Christmas comes the Season of Gift Giving. Custom has made it so for the parents of the households buy for their children, and the children for their parents. The young man looks for a suitable gift for his young lady, and the Big Store has made very extensive purchases in every department of the store and would be only too pleased to show Xmas buyers through the store. We are glad to show goods. No matter whether you buy or not, come in and see for yourself. There's plenty of room and light by day or night, and we guarantee courteous service. The following are a few of the many bargains we are offering. "The early bird gets the worm."
