Local News Items.

Mr. A. S. Hunter, who conducted a flour and feed business in the Middaugh House block has given up for a time, but may be interviewed at his office in Calder's Block. He is still in the grain business.

THE Toronto Globe says the Observatory records confirm the popular impression as to the cold and snowfalls during the month of January of this year. The mean average temperature of Toronto was 16 degrees. which was 6.6 degrees lower that the average for the past 63 years. The average snowfall for the past 63 years was 17 inches, whereas in January this year it was 181 inches, and there were actually 19 days of snow.

an operation some time ago is doing him an extended knowledge of people nicely, and Mr. Aldred says great is for the especial benefit of young and partook of an excellent wedding praise is due Dr. Macdonald for the men beginning business: "If men dinner. The groom's gift to the skilful manner in which he performed spent as much time in doing their the operation, which lasted three and work and perfecting themselves in one half hours. Nurse McWilliams trying to do it still better as they do left for the Fergus Hospital Saturday in endeavoring to secure political inmorning. Mr. Aldred speaks very fluence, and promotion on the highly of her, as a nurse, and says by strength of that influence, it would her cheerful and happy disposition. be much better for them, and their and willingness to lend a helping hand success would be more rapid " when needed, endeared her to the added that his experience had taught whole family during her two weeks him that in the government service, stay with them.

from the locality infested by fire bugs some years ago It is to be hoped that the fires were accidental, and that maliciously inclined persons are not now at work. On Tuesday week some out buildings belonging to Mr. Lewis were distroyed and the barn was narrowly saved from destruction. Only a few days previously Mr. Layburn had his barn burned mysteriously; some pigs he saved from his own fire were burned in Mr. Lewis' fire where he had them feeding Mr. Lewis had no insurance.

A few robes to be sold cheap a Barclay & Bell's warerooms.

Mr. Justice McMahon, at Toronto, ·delivered a judgement of considerable interest to newspaper publishers, when he held that an editor was not bound to reveal the identity of a writer whose contribution is called into question. The Sutton correspondent of The Newmarket Express-Herald, in his weekly letter to that paper, made a statement which Miss Eva Marsh, of Sutton, declares reflected unfavorably upon herself. A sui; against the paper followed, and Mr. T. H. Lloyd proved before Judge McMahon for an order compelling Mr. McKay, the editor, to disclose the name of the writer. Mr. S. B. Woods appeared upon behalf of the editor, and court declared that such information was private and confidential and need not be disclosed.

EDITING a newspaper is a fine thing. If we publish jokes, people say we are rattle brained. If we don't, we are old fossils. If we publish original matter, they say we dont give them enough selections. If we give them selections, they say we are too lazy to write. If we dont go to church, they say we are heathen. If we do, they say we are hypocrites. If we remain in the office then we ought to go out and hustle for news. If we go out, then we are not attending to business. If we wear old clothes. they will laugh at us. If we wear good clothes they will say we have a pull. Now, what are we to do? Just as likely as not someone will say we stole this from an exchange, and so we did. But it is a good thing, and and we submit it to those who are inclined to criticise, rather than help the editor.

APPLES,-Choice Northern Spy apples for sale at S. Scott's.

An idea which seems to be in the crystallization process, is that our present Ontario system of school routine leaves a good deal to be desired. In Toronto the other day, a meeting was held at the instance of the Hon. Richard Harcourt, Minister of Education, at which members of the Provincial Board of Health and others interested in education and sanitary matters were present Several suggestions were made for the better prevention of outbreaks and of infectious diseases in schools, and for the general physical improvement of the pupils. Dr. Sheard has been traveling around the he called an amendment to roam at Toronto Medical Health Officer, advocated, among other things; shorter school hours, longer vacations, and, what we beleive will meet with the wherever he goes. approval of the scholars thenselves, and of a majority of their parents; the abolition of home work. The acquisition of knowledge is important, but most thinking people will agree that the primary importance still is the gaining and retention by a child of a sound body. By a scholar of quick mind the extra work can scarcely be required, while, as the Doctor observes, the system of night work makes a dull child duller. Then too, even though the time required short, it is apt to weigh upon a school in the afternoon, he should be of their own. able to realize that labor is over for that day, and it will then be resumed in the morning with all the greater
