GATHERED DURING THE PAST WEEK FOR CHRONICLE READERS.

Don't forget the Cricket meeting in Telford's office to-night, (Thursday) at 8 o'clock.

VERY attractive Easter windows were fitted out by J. A. Darling, S. F. Morlock, Jas. Ireland, Alex. Russell, Miss Dick and others.

Mr. THOS. CALDWELL took a car-load of horses from here Tuesday for the North West. Another load was taken by Mr. Stewart.

We present our readers this week with a photo of the Liberal Candidate, for the House of Commons, Mr. H. H. Miller, of Hanover. We'll have one of Mr. McKinnon's to present in the near future.

CHANGED HANDS.—The photo studio recently purchased by Herb Kelsey, has been sold by him this week to his brother Fred, who will continue the business there. The building and plant have been purchased.

RIDEAU Hall, Ottawa, had a \$40,000 blaze on Easter Sunday morning. Lady Minto, who is suffering from an accident received recently at the Rideau rink, had to be carried down stairs on a stretcher, but sustained no damage thereby.

We are pleased to receive a dollar from G. A. Staples, of Morrissey, B. C., who sends his name as a new subscriber. He is a son of ex-Reeve Staples, of Edge Hill and has been in the employ of the C. P. R. for the last five years. We didn't know there was such a man till we received the letter, and we hope now to hear of his continued prosperity since he did the wise act of subscribing for the People's paper.

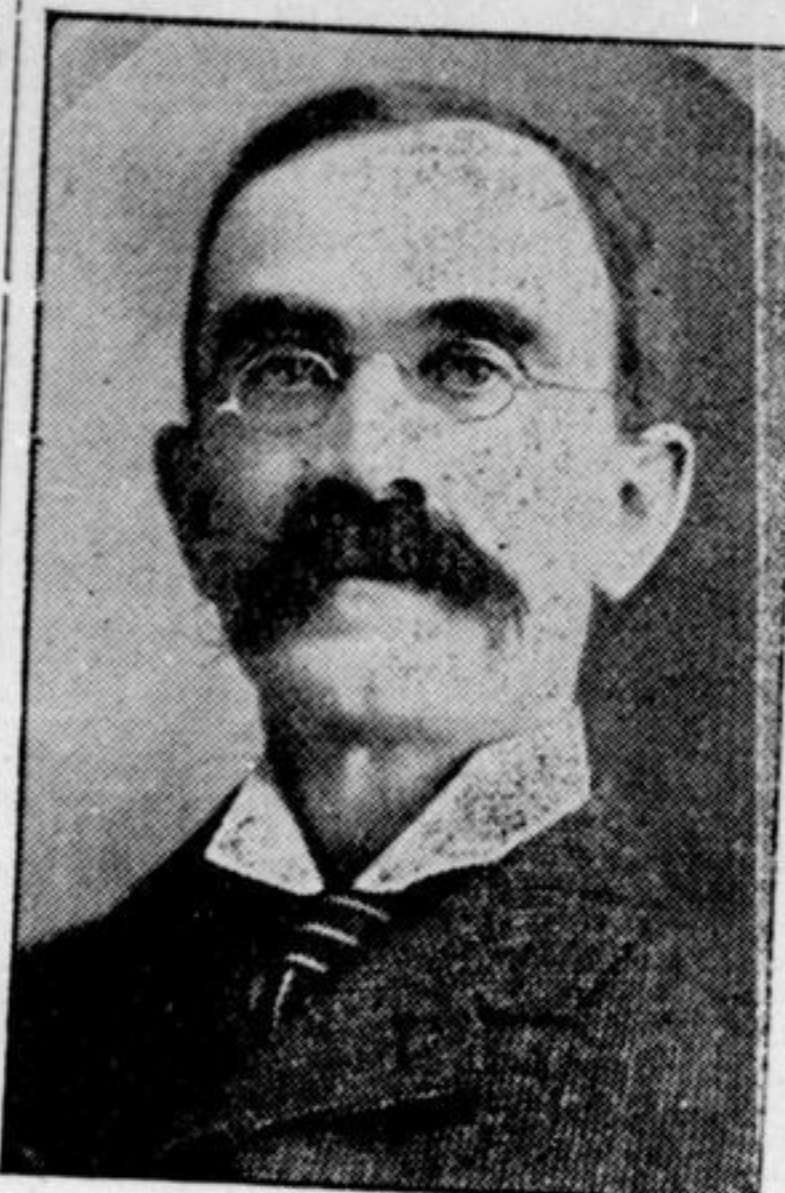

A CONTRIBUTOR gives us a sketch of the life of Mr. H. H. Miller, somewhat at variance with what appeared in last week's Review but we think it better to leave it over for a while till the election is nearer hand. So far we have expressed no opinion regarding the Candidates but will probably do so later on. We may just say in a whisper that Mr. McKinnon is gaining popularity every day, but we hope this won't keep him from working for all he is worth.

The "Presbyterian" is pleased to learn that Manitoba College is about to honor itself at the approaching convocation by conferring the degree of D. D. on Rev. James Farquharson of Pilot Mound. Mr. Farquharson is an '81 graduate of Knox, who has loyally and ungrudgingly given his life to the West, and it is a fitting thing that he should be honored by the young college in whose welfare he has always taken the deepest interest.

