DR. LANDERKIN THE CHOICE.

s we have told our readers all alog that Dr. Landerkin would be asuredly the choice of the Liberal Coventions our predictions were flly verified on Monday last when e was again selected to contest his ld constituency, of South Grey, which he has represented with the exception of one term for the past twenty-eight years. The electors on both sides of politics know their men now and whom they have to work for till the time of election.

The Dr. has certainly been a popular man during all these years of public life. To deny the fact would be a strong evidence of ignorance or dishonesty on our part. His genial off handedness, and his inexhaustable fund of bubbling wit have been the chief sources of his strength in holding the constituency for the Liberal party. To say that he has been a strong man in the party ranks is something we shall leave to the public to decide.

To predict the result at this stage of the game would, it seems to us, as we do with, both parties we can for success is a decreasing quantity. Personally, while we respect Dr. Landerkin, and admire him in many what they may expect.

It was an ideal daythe new green on the fields. At The Supreme Court was also asked high noon about fifty five guests, mostly near relatives and a few close friends gathered on the lawn at the front door of the cosy home. The mellow strains of Mendelssohn's wedding March floated out from the parlor and soon the groom and his tion under the flower-decked arch. A moment later the bridesmaid, followed by the queenly bride, leaning on the arm of her father, joined them. It was a picture that those present will never forget. Tommy Cook the white dressed page, Edith maiden, the happy faces of the two young men, the regal beauty of the modest bride, and the winsome prettiness of Miss Annie Loye, the most aptly made them one. Then there came the warm hand-clasps, loving words and endearments. Artist Brown, of Durham, was present and "took" first the bridal group, We have a full line of Boots and and afterwards the whole company. Mania for Operations

Among the Doctors. No Noed of the Knife to Cure Piles. A Surer, Cheaper Easier Way, Dr. Chase's Ointment:

Dread of the surgeon's knife causes multitudes of people to suffer on year after year with piles, when they could be eured without risk, expense, or danger of an operation by using Dr. Chase's Ointment, the only preparation guaranteed to cure any case of itching, bleeding, or protruding piles. Rev. J. A. Baldwin, Baptist minister. Arkena, Ont., writes:- "For over twenty years I was a great sufferer

from itching and protruding piles. I used many remedies and underwent three very painful surgical operations, all without obtaining any permanent becant. When about to give up in desp. 'r I was told to use Dr. Chase's Ointment, and did so, finding relief at once. I seed three boxes, and am almost entirely cured. The itching is all gone. I have advised others to use it, believing it would cure them as it has me."

Dr. Chase's Cintment is the only positive and a stral cure for every form of piles, to erers a box, at all dealers, or Edmanson Hates and Co., Toronto.

the High Grade Industrial

Securities.

The Investor's Fund.

What it is:-The "Investors' Fund" is the combined capital of large and small investors from all parts of the Dominion and it is operated in the Standard Railway and Industrial Securities as listed on the leading exchanges.

What it does:-The "Investors' Fund" pays four per ct. out of the gross earnings of the Fund, and credits the investor with 60 per cent. of the Surplus Profits, which are distributed or re-invested quarterly. A reserve fund being created out of a portion of the surplus profits to assure the regular payment of the monthly dividend.

What it has done:—During the past year the "Investors' Fund" has paid investors, in addition to the regular monthly dividend of four per cent., surplus profits averaging 6.18 per cent. per month on every \$100 invested, and the conservative manner in which it has been conducted has given satisfaction to all. It makes no extravagant promises of enormous earnings. The money is made to earn just what it is possible to earn without taking any undue risks such as inevitably attend the more reck-

less classes of investment. A large combination of capital enables each subscriber to enjoy the same advantages as the larger concerns and individuals who operate in the legitimate fields of investment, The past success of the "Investors' Fund" and the careful

manner of its operation are arguments that recommend it to all Our plans of investment are arranged so that the advantages of the Inventors' funds are placed within the reach of all. Under our regular plan any amount from \$50 upwards is receied for investment and certificate issued with monthlycon pons attached. To meet the requirements of those who do not find it convenient to invest the minimum amount of \$50 under the above plan we receive sums of \$10 with monthly payments of \$5, profits being added mean-

while, until the total amount reaches the sum of \$100 when a certificate is issued under the regular plan. It is a universally recognized law of economics that money should earn money. The individual of limited means finds him-self handicapped by the necessarily small amount of capital with which he has to work, and it was to overcome this difficulty that the Investors' Fund was created. Write us for booklet which explains everything.
