badly bruised recently by a stroke crossed with the Chester-White, the ently employed in washing them out velop muscular tissue.

The ten years' experiments in feed ing indicates that it will not pay to cook feed for swine where economy of pork production is the sole consideration. There is a gradual increase in the quality of feed consumed for every pound of grain in live weigh after the average live weight exceeds 100 pounds.

The most economical time to slaughter swine is when they weigh from 175 to 200 pounds.

The greatest and most economical gains are made when the swine are able to eat the most feed in proportion to their weight.

Frozen wheat may be used as a profitable feed for swine. Skim-milk adds most materially to the value of a grain ration, and 100 pounds o mixed grains equal about 700 pounds of skim-milk. The relative value of skim-milk in any ration varies with the amount fed, the poorest returns ham. Collection and Agency promptly But first I must give you some idea per pound fed being obtained when attended to. Searches made at the Regis- of where we happy people dwell. Mr. Peter Watson has rented his the grain rations. Feeding mixed at Darling's Drug Store. farm to Mr. Ed. Harrison, of Balsam | meal (barley, pease, and oats) with Valley. Mr. Watson's family moved milk will generally insure firm meat. The greatest gains from a given amount of grain have been shown when it is ground, as a part of the grain fed whole gets frequently voided before being digested. Mixed grains are more economical than grains fed pure,

In one set of experiments in which ground grain was fed dry and compared with ground grain fed soaked, the data pointed to a slight loss from is in addition with the above college, cord; he being the first to finish soaking meal. While this may not be the actual case it is probable that the result from soaking meal may

> the character of the meat more than the breed. The fact of an animal being a Yorkshire or a Tamworth will not insure a good bacon carcase; The Sunday School of Ebenezer it must also be a range type, and be offered to the winners of the interwill re open the second Sunday in fed in a certain way. way yielded sides classed as firm. clean, and still have an appetite for ing, physiology and temperance. more. Overfeeding keeps the animals from being active in taking exercise; and that causes them to grow too fat and "soft " It is a good plan to feed as much as they will consume and digest to advantage. That will

keep them hungry for every meal, Regularity in the time of feeding will cause more rapid gain in weight! than when there is irregularity even to the extent of one hour in the meal

The feed of swine should be reason ally clean; it should never be putrid.

When the hogs are being fattened they may with advantage have an allowance of a condiment of one of the following sort :- earthen soda; a mixture of wood ashes and salt, at the rate of one bushel of ashes to six pounds of salt; a mixture composed ashes, 4 pounds of charcoal, 6 pounds of salt, sprinkled with a quantity of water in which a pound and a quarter of copperas has been dissolved Either one of those condiments may be put in a place where the hogs will have access to it and a chance to consume all they like. This is to take the place of the soil, which the hog would naturally swallow in its feed if it were rooting in the ground

So far as the kind of feed causes "softness" in the sides of beacon. experiments indicates it to be due to the use of feeds which furnish insufficiennt nourishment to the pigs, and to the want of exercise.

as well-managed pigs-none that will so readily respond to the efforts of improvement, in breeding and feeding: and none degenerate so rapidly under a system of neglect and mismanagement. They require warm, dry sleeping places; damp, cold, unperiments has been to prove the health of pigs. They are the better Yorkshire Tamworth cross to be the for exercise in an open straw yard, best fitted to suit the market to-day. but they should have a dry, warm, ed, however, a growthy pig, and will aspect, to retire into. Their troughs fatten for general use. Where quick should be kept perfectly clean by horses or cattle. FROST & WOOD.

Every farmer has some choice, but there is no machinery so universally in favor as that manufactured by the Frost & Wood Co., of Smith's Falls. Ont. We have the local agency for the goods manufactured by this firm, and as they are so extensively known throughout the Dominion, it is not necessary to say anything by way of introduction. Before buying, however, we may be permitted to suggest, the wisdom of examining our goods, which sell at sight in many instances. See them.

Our No. 3 Open Back Binder is a Leader in the Market.

We also carry a full line of Mowers, Rakes, Champion Seed Drills, Disc Harrows, Cultivaters, in short everything a farmer needs on the farm or in the house. The Standard Sewing Machine carries with it a five-year guarantee. Everybody knows the McLaughlan Buggies and Cutters, the Gray Buggies of Chatham, and the Armstrong Buggies of Guelph. We have them all, give us a call. Don't forget we have the National Cream Separator and Famous Threshers made by White & Son.

D. Campbell, - Durham, Ont.

We're Selling Suits at There are no farm animals that can be made to yield as large a profit Cost While They Last.

> Will sell all our Ready-made Suits at cost. A fair assortment to select from at astonishingly low prices When we say we sell at cost we mean it, so come along and prove us by examining our goods.

The results of the ten years' ex. sanitary pens are ruinous to the GROCERIES; Fresh Groceries at the lowest living profits. Prunes, Raisins, Currants, Sugar, Teas, Coffees. Etc., Etc.,

S. SCOTT.

FARMERS!

Harvest is over and you will now be arranging your businees affairs.

SOME OF YOU will want to buy more land. I have a lot of good farm properties for sale. Some of you will want to sell. I can likely sell for you, and if I make no sale I make no charge. Some of you will want to trade. I own some good town property and a farm or two and am always ready for a fair exchange. Some of you will want to borrow money. I have just received a letter from parties having a large amount to lend at very low rates. Some of you have a lot of old notes and accounts that ought to be collected. If you will bring them in I will try to get the money for you and will make no charge if I

collect no money. If you want Deeds, Mortgages, Leases,

Wills or other writings drawn I will do the work for you promptly. Just now I have some especially good bargains in farms. All business atmy office is attended to promptly and with strict privacy.
