moment of an achievement that all Ontario thought would delight his heart, he failed to rise to the occasion he sank to the level of a petty partizan, ast be kept clear in view, and crually stabbed the popular verdict stantial reports from Washington, the and do electors vote in as by repeating the reckless suggestion of the liquor organizer, that the "Yes" The vote which may be vote had been swelled in the cities by its temper, and hence making safethe polls depends upon ballots of his political opponents, sim-In every electorate ply to put him and his Administration band men without intelliin a hole. How could a Conservative ntion of citizenship duties, put the Premier in a hole by voting ness of a metal, enabling a burglar atriotic impulses, without for a measure which Mr. Ross declared to cut through the best steel as blie welfare. In a parliavetion there are powerful which his Government introduced into vating to reach even these. the Legislature, and which he promishe keen conception between ed to vote for? e candidates in each concalling into play the activuds and acquaintances, and og that spirit which is excited est between man and man.

In penning these words so clearly warranted by the circumstances, it is pitiable to be reminded that some friends will read into them a partizan attack upon Mr. Ross. It is the despair of uncompromising leaders and advocates of reform that so many who espouse their cause still remain under the thrall of party prejudice, ready to apologize for the blunders and shortcomings of party friends, to resent participated in the unparalleled adjust and necessary criticism by those who are loyally fighting the battles of reform. But, we must be silenced by fear of misunderstanding. The truth must be set down, not in bitterness a large proportion of the resinor party spirit, but with calmness and then there are those who and courage. rely decline to exercise the fran-

The fact is Mr. Ross has not a scintilla of evidence upon which to base such an assertion. The Conservative his view, a clumsy lot. It was the who voted for the Act to put the Premier in a hole was a fool. The adoption of the Act would have let Mr. Ross and his colleagues out of a hole. It would have settled the temperance agitation for the time being, and given Mr. Ross the bye-elections which are necessary to the existence of his Administration. The fact that the Act was not carried in spite of the overwhelming endorsation of the people in such splendid popoular majorities, With a few notable exceptions leaves the question a livelier issue than only serve to accentuate the ever, and the chief public matter of science. the press of Ontario was dumb, discussion in the bye-elections. The use than dumb, in this campaign, fact is that the extremity of the poliafter day. The Scientific Crook.

E seem threatened with a new variety of creek-the scientific. According to very circumexperts of the Treasure Department nave been experimenting with a new chemical compound said to rob steel of cracking easy. This compound, called thermite, is reputed to possess marvelous virtues. When mixed with magnesium powder it will destroy the hard-"was good enough for him," ameasure if it were lead. A five-eighthsof-an-inch tempered steel plate was so pierced. The newspaper accounts do not fail to say quaky things of how cracksmen have already put these discoveries to practical use. Owners of strong-boxes are advised not to sleep too well o' nights. All this is very interesting if it happens to be true. The profession, it may be observed, has never been slow to make improvements. It was a great day for Our the grafter fraternity when dynamite came to town. They took up with it at once. Popular fancy endows the knock-out fiend with a large knowledge of chemistry. There is hardly any branch of Deviousness that has not vances of the times. And much may be looked for. Sir James Crichton Browne spoke not long ago, in England, on the improvements of the poisoners' art. He pointed out the immense possibilities that lie in cultures of deadly bacteria, to say nothing of some of the recent chemical preparations. The real art, he contended, is not simply in defying detection, but in not arousing suspicion. All the famous poisoners of the Middle Ages were, in same old story always-arsenic, arsenic, arsenic. The tales of the magical potions of those days were fables. The Borgias would gurgle with delight before the resources of the present day. The picture drawn by the eminent English physician was not so very reassuring to them as actively cultivate the luxury of enemies, but it is safe to say that whatever be the possibilities, they will never be realized to any great extent. The fact is that any man on vengeance bound who started in to perfect himself in this line would get so interested in his experiments that he would forget all about his plot. That is one of the beauties of modern

### Some Roycroft Humor.

tunity of prohibitionists for a fairer HERE is a story, writes Elbert Hubbard, that bears upon its What is Nicer features the mellow tinge of time, to the effect that Ralph Waldo Emerson once got up in the middle of the night and, in the course of his gropings, fell over a chair or two and knocked down the family what-not. Mrs. Emerson felt softly for her mate, and finding that he was not there guessed the source of the confusion, and called in alarm, "Waldo, Waldo! are you ill?" And the placid answer was, "No, my dear: only an