On Thursday afternoon last there was a meeting held in the hall to discuss the question of beet growing for shipment to the sugar factory at Berlin. A. E. Shuttleworth of Berlin, and T. H. Wilson, of Walkerton, delivered short addresses on the subject, after which a free discussion took place. A number of the farmers present signed contracts to furnish specified quantities of beets the coming season, and it is expected that many others will soon fall into line. Mayor Hunter took part as one of the local speakers, and Councillor Davis, of Glenelg, was the efficient chairman.

FELL INTO HONEST HANDS.—Mr. John Allan, of Egremont, handed us in a purse he found last Saturday on his way to Durham, and requested us to advertise for an owner. It wasn't necessary to do so, however, for bright and early Monday morning an ad. was sent in describing the purse and contents so closely that we just handed it over without a single misgiving. The purse contained four dollars and some loose change, a sum that many a person would be dishonest enough to keep rather than try to find an owner, but Mr. Allan did the proper thing and we commend him for his prompt effort.

We have just learned over the phone that Mr. George Mitchell's private bank at Flesherton was burglarized Tuesday night, and over two thousand dollars taken. Full particulars have not been learned, but it seems the combination of the safe was knocked off when access to the money was easily made. Mr. Mitchell has been a successful businessman, and honest in his dealings, and we regret very much to hear of the loss he has sustained. Even in the banking business two thousand dollars is not picked up in a day, but we are satisfied that Mr. Mitchell's standing is such that his credit will not be materially affected by the loss. There's no doubt the burglars were professionals at the business.

H. H. MILLER.

THE LIBERAL CANDIDATE FOR THE HOUSE OF COMMONS.

### MILLINERY OPENINGS.

The weather was not very favorable last week for the Spring Millinery openings and on this account many people were unable to get in from the country. The interest taken by citizens, however, was quite up to the ordinary, and from the number looking over the pretty things at the different establishments it seems as if very few of the town ladies failed to avail themselves of the privilege of the openings.

The department for the display of millinery cannot fail to be appreciated by women who desire the best and most serviceable class of headwear. The show window which is very attractive gives but a faint idea of what may be seen in the large show-room inside.

Black and black and white hats, which are always considered very stylish and popular, are shown in large numbers. There is an equal display of light weight straw hats. June Roses and Poppies are a distinct feature of the trimmings of the flower hat. Beautiful scarfs are also much used in hat trimmings the ends drooping to the waist. Some very special creations in bonnets in sequin and steel are also exhibited. The turban effect and mushroom and torpedo shapes call for special mention. The large Gainsborough and Napoleon styles are also prominent features of the display. The children are not by any means forgotten. Hats for them are displayed in large numbers, the trimmings chiefly consist of very narrow baby ribbons, of various colors.

IRELAND'S In shapes the turbans including the Torpedo and Napoleon styles are popular, while for large hats the shepherdess and the ever popular Gainsborough are worn extensively.

The quiet shades are popular this year but there is considerable variety in what is being worn, castor, brown, green, champagne and gold are all used and there is an evident tendency to give the gold shade which has not been used for several seasons. The most prominent use, Blues, mauves and black remain much in demand. Among the hats a large white one of Gainsborough shape is most hand some. It is made of white pleated maline trimmed with two large black plumes coming from the crown and falling off at right side towards back. A touch of gilt braid gives it a very distinctive appearance. A black hat very much admired was a large shepherdess shape of folded chiffon, medallions on the rim and oblong crown. A unique feature of this hat was a pair of wings caught at back with black ornament. For young ladies a handsome hat in the Torpedo shape shown among others, the under rim is of white straw the upper of foliage with apple blossoms on the edge, finished with a large soft bow at the back.

MISS DICK'S. The show room appeared to excellent advantage in the neat artistic draping and the newly papered walls. The window was very attractive and inviting and the exhibit contained many articles of fine headwear. There was the Continental hat made of military blue straw trimmed with blue velvet and steel buckles—a beautiful hat that must be seen to be appreciated. Another much admired hat was a ready-to-wear in champagne color with shape of brown edge with gold braid and gold buttons. Among the turbans may be seen a very pretty and attractive hat made almost entirely of forget-me-nots.

There is a touch of gold in nearly all the newest models. One of the hats shown was made in gold and white tulle. A model formed from it is termed the "torpedo turban" and is trimmed with a long white plume.

Mr. John S. Drysdale, who has been in town since last midsummer, left for Detroit Tuesday morning. During his stay here Mr. Drysdale made many friends and on many occasions delighted large audiences with his musical voice. As a machinist, we believe Mr. Drysdale is no novice, and we wish him every success in the "City of the Straits."

Brother Ramage, of the Review, is in Toronto this week as a delegate to the Trustees Department of the Ontario Educational Association and also as delegate to the Public Library Association. We expect next week to have him give us a double write-up, but we hope he'll not get as badly mixed as the reporter who undertook to write up a dog fight and a fashionable wedding at the same time.

### Consumption is Scourging Canada

Year by year the White Plague steadily gains headway, and why? Because careless people let their colds run into Catarrh which in turn becomes consumption. Victims of catarrh needn't be discouraged, for fragrant healing Catarrh-ozone permanently cures every type of catarrh. The soothing vapor of Catarrh-ozone immediately kills the germs that cause catarrh and prevents them from again entering your system. Relief will be quick, cure will be certain, absolute freedom from any trace of catarrh follows the use of Catarrh-ozone. It is a scientific remedy warranted to cure lung trouble, bronchitis and catarrh. Cure guaranteed with two month's treatment. Price \$1.00; sample size 25c.
