ED. F. DAVIS'

Uncle Tom's Cabin;

40 Men, Women and Children 40

MAGNIFICENT SCENIC PRODUCTION OF....

UNCLE TOM'S CABIN

LIFE AMONG THE LOWLY.

"UNCLE TOM'S CABIN" never grows old. There runs through it a vein of pathos peculiarly touching and sweet. It speaks the universal language of the heart. It reflects, like a prism, the innermost phases of human emotion. It is more than a play; it is a moral classic. It argues for two of the greatest themes that can engage the mind—human liberty, and immortality of the soul. It is so pure that its touch alone is chastening. Like the kiss of a child, it conquers by the very innocence of its breath. In the character of Eva, it is unique. Who does not cherish in memory some sweet, angelic child who seemed to touch this earth only as a transient visitor who passed away with the dew of childhood's morning—too good, too pure, for us? "Was there ever a child like Eva? Yes, but her name is written on grave-stones." This good old play is unique because it is the only one that portrays that character. The scenery is excellent. In the river scene, one sees the floating cakes of ice slowly moving down stream. One can see, in the splendid perspective of this scene, several miles of the frozen river, and the undulating snow-clad hills on either side lie like drowsy sentinels in the snowy winter day. The plantation scene represents a typical Southern home, with its mansions, its log cabins, and its cotton-field. It is the sunny, sunny South. It is a warm, mellow, beautiful scene. The last scene in this most

The Largest Company in the World.

picturesque drama has, perhaps, taxed the skill of the artist and the mechanic more than any other spectacle of which the stage can boast. Indeed, it is not flattery to say that the "Beautiful Gates Ajar," as depicted by this company is one of the most entrancing spectacles ever seen. The scene opens with a mass of clouds, through a rift of which is seen a passing group of angels bearing Uncle Tom to heaven. A large "gloria" of iridescent splendor is brightly twinkling in front. The clouds disperse, revealing Uncle Tom with angel escort before the golden gates, on either side of which, poised upon magnificent pillars inlaid with pearl and gold, stand angel sentinels with expanded wings. Change follows change. Numerous angels appear from out the fleecy clouds which now surround the scene like a halo of glory. In a deep center a sudden movement of the clouds is seen, and like a morning star, like the central jewel in a crown of diadems, surrounded by whispering angels, little Eva, with beaming hands, smiles down upon Uncle Tom, while the beautiful gates slowly open to the great city that lies beyond. It is a splendid sight to see. During the interval of this exquisite spectacle, the mellow minors of an invisible choir fall faintly upon the ear, and the curtain descends upon a picture of the imagination that one is loath to call unreal.

ADMISSION 25 CENTS AND 35 CENTS

THE CONSUMPTION SITUATION.

The Free Hospital for Consumptives in Gravenhurst in Urgent Need of \$20,000 to Maintain One Hundred Patients in Residence.

Unless one has made himself familiar with the consumption situation in Canada, it is hardly possible to appreciate the greatness of the work that has been undertaken by the trustees of the Free Hospital for Consumptives at Gravenhurst. A representative of this journal chatted the other day with Mr. J. S. Robertson, Secretary of the National Sanitarium Association, under whose auspices this hospital has been established. We learned that though the doors were opened for the admission of patients only in the end of April last, there are now sixty patients in residence, and the applications on the Secretary's desk are so many that the trustees have given instructions to have the accommodation immediately increased to 100 patients. They have undertaken this additional expense purely on faith, and in response to the pitiful calls that are coming to the office every day from applicants.

"Within the past 24 hours," said Mr. Robertson, "I have received applications for admission from Nova Scotia, New Brunswick, Quebec and Manitoba. In each of these cases the patients, if they are able to pass the medical examination, will be admitted absolutely without a single cent being paid for their maintenance, and will be kept in the institution as long as their condition makes it necessary. A careful estimate of the requirements of the institution, with 100 patients in residence, shows that at least \$20,000 will be required to maintain this number during the year."

