident. As they were nearing the railroad crossing just north of the village their horse took fright at a large sign on the fence and became unmanageable. He dashed down the track, and as they neared the cattle guard the buggy upset and the occupants were thrown to the ground. The buggy was badly damaged, the horse's leg was broken, but Mr. and Miss Durrant received but little injury, other than a few scratches and a severe shaking up. The animal had to be shot the next morning, and now, we understand, Mr. Durrant is looking after the man whom he expects to pay the damages.

We were somewhat surprised last week on reading over the "Corner Concerns" to find that we had received such attention for our feeble effort to write up our football match. Now, Mr. Gander, we do not suppose for one moment that you meant to attempt to check us on our way to journalistic fame, but that simply you were out of "material" for your budget and thought you could make use of our paragraph to fill in what you required. Now, we always advocate forgiveness, and hence will forgive you for this time, but are not sure that we will do so "seventy times seven" but will simply stretch your neck and be done with you.

Mr and Mrs. Thos. Dixon, of Chicago, returned to their home after a fortnight's visit with old associates.

## DON'T BE DUPED

There have been placed upon the market cheap reprints of an obsolete edition of Webster's Dictionary. They are being spread under various names at a low price.

By a few instances as a premium for subscription to papers, and announcements of these comparatively worthless reprints are very misleading; for instance, they are advertised to be the substantial equivalent of a sizeable book, when in reality they are a mere waste of paper, and will not do you any good, and, believe, they will, from A to Z.

**Reprint Dictionaries**, phototype copies of a book of over fifty years ago, which in its day vassold for about 50c, and which was taken superior in paper, print, and binding to those imitations, being then a work of some merit instead of one.

**Long Since Obsolete.** The supplement of 10,000 so-called "new words," which some of these books are advertised to contain, was compiled by a gentleman who died over forty years ago, and was published before his death. Other minor additions are probably of more or less value.

The Webster's Unabridged Dictionary published by our house is the only meritorious one of that nature similar to this generation. It contains over 200 pages, with illustrations on nearly every page, and bears our imprint on the title page. It is protected by copyright from cheap imitations. Available as this work is, we have at vast expense published a thoroughly revised successor, known throughout the world as Webster's International Dictionary. As a dictionary lasts a lifetime you should

The farmers in this vicinity are pleased with the season's crop. Many of them have threshed fall wheat and barley and report the yield above the average.

It is our painful duty this week to chronicle the death of one of our most respected citizens in the person of Mr. Wm. Doyle, who departed this life suddenly about 10.30 a. m., Tuesday. Mr. Doyle had been in poor health for the past few months, but seemed quite well on the morning of his death. He had lain down to rest for a few minutes, during which time Mrs. Doyle went out to gather some chips for the fire. She had been out not more than five minutes when she returned and found him unconscious. Dr. Brown was called in, but found that the vital spark had fled. We extend our sympathy to the bereaved family.

### Old Time Grey County Justice

Rev. Wm. Tyndall, of Walkerton, who has been spending a few days in town, has the distinction of being prosecutor in the first criminal case tried in the new court house in this county in 1854. The home of the reverend gentleman, who lived a short distance from town, was entered in his absence and a portion of his wardrobe stolen. A negro and his wife were arrested for the crime. The woman was found guilty of the charge, but the jury exonerated the husband. Justice Bell, before whom the case was tried, declared that a married woman had no existence in the eyes of the law and he therefore sentenced the husband to three years in the penitentiary, allowing the woman to go free. The negro threatened to kill Mr. Tyndall when he got free, but he has not yet fulfilled his self-imposed task.—O. S. Sun.

## Had Piles For 9 Years

**Dominion Inspector of Steamboats Cured by Dr. Chase's Ointment.**  
False modesty and fear of the surgeon's knife prevent most people from appealing to their physicians for a cure for piles.  
Many people suffer on year after year, robbed of their rest and sleep by the terrible itching, when they could be entirely cured by a single box of Dr. Chase's Ointment.

Mr. O. P. St. John, Dominion Inspector of steamboats, living at 246 Shaw street, Toronto, states:—"I suffered for nine years from itching piles, at times being unable to rest on account of the annoyance caused by them. After trying almost all remedies in vain I began the use of Dr. Chase's Ointment, which entirely cured me. I cannot speak too highly of it. I have recommended it to several friends, all of whom have been cured by its use."

Dr. Chase's Ointment is recognized by physicians, druggists, and the public in general as the only absolute "cure" for piles; 60 cents a box, at all dealers.—Edinburgh, Bates and Co., Toronto.

## MONEY TO PATENT

Good ideas may be secured by our aid. Address THE PATENT RECORD, Baltimore, Md.

**Invest Your Money Where it will Make Money. Four Per Cent. per Month Invested in the High Grade Railway and Industrial Securities.**

**The Investor's Fund.**  
What it is—The "Investor's Fund" is the combined capital of large and small investors from all parts of the Dominion and it is operated in the Standard Railway and Industrial Securities as listed on the leading exchanges.  
What it does—The "Investor's Fund" pays four per cent. out of the gross earnings of the Fund, and credits the investor with 60 per cent. of the Surplus Profits, which are distributed or re-invested quarterly. A reserve fund being created out of a portion of the surplus profits to assure the regular payment of the monthly dividend.  
What it has done—During the past year the "Investor's Fund" has paid investors, in addition to the regular monthly dividend of four per cent., surplus profits averaging 6.18 per cent. per month on every \$100 invested, and the conservative manner in which it has been conducted has given every investor the most successful classes of investment.  
It makes no extravagant promises of enormous earnings. The money is made to earn just what it is possible to earn without taking any undue risks such as inevitably attend the more reckless classes of investment.  
A large combination of capital enables each subscriber to enjoy the same advantages as the larger concerns and individuals who operate in the legitimate fields of investment.  
The past success of the "Investor's Fund" and the careful manner of its operation are arguments that recommend it to all thinking persons.  
Our plans of investment are arranged so that the advantages of the Investor's funds are placed within the reach of all. Under our regular plan any amount from \$50 upwards is received for investment and certificate issued with monthly coupons attached. To meet the requirements of those who do not find it convenient to invest the minimum amount of \$50 under the above plan we receive sums of \$10 with monthly payments of \$5, profits being added meanwhile, until the total amount reaches the sum of \$100 when a certificate is issued under the regular plan.  
It is a universally recognized law of economics that money should earn money. The individual of limited means finds himself handicapped by the necessarily small amount of capital with which he has to work, and it was to overcome this difficulty that the Investor's Fund was created. Write us for booklet which explains everything.

### DRISCOLL'S SASH ADJUSTER.

To School Trustees, Factory Men and Others.

This patented invention secures perfect ventilation from both top and bottom of the window, or from either. It has given the greatest satisfaction wherever used and is strongly recommended by the inspector for South Grey for all schools in his inspectorate. It is very simply and easily put on and is very easily worked. It also forms a perfect lock to the window. Now is the time for the school trustees to leave their orders so that the adjuster may be put in before the school re-opens. All public buildings should be fitted with this patent adjuster; cheap, simple and effective. A model may be seen and orders left with the undersigned, who hold the patent for the County of Grey.

JAS. MCGIRR, G. L. MCGAUL, Durham.
