Toronto is universally regarded as the educational centre of the province of Ontario, and if any schools in the province have a competent staff of teachers, and competent equipment, highest work in our school, viz., Part | when not in use.-Carried. II Jr. Leaving, but we certainly feel Collegiates in that department exceeded or equalled at least the number in training in Durham Public School. Here are the totals who passed in the Toronto Collegiate Institutes:-Jamieson Avenue (9 teachers, all specialists) passed 8, Jarvis Street Collegiate (10 Harbord Street Collegiate Institute (12 case on assessment.-Carried. teachers, all specialists) passed 12. It will thus be seen from the foregoing improvements: Jos. Smith covering thur's sr., last week went through year. Those desiring the best in and university graduates, have turned out 37 candidates.

We heartily congratulate them on the good standing taken by the from Mt. Forest, \$6.00; do. tile cul- others are Jas. Allan, W. Hunter, J. who have been successful in the recent examination.

It must be remembered also that teachers alone are not the only factor in successfully building up a big result when the examinations are announced. Many candidates are very indifferent during the whole academic year, and it is quite probable that some of this class can be found right here in Durham. The parents, too, are often indifferent, and never take any interest in schools or examinations till plucking time comes when they give full vent to their wrath in belching their gas on an innocent teacher who is just recuperating from a year of anxiety. But why elaborate on the situation.

The following is the list of successful candidates at the recent examination for Part II Jr. Leaving :-

Isa Campbell, Jessie Farquharson, Archie Hunter, Maude Irwin, Chas. Lawrence, Marion Morton, Peter Ramage, Lizzie Scott,