So that is the story, but the new version runs this way: Mr. Emerson got up in the middle of the night, and, after falling over the family rockingchair and knocking a plaster of paris cast off the mantel, was accosted by his good wife thus: "Are you ill, Waldo?" And there was no answer-save the scratching of matches on wall, floor, bureau and chairs. This was in the day when matches came in sticks,

and you broke them off. The lady heard the matches split off, and then she heard the scrape and scratch. "Are you ill, Waldo?" again she called in alarm. "Ill! Ill nothingwhy don't you say sick?-there is no one listening. No, I am not ill. I have Look Me Over-2612-, (bred plor capitalated to the threats of a legislation as would promote sobriety, an idea, and wanted to write it down, but these confounded cheap matches you bought of that Connecticut peddler will not light-plague take everything that comes from Connecticut, say I!" Then there was a final scratch on the wall, and philosophy came to Mr. Compensation's rescue, as he said, "Well, well, it wasn't much of an idea, anyway; besides that, I've really forgotten what it was." And he crawled back been broken out of her high-back

A Capital Cure for Sore Throat.

Is to use as a gargle a few drops of Polson's Nerviline in sweetened water, and before retiring rub the throat and chest vigorously with Nerviline. By morning the soreness and inflammation will have disappeared entirely. Nerviline drives away the pain it's made for. Buy a 25c. bottle from your druggist to-day.

# FOR ONTARIO'S SICK CHILDREN.

Opportunity for Every Citizen to Join in the Noble Work of Bringing Health and Happiness to Young Lives.

mother earth he expects it to bear child is on a level with the Toronto bushels of grain in a few months. So it is with the merchant. He inmaintain the Hospital. The Ontario vests money in merchandise, counting

Government contributes \$7,000 a year, or almost seventeen cents per patient on a profitable turn over. per day, for there are always at least A father pays for his son's education anticipating that it will provide the young man with the powers of mind to put the body and head at work in gain-

ing a livelihood. Yet the seed may not bring forth grain, the merchandise may not be sold at a profit, and the young man may not reach the ideals of his father. In all these instances the expenditure of money is a speculation.

may bring happiness and it may not. To-day the Hospital for Sick Children, Toronto, is performing a Heavenborn mission on earth. It is renewing health, removing pain and straightening distorted limbs of hundreds of

young Canadians, boys and girls who will yet make their mark in this growing Dominion, but who, were it not for this noble institution, might have already filled an early grave. That's where your dollar can find

way to bring you pleasure and profit without any doubts or fears as to the investment. Money is always at work. It is ceaseless in its labour, but in no spot in this fair Canada is it put to better service than at the Hospital for Sick Children. You see your money is at work from

the very day it is placed at the Hospital's disposal. Your investment quickly brings you back joy, for your contribution has entered into the task of life saving, body building and health giving.

Look at a few examples of the work done in the Orthopedic Department. The feet shown are those of children who live outside of Toronto. You see the condition "before" entering the Hospital--and you see the condition "after" hospital treatment. The parents of these children could not afford to pay for treatment. Do you know S. SCOTT of any child so situated? of any child so situated? Then have

\$35,000 a year for its maintenance, is being carried. city institution; it is provincial.

but for every child no matter from what point he may come. And in addition to this Toronto citizens donate \$6,000 for the maintenance of all patients. Again remember all these gifts from Toronto are devoted to the maintenance of patients from all over Ontario as well as the city itself, and

one hundred and twenty children under

treatment. This amount from the

Government is all expended on main-

tenance. Then the corporation of the

city of Toronto gives \$7,500, or seven-

teen cents per patient per day, and

remember, not for Toronto patients,

It takes a dollar a patient per day to

the children that seek relief from places outside are very numerous, and it ought to be as great a privilege and pleasure for the generous citizens of the province to contribute to the maintenance of this Hospital as it is for the people of Toronto. Ten years ago the Hospital was en-

cumbered with a mortgage. Year by year the mortgage has been reduced, and it is now paid. The Hospital must proceed in per-

forming its great mission. Money is needed to maintain it, and this appeal

is made for that purpose. work cannot be conducted without money. To keep the machinery moving the dollars and cents of the people of Ontario are needed. Nurses, domestics and officials have to live. Their wages must be paid.

True, it is, that some have to payyes, all who can afford it are expected to pay-but those who cannot pay and can produce the certificate of a clergyman or known ratepayer of the province to the effect that they are too poor to pay, can have maintenance at d treatment free of charge. This year an effort is being made to
