It will be noticed by the Big Store Ad. that this is the last week Mr. Hunter will be doing business with the public of Durham and vicinity. Next week the store will be closed and on the first of September the new proprietor, Mr. Russell, will make his prettiest business bow to the public. We regret the departure of Mr. Hunter, and wherever he goes and in whatever business he embarks we wish him an abundant measure of success. We hope to have just as good an opinion of his successor who is highly spoken of as business man.

On Saturday, August 16th, the Directors of the Grey & Bruce Fire Insurance Co met at the Knapp House for the dispatch of business and accepted over one hundred policies, and also made a satisfactory adjustment of damages to Priceville Church recently struck by lightning. The following are the members of the Board: D. McDougall, President, Muloch; T. H. O'Neil, Vice-President, Hanover; Archie McCuaig, Priceville, Adam Seegmiller, Walkerton, John Picken, Durham, Directors; S. A. Mr. ROBERT SCOTT, of Rockford, Nicola Valley, B. C., brother of Samuel Scott of this town, Andrew Scott, of Glenelg, and Matthew Scott, of Priceville, is now visiting friends in this vicinity, and naturally enough sees a change in the place, the vicinity and particularly the people, since he left here twenty-six years ago. Mr. Scott is well preserved and some of his old-time acquaintances say he is not any older looking than when he left here. He keeps the post office at Rockford, which by the way was named by him after Rockford Castle, an old hotel that used to be on the Garafraxa Road a few miles on this side of Owen Sound. He is also engaged in farming and stock raising in his home out west and we imagine he has not been laboring for nothing out there. On his trip down he spent a number of weeks in Winnipeg, which he pronounces a thriving city, with as high as forty and fifty dollars a foot being asked for property on the front street. When we told him there were some here with gall enough to ask nearly that much for Durham property he gave a sigh of surprise, and felt it was no wonder the place was kept back. The grain fields of Manitoba are indescribably grand and give every appearance of a bountiful yield. We were delighted with our short interview with Mr. Scott, and pleased to have him relate a few reminiscences of his journey to the West, which he made from Walkerton to Chicago thence to San Francisco, from there by boat to Victoria, thence up the Columbia River to Yale and lastly over the old Caribou Road to Rockford which is about 33 miles from the now prosperous town of Kamloops. Mr. Scott does not expect to get home again before the latter part of October.

WE would like specially to call the attention of farmers to the lengthy articles we publish nearly every week on interest farm topics. Many of them are really good and well worthy of careful perusal by every farmer in the community.

MR. WILL MATTHEWS was honored on Friday night last when a short address and presentation were made by the choir of which Mr. M. has been a valued member. The present consisted of a valuable Bible and hymn book. He leaves shortly to accept a position as book keeper and clerk in a Hardware Store at Oshawa. Congratulations.

DAVY WINKLER, who has figured so prominently with the Durham Lacrosse team this season, left town this Wednesday morning. Last night supper and "send off" were given him at the Middaugh House, by the Lacrosse boys and his many other friends. To say that Dave is an "awful decent" boy will convey the feeling of most people who have made his acquaintance. He was the happy recipient of a very handsome gold watch and chain.

## LACROSSE NOTES.

Owen Sound Lacrosse team has the championship for this division having beaten Mt. Forest on Friday last by a score of 9 to 2. Durham takes second place and Mt. Forest third.

The Sporting Editor of the Owen Sound "Times" took a pain on seeing our report of the match here, and in last week's issue hurled a lot of abuse at us because we dared to crw a little. Take a little Paregoric brother, a little Paregoric.

No wonder the Owen Sounders are jealous of the Durham Lacrosse boys. They beat them twice this season and can do it again on neutral grounds.

We don't like to see petticoat sports swinging their money round to bet at a Lacrosse match. We wouldn't like to swear by their virtue.

Brace up Sporting Editor of the Owen Sound "Times." An operation isn't necessary. It's not appendicitis, even if it does pain you.

The Owen Sound Sun places Durham and Mt. Forest as tie for second place, and says "This gives the bumptious Durham Club its quieties." Why doesn't the Sun tell the truth, and without any disrespect to Mt. Forest put us second place where we properly belong. The Sun is clouded again, and if it keeps on in this style it may soon be eclipsed. Why cast slurs on our boys simply because they beat you twice? You have a good team and did good playing, but in two out of the three games played with you, our boys did better playing and you can't deny it.

## AN ODE.

To Our Friends in Green.

(By R. Ufus.)

Here's to you Mr. Ramsey and your lads that wear the green. You have beat us out for the District, but we've beaten you and your team. Here's a glass that's full and over, and we'll drink your health in the same. For your green shirted lads from the lakeside gave us a right good game. You were raising a howl at the "go in 'bout bein' in sore disgrace. For having to mix with the "one-horse burg" who didn't know their place. And yer sort of insinuated in language that read rather plain. That, as juniors, we might get a "look in" if we got against easy game. You allowed, and indeed it was generous, that we might tie the lads from the west. And have a small chance for the third place, as the purple were none of the best. And you gave us the "horse laugh" proper, but by chance, or was it good play. We put you below on a 2 to 1 shot, and we're having our laugh to-day. Our last game went off with a flourish, and the chances looked bad for the "blue." For you set us the pace, and a good one, and kept it up pretty well too. But the routers kept bravely rooting; and the "wise ones" got out their "dough." And backed the boys that are stayers, as some of your soreheads know. For we kinder were gettin' your measure, and we got it I think you'll agree. Then we got a few more on the line up and tied up your "home" to a tree. Then some of our routers got breezy, and the "trees" started moving about. And a green Laddie bumped up against one and the Greenville went down and out. Then Mac took the rubber to show you how one man can play rag with four. And his little demonstration made another change in the score. We're sorry to break the goose egg and leave you down in the dumps. But your seventy-four dark horses can't take the "Cementville" jumps. So here's to you Mr. Ramsey and your lads that wear the green. You have beat us out for the District, but we've beaten you and your team. Here's a glass that's full and over, and we'll drink your health in the same. For your green shirted lads from the lakeside gave us a darn good game.
