IF A TONIC IS REQUIRED
Remember There is No Medicine So Strengthening and Health Giving as Ferrozone.

Ferrozone is noted among physicians for the prompt manner in which it brings strength and vigor. It increases the appetite, keeps digestion in perfect order, and assists assimilation so that every particle of food eaten is sure to nourish and invigorate the body. You won't sleep poorly, feel tired and nervous if you use Ferrozone, because it strikes at the root of any disease that may be working in the system.

Mr. Aubrey E. Tempelman, of Mechas, writes: "I have found the greatest satisfaction in using Ferrozone and consider it is the best tonic made. I was all run down a few months ago, and in a very poor state of health. I took a few boxes of Ferrozone and was surprised at the result. Ferrozone drove away that dull heavy feeling, and put my system in splendid order. I am never nervous or sleepless and have a hearty appetite. This is all due to Ferrozone, which I recommend is the strongest way possible."

If you feel the need of a good stimulating tonic just try Ferrozone. Price 50c per box or six boxes for \$2.50. Sold by all druggists or by mail from The Ferrozone Company Kingston, Ont. Be sure and get Ferrozone to-day—it assures health.

To Prove what Anti-Pill, the Great System Treatment will do for you, Every Reader of this paper may have a Sample Bottle sent Free by Mail.

Derangement of the stomach is responsible for much sickness and suffering. Every organ of the body depends upon the stomach for its nutrition and strength. If the stomach is not working right the blood carries to the liver, heart, nerves and kidney tissue imperfect nutrition—they become weak and unable to perform their work—become clogged, diseased and throw out their distress symptoms. Now you may get stimulative, temporary relief by the taking of a kidney, liver, nerve or heart specific, but the cause remains. The stomach is at fault, and so long as it keeps loading the blood with impurity—waste, so long will the blood transport and deposit disease breeding elements in the weak places. When you feel sick help the stomach first. A well stomach means a well body. Anti-Pill the Great System Treatment is a new discovery that has a marvelous influence in correcting system ailments. Address, Wilson-Eyle Co. Niagara Falls, Ont., for free sample. Regular size, a month's treatment, 50 cents at Druggists.

SAMURAI AND JIU-JITSU.

The Most Wonderful System of Athletics in the World. More than 2,500 years ago there sprang into existence in Japan an order of knights who were known as the samurai. To them was imparted all the learning, the polite breeding and the forms of superiority that mark the gentleman. They were skilled in arms and versed in the arts of war, for they were the emperor's fighting men, and none but they were allowed to bear arms.

As there could not always be war on hand, and as it was considered beneath the dignity of the samurai to go into any ordinary callings, it came about naturally that these little knights found much idle time on their hands. Being men of war, they turned their attention to athletic feats.

One among the samurai conceived the idea of learning by practice the location of every sensitive nerve and muscle in the body. After that he discovered all the joints of the bones that could be seized in such a way as to give momentary power over the muscles of an adversary. He practiced with his fellow samurai, and thus by degrees was developed the most wonderful system of athletics known in the world.

The Japanese call this work jiu-jitsu. The deft pressures applied in the practice of jiu-jitsu produce only momentary pain, but do not really injure the muscles or nerves. In all other things the Japanese are the most polite people in the world. So it follows that even in their fighting they have developed a humane yet effective method of self defense. They do not strike out with the clinched fist and seek to bruise, as do the Anglo-Saxons in their boxing contests.

A knowledge of jiu-jitsu enables one almost instantly to convince his opponent that it is useless to fight. There are now schools of jiu-jitsu everywhere in Japan. Every soldier, sailor and policeman is obliged to perfect himself in the system. A Japanese policeman, possessed of the art, has been known single handed to reduce to submission and to take to the police station four sturdy sailors of a foreign Asiatic squadron.

A FEW HOGS.

A hog is a person who sits sideways in a car where other passengers are standing.

A hog is a person who jams his suit case in front of you at the railway station so as to get your place in the line to the gate.

A hog is a person who "breaks in" while you are negotiating in a store and takes the attention of the salesman or saleswoman away from you.

A hog is a person who opens his window in the railway car and allows dust and cinders to fly in the face of the passengers behind, though he would not tolerate an open window at the seat next in front.

A hog is a person who insists on discussing "the mutability of human affairs" with the ticket seller at the theater when there is a long "Indian file" in his rear and the curtain is about to be rung up on the performance.

Danger Cries of Birds.

The approach of danger is expressed by a universally intelligible cry. The blue tit has a peculiar sound, "iss," so indicative of fear and terror that when heard the wood is silent in an instant. It is said that she often utters it from pure love of mischief.

"Every bird," says Bechstein, "has received from nature the power of uttering a song or certain sound by which it can communicate its desires to other birds. The chaffinch's call varies with its feelings. When on the wing it is 'Eyak! Eyak!' Its expression of joy is 'Fink! Fink!' If angry, it makes the same call more quickly, and 'Trief! Trief!' is a sign of tenderness or melancholy. The raven calls out 'Graah! Graah' slowly or rapidly, as its emotions change."

The Way of the World.

