### VARNEY.

Our football team is fast getting into shape. They have held their own against Durham and Holstein and with a little more practice we expect them to win fame to Varney and remind all of the wisdom of a G. T. employee who was very observant and thoughtful and composed the following on this branch of the road:

Palmerston for beauty,  
Mount Forest for wit,  
Holstein, good manners  
And Varney for git.

There are few people can throw so much sunshine into the social circle as Miss Fair, who is over on a visit from Manitoba. Her songs and recitations made Mr. R. Jardine, of Glenelg Centre, who was on a visit to Mr. John Aldred's last week, look and act twenty years younger.

Mr. Jas. Eden built a new fence in front of the P. O. which much improves the look of the place as well as show the rig of a fence he is putting up.

Mr. Wm. Bryans has improved the front of his lot with a straight rail fence. He had the posts set for a wire fence but when the council with drew their grant, to get square with the rascals he withdrew his posts.

Some complain that we bother you too much by mentioning neighborly calls and short visits, please excuse us for the past and we will refrain from it this time with the mere request that we be allowed to mention that Dick and Arthur visit Durham friends often. They enjoy it so much, we mean the visits.

We are all pleased to know that the Rev. Mr. Pomeroy is to remain with us as he is one of the ablest men we have ever had; and we only wish his age and health would permit his being among us more to see our week-day walks of life. To hear people relating their travels and to actually see them go are often two entirely different things.

Whether the anticipation or realization of anything is best remains a debatable subject, but Will Grant says when it is figuring on Jimmie

Bryans helping one through with a hard job the anticipation is away ahead altogether.

Our Orange brethren are not fully decided at time of writing where they will spend the Glorious Twelfth.

The old saying, "any port in a storm" was forcibly brought before our minds last Wednesday night when the excursion train pulled up during the downpour of rain, and young girls were glad to snuggle up under an umbrella with young men puffing profusely a lighted cigar. Men should not touch cigars until they have sense enough not to smoke so close to women who they are trying to befriend unless specially requested by the lady to do so.

This section is probably little better than many others for criticising every act of the school teacher. We think it would probably bring about better results if we would all follow the example of a former Scotch resident who used to say he would always take the teachers part no matter whether she be a male or a female.

The Varney neef ring opened the very same week as Traverston and we have been trying to solve the problem ever since, is the latter's beef better than Varney's or the Scribe not so well cared for when he makes so much fuss over getting a feed? Maybe it will make him grow some yet.

The store has re-opened with a nice fresh stock of groceries. Mrs. Jas. Hoy is Mistress and her honest dealings and courteous manner are winning her many customers.

When the Holstein stalwarts lined up on our football grounds on Thursday night to play the home team, it was seen at a glance that they had taken the name of our team, the Varney Giants, in a literal sense and tried to compare, but with the amount of pluck our boys have they held them even, one goal each was the score. The visitors were good natured, courteous big fellows and our boys look forward to a return visit with pleasure.

### An Extraordinary Cure.

Dromore, Ont., Aug. 1892  
MacLeod Medicine Co.,  
Goderich, Ont.

I am now getting to be an old man, close on 60 years of age. I was a sufferer for nine years from what I could not describe and did not understand, and sure enough the doctors I consulted failed, not one of them made out my ailment. I was that weak for three years I could not lift a pair of water off the floor were I paid for it. During the last four years my skin turned blue, then black. I was obliged to cover my hands in the presence of strangers, and hide my face the best way I could because of my black skin I could not get anything to do me good. I spent, and was willing to spend more hundreds of dollars in treatment and doctors' medicine. When I saw that Alex. McDonald was cured—I did not believe he could be cured—I thought sure I could get some good anyway from what cured him. I got a bottle of your System Renovator from him, it made me quite sick, but I continued taking it. I got another and persevered in it, even if it did sicken me, and the result was when I had taken four bottles I was strong enough to work. Then my hands were in parts white and in parts blue. I was satisfied that it would cure me. I took \$9.00 worth before I was clear and white as before. I have some color now, my blood must have undergone a great change to turn my skin white in that time. I am quite well ever since I stopped, eat well and work hard every day. I would have given thousands of dollars for the remedy that would have recovered my natural color again. I give the praise to your Renovator for my cure anyway.
