

**ARTEMESIA'S EXHIBITION.**

**Drew a Large Crowd to Priceville.**

The annual Exhibition of the Artemesia Agricultural Society was held in Priceville on Tuesday and Wednesday of last week, good days perhaps for the fair, but bad days for the busy editor. Notwithstanding our inability to get there early, the show went on without us, and from what we saw in the hall, and heard outside the hall, the exhibit was certainly a good one in most respects.

The fruit, vegetables, roots and grains were simply excellent, while the wide range of domestic manufactures and exhibits in fancy work reflect creditably on the artistic skill growing rapidly in the homes of the rural population.

We understand that the show of stock and horses was above the average, but to this department we were not an eye witness and we must allow the public to judge from the list of prizes awarded to the various competitors here given without further comment.

The honor of this effectively arresting the progress of this fatal malady rests with the wonderful system of treatment which has been reduced to an exact science for the cure of Consumption and conditions which pave the way for Consumption—that successful method evolved by America's greatest scientific physician, Dr. T. A. Slocum, whose great liberality through his Free Trial Treatment, sent broadcast throughout this broad land, has contributed most to the rout of the most potent agency in the destruction of human life in this hemisphere.

His Free System of Treatment has arrested the hand of death in the cases of thousands of consumptives and has prevented the disease in countless instances.

The Slocum Treatment consists of four distinct remedies for the cure of Consumption, Weak Lungs, Bronchitis, Catarrh, and all pulmonary and wasting diseases, and is based upon principles essential to the correction of function, the rebuilding of the tissues, the overthrow of parasitic animal organisms and the establishment of health in all the departments of the human body.

The four preparations embody all the necessary elements of a complete treatment for Consumption—its cure and prevention—as well as for most of the chronic and wasting ills of life. Apparently hopeless cases are cured by their timely use.

These free remedies comprise the great curative forces discovered by the eminent physician, Dr. Slocum, they represent the acme of the pharmacist's skill and with them will be found explicit directions for their use in any case.

**UNCLE TOM'S CABIN**

"UNCLE TOM'S CABIN" never there runs through it a vein of fiery touching and sweet. Its special language of the heart. It is more than a play; it is a moral argument for two of the greatest can engage the mind—human life, mortality of the soul. It is so much alone is chastening. Like child, it conquers by the very breath. In the character of Eva, who does not cherish in memory an angelic child who seemed to us only as a transient visitor who with the dew of childhood's morning 'soo pure for us? Was there ever 'soo pure? Yes, but her name is written on the hearts of all who read it. This good old play is unique in the only one that portrays the scenery is excellent. In the one sees the floating cakes of ice down stream. One can see, in perspective of this scene, several frozen river, and the undulating on either side lie like drowsy seas, a typical southern home, its log cabins, and its cottages, its sunny South. It is a beautiful scene of the last scene.