When Thackeray was in this country he called on General Scott, full of admiration for his remarkable campaign in Mexico and eager to hear the warrior explain how battles were fought and fields were won. "Well, now you know all about it," remarked a friend as the novelist returned from a two hours' tete-a-tete with the soldier. "Not at all," replied Thackeray, with a twinkle in his eye. "The general takes no interest in strategy. I found that literature was his forte."

No Discomfort. Van Antler (entertaining Witherby at his country home)—Now, old man, if you should happen to want anything in the night just touch this bell.

Witherby—Never! I know how hard it is to keep servants in the country. Catch me touching that bell!

Van Antler—But, I assure you, you are perfectly safe. The bell doesn't work.

Which? Lucille—Were you not embarrassed when young Dr. Jones asked you for your hand?

Ethel—Dear me, yes! I hardly knew whether he wanted to take me or my purse.

Wrath and a Soft Answer. She—Don't you believe that "a soft answer turneth away wrath?"

He—Oh, yes. Oftener, however, wrath frightens away a soft answer.

Sculptured by Nature.

Nature through the active agency of the rains, winds and even the dust sometimes performs wonderful things in the strange fashioning of the oolite stone into forms resembling the human face. On the very summit of Mount Tamalpais, a lofty peak that stands about twelve miles from the city of San Francisco, is a most remarkable profile wrought in the solid stone.

Just a few minutes' walk from the end of the railroad that leads up to the mountain's summit, on the trail that circles the crest of the peak, brings one to the Old Lady herself. This huge natural sphinx seems to guard the path where it narrows on a rocky ledge.

The profile is perfect. The seams and creases made by the centuries of weather are like lines of care and age worn in the human face. No one, however aged in our worldly years, can remember when the Old Lady was young. However, when one passes farther along the path and looks backward the outline of the wrinkled visage is lost, and instead the eye can dimly trace the features of a woman young and as beautiful as an Egyptian princess.

He Had Money Before.

Colonel Carr was traveling in New Mexico once, when he ran into a party consisting of Senator Tabor and his friends. It was only a few months after Tabor had "struck it rich." Prior to that event he had possessed scarcely enough to buy a postage stamp, but he was making up for lost time.

Carr had lost his watch key and began inquiring for one. Mr. Tabor thought this a great joke. "The idea of a man wanting a watch key in the nineteenth century!" he said. After chuckling over it for some time he turned to Carr and asked an explanation. "I want to understand it—a watch key! And a man as up to date as you?"

"Well, the fact is," responded the colonel, "I had enough money to buy a watch before stem winders came into fashion."

It was a center shot and was greeted by a roar from the entire car. Tabor got off by buying champagne for the crowd.

An Intelligent Bird.

A species of woodpecker inhabits the driest parts of Mexico, where during the droughts it must die of starvation unless it made a store. To prevent this it selects the hollow stem of a species of aloe, the bore of which is just large enough to hold a nut. The woodpecker drills holes at intervals in the stem and fills it from bottom to top with the nuts, the separate holes being apparently made for convenience of access to the column of nuts within.

The intelligence which not only constructs a special storehouse, but teaches the woodpecker to lay by only the nuts, which will keep, and not the insects, which would decay, is perhaps the highest form of bird reasoning which has yet been observed.

Buying a Wife.

In Uganda a man can buy a handsome wife for four bulls, a box of cartridges and six needles, and if he has the luck to go a-wooling when woman happens to be a drug on the market he can buy a suitable dame for a pair of shoes. A Kaffir girl is worth, according to the rank of her family, from four to ten cows, and in Tartary no father will surrender his daughter unless he gets a good quantity of butter in return, and in certain parts of India no girl can marry unless her father has been pacified by a present of rice and a few rupees.

Water on Battleships.

As nearly as possible 8,000 gallons of fresh water are used in a large battleship daily. About two-thirds of this is taken up by the boilers, and the remainder is used for drinking, washing, cooking, etc. When the store which she has taken out with her from port has been used up a vessel has to depend upon her evaporators for further supplies. Every modern warship is fitted with evaporating machinery to distill the salt sea water.

No Harm Done.

Foreman (explaining the accident to the owner of the building)—Barney was working on the roof, sir, and he slipped and fell the whole four stories, bringing the cornice down with him, sir, and breaking both his legs and half his ribs.

Owner—Oh, well, never mind! I intended that cornice to come down in any case.

Charity Begins at Home. Wealthy Merchant (at an evening party)—Gentlemen, we will not allow this festive occasion to pass away without remembering the poor. In one of my houses there lives a poor clerk whom I shall have to evict tomorrow unless he can pay his arrears of rent by then. Pray, hand a plate around—Dorfbarker.

Transformation.

An English farmer had a number of guests to dinner and was about to help them to some rabbit when he discovered that the dish was cold. Calling the servant, he exclaimed, "Here, Mary, take this rabbit out and 'eat it and bring it back a little 'otter!'"

A Slander. The Lady—I gave you a piece of pie last week, and you've been sending your friends here ever since.

The Tramp—You're mistaken, lady. Them was my enemies.

Economical.

"Doesn't it cost you a good deal to run this yacht, old man?" "Yes, but my wife can't spend a cent when she's here."
