week were of the usual interest to the ladies who turned out in goodly numbers to see the beautiful creations prepared for their inspection. With the profusion of dainty hats, becoming bonnets, ribbons, feathers, flowers and other novelties artistically arranged the showrooms presented an attractive appearance and the fair sex all appeared highly pleased with the beautiful display made at this simultaneous event.

Mrs. Lawlor, sen., who lives with her son, George, on the 9th con., Artemesia, met with a nasty accident last Saturday at the home of her brother, Mr. Goodfellow, whom she is visiting here. The old lady has asthma and heart trouble and in a weak spell fell, fracturing a rib and receiving a severe cut in the head.

Mr. and Mrs. Wesley Breen, 11 miles east, are rejoicing over their first-born, a daughter, on Monday of last week. Mr. and Mrs. Ed. Thompson of the village have also cause for rejoicing a son and heir being born to them on Good Friday.

Mr. and Mrs. W. L. Wright moved last week from the back line to their new home here to commence business in Mr. Barnhouse's old stand. Mr. Wright has leased his farm to a Mr. McDonald from near Priceville.

Mr. Falstead and family removed last week from Mr. McKee's residence to Mrs. McQuay's cottage on Spring street. Mr. and Mrs. W. T. McKee, 4th line, are, we understand, contemplating moving to town.

Dr. Murray and Mr. James Patton of this place assisted at the Ceylon public school entertainment on Thursday evening last. The former, we understand, brought down the house with his comic songs and the latter was highly pleasing in his violin solos. The programme we learn was good throughout. Gaelic songs and Highland dancing by Mr. Donald McLeod's little daughters were taking features. Mr. R. McGill occupied the chair.

Among the Easter holiday visitors here we notice: Mr. Will Tipp of Collingwood at Mr. A. Munshaw's; Mr. S. Pearce of Dundalk at Mr. W. Trimble's; Mr. J. P. A Newly-Born Babe Murdered.

Owen Sound, March 26th.—This town has a sensation in the murder of a newly-born babe, whose body was found yesterday by children. Apparently it had lain in a snowbank on Peel street for six or seven weeks. It was rapped in a rag carpet. The body was taken to the morgue, where it was found that a cord, like a shoestring, was wound around the babe's neck, and pulled tight enough to strangle it. This, the police consider, is sufficient evidence that the child was murdered by its unnatural mother. The Attorney-General has been notified, and it is expected that a special officer will be sent here to look into the case. The body is that of a healthy well formed infant. The coroner thinks it was alive when left in the snowbank. Later—March 29—At the inquest to-night over the body of the infant, the jury found that the child had been strangled by a person or persons unknown. Associate Coroner G. W. Dow presided. The most important evidence taken was that of Dr. Howey, who performed the post mortem. He gave evidence that the infant had been strangled shortly after birth by means of a silken watchguard, which had been wound tightly around the child's throat five times, so tightly that it had broken once under the strain. If the child were deposited in the bank of snow shortly after birth the mother must have had a confederate in the commission of the crime. The police have absolutely no clue.

Mr. and Mrs. Wesley Breen, 11 miles east, are rejoicing over their first-born, a daughter, on Monday of last week. Mr. and Mrs. Ed. Thompson of the village have also cause for rejoicing a son and heir being born to them on Good Friday.

On another occasion a prominent man in the community died and the same enterprising editor wrote an extended obituary. The man's name was Dymond, and the heading was written to read "Dymond Dies"—Through a typographical error it read "Diamond Dyes," and everyone thought it was an advertisement for the colorings, few people read about the good qualities of the deceased.

Unlike the metropolitan newspapers, the rural journals do not have special staffs for each department. The proprietor of a country paper generally attends to all advertising contracts, subscriptions, collections, edits the paper, and, in spare time, sets some type. On the side he is generally an issuer of marriage licenses, license commissioner, or holds such official position as will increase his income. On one occasion a young farmer who was about to become a benedict called to have his wedding invitations printed, in payment for which he wanted the editor to take two bags of potatoes. He wanted fifty invitations, the price of which was \$2.50. His potatoes were worth 85 cents a bag, so he told the editor to print as many invitations as the potatoes would pay for and the rest of his relatives could stay home. But reflection gave him another idea. "I guess you had better print the fifty, as it means that many more presents, and I will bring in another bag of potatoes." He had only been married a short time when potatoes became scarce and were worth \$1.50. From that time on he kept telling his wife how he wished that they had not been married until the new potatoes came in.

Unless promptly treated, The great strength of Nerviline enables it to quickly cure all manner of sprains and strains. "I sprained my wrist," writes Leonard E. Milford of Rockland, "while working in the mill but had to lay off, it became so painful and swelled. I rubbed my wrist thoroughly with Nerviline twice a day and put on a bandage. The pain soon went away and frequent rubbing with Nerviline soon cured. Nerviline is undoubtedly an excellent liniment and the best pain reliever I ever used." Nerviline certainly is extra good. Price 25c.

The Montreal Witness says:—Since the first of March Dr. McCarry, Chief food inspector, has seized and confiscated 489 calves shipped from all parts of this province and Eastern Ontario to Montreal for veal. Besides this 1,425 pounds of dressed veal, representing a large number of additional calves were confiscated, being unfit for food. Some of the calves were only a week or ten days old when killed and the Health Department objects to veal under three weeks old being sold in the city. Confiscated calves are skinned and turned into fertilizers.

How to Ward Off an Attack of Rheumatism.

"For years when spring time came on and I went into gardening, I was sure to have an attack of Rheumatism and every attack was more severe than the preceding one," says Josie McDonald, of Man, Logan county, West Va. "I tried everything with no relief whatever, until I procured a bottle of Chamberlain's Pain Balm, and the first application gave me ease, and before the first bottle was used I felt like a new person. Now I feel that I am cured, but I always keep a bottle of Chamberlain's Pain Balm in the house and when I feel any symptoms of a return I soon drive it away with one or two applications of this liniment.