"But," the inquiry was, "is there no endowment in connection with this institution?"

"Not a farthing," was the reply of Secretary Robertson. "The original building was the grant of two well-known Toronto citizens. But outside of this the institution has been furnished and will require to be maintained solely by the contributions of the great mass of the Canadian people. The trustees have felt that the money required will be furnished; nevertheless, it is a heavy undertaking for them, and it will be a calamity with the death rate of consumption throughout the Dominion reaching 8,000 a year, for the doors to be closed against applicants because of insufficiency of funds. Just at the present time, with the building extensions that are going on and patients crowding in as the winter approaches, the financial needs are very urgent."

Contributions for the hospital, in large or small amounts, may be sent to Sir Wm. R. Meredith, Kt., Vice-President of the National Sanitarium Association, 4 Lampart avenue, Toronto; W. J. Gage, Chairman of the Executive Committee, 54 Front street west, Toronto, or the National Trust Company, Treasurer, King street east, Toronto. The head office of the Association is in the Mail Building, Toronto. J. S. Robertson, Secretary, Toronto Globe.

For twenty-four years Vapo-Cresoline has been extensively used for all forms of throat and bronchial troubles. All Druggists.

Completely Fagged Out.

The world is full of sickly, despondent, tired, enervated people, all hoping to be well some day. The surest road to health is along the way of taking Ferrozone after meals. Ferrozone is a great appetizer and enables one to eat plenty of wholesome food without fear of indigestion or dyspepsia. This results in the rapid formation of an abundance of red, vitalizing blood, which will restore the nerves, increase flesh and vigor, and nourish and feed every organ of the body. Ferrozone is an ideal restorative and invigorant. It is a tonic of unequalled merit that anyone can use with benefit. Price 50c. per box, or six boxes for \$2.50, at Druggists, or N. C. Polson & Co., Kingston, Ont.

THE MOOSE.

Mr. Skelton's moose, about which we had a brief item last week, was taken to Clifford show on Friday, and proved a great attraction. We suppose that apart from some specimens that may have been in a circus menagerie, this is the first moose ever seen in the County of Bruce. From Mr. Skelton we learn that this animal was captured at the Bruce Mines in May last. It was seen feeding on the edge of the lake by a number of men who happened to be near, and instead of shooting it, someone proposed that they should try and capture it alive. As there happened to be quite a number of men present, they spread themselves out along the shore and then rushed down on it with a shout. The moose taken by surprise, jumped into the water, and swam out a considerable distance. Soon it got tired and turned for the shore. The men beat it off, however, and it was kept in the water until it was completely tired out, when it was easily captured. Mr. Skelton has reason to believe that the animal will not be hard to break to harness. Moose have great speed. They have been known to make a mile a minute, although such a rate of speed seems incredible with any animal. Some difficulty may be experienced in its food. The natural food of the moose is brush, but it is said that in captivity in course of time, they will take to hay and oats. Mr. C. F. Clergue at the Soo has some of these animals, and hay and oats is all he feeds them. So far Mr. Skelton's moose has refused absolutely to eat anything but brush.—Telescope.

Inflamed Nose and Throat

And such diseases of the respiratory organs as Bronchitis, Weak Lungs, Cold in the Head, and Nasal Catarrh, are treated with marvelous success on strictly scientific principles by Catarrhazone. The medicated vapor of Catarrhazone quickly traverses every air passage possible to be reached by any treatment. All soreness, pain, congestion and inflammation are at once dispelled, and by means of the healing powers of Catarrhazone the vitiated tissues are quickly restored. Where Catarrhazone is used colds last only ten minutes, coughs half an hour, and Catarrh, Consumption, Asthma and Bronchitis flee as from fire. A trial will convince anyone of the startling merit of Catarrhazone. Costs \$1.00, small size 25c. At Druggists, or Polson & Co., Kingston, Ont.
