Table listing various professions such as Mechanical Engineer, Telephone Engineer, Heating and Vent. Eng., etc., with checkboxes for selection.

**LOOK UP!**

**TESTIMONIAL.**  
GENTLEMEN:—I can but speak well of the International Correspondence Schools and their system of teaching in the different branches of education. In teaching languages there is no better system. Their Commercial Course, as well as their course in Drawing and Sketching, is perfect. Any person with a common school education can through these schools acquire a thorough knowledge of any of the branches they teach. The long evenings of the fall and winter season could not be spent better than by taking up one of the branches taught by them.

**J. W. McKAY, Representative,**  
Box 441, HARRISTON, ONT.

**Volunteers Attention!**  
The coming Militia Camp promises to be one of unusual interest. During the past two years only small contingents have been ordered out, this year full companies will be taken. I would like to see all the old members go and enjoy a camp under the improved conditions, also as many new men as can be secured. Quite a number have already joined so those who intend going should apply at once as early as possible. See later ad. for date of drills.

**To Stamp Out Consumption.**

Many of the most thoughtful and public-spirited men of the Dominion are numbered among the officers and members of the Canadian Association for the prevention of Consumption and other forms of Tuberculosis, which held its fourth annual meeting Ottawa on April the 20th and 21st. Every thinking man and woman must be impressed with the necessity for united action to check the ravages of a disease which causes one death in every eight in this country, and gives rise to a vast amount of suffering and permanent ill-health. It is calculated that in Canada at present moment between 30,000 and 40,000 persons are suffering from it, yet it is undoubtably a preventable disease and one that is curable in its earlier stages.

Arousing the public. The report of the executive council pointed out that the operations of the association have combined with other influences to concentrate public attention in some degree upon consumption and to awaken a desire for information regarding the measures which should be taken to stay its ravages. The Secretary, Rev. Dr. Moore, of Ottawa during the year distributed by mail and otherwise over 100,000 leaflets on "How to Prevent Consumption," "Rules for Consumptives," etc. Many lectures were also given, with the hearty co-operation and sympathy of the medical health officers and other members of the medical profession; the mayor and members of municipal councils, the clergy of all denominations, and the proprietors of newspapers. As the president, Hon. Senator Edwards, pointed out, literature such as the association distributes should be in every home, so that the people might be taught the simple means by which the scourge may be avoided.

While sanatoria were helpful in the case of those who had the disease he believed that the great means of its prevention was in education. Infection from animals. A phase of the question in which farmers are particularly interested was discussed by Dr. Ravenal, an eminent United States authority, who is assistant medical director of Henry Phipps Institute at Philadelphia, in an able address on "Animal Tuberculosis in their Relation to Human Health." Dr. Ravenal detailed with exactness the advancement made in the study of consumption since Koch of Berlin made his famous discovery of the tubercle bacillus, and said that in the course of many years experimenting he had not found any animals that were immune from tuberculosis. The lecturer vigorously combated the opinion of Koch and others that there is an essential difference between human and bovine tuberculosis and cited a large number of experiments in support of his view that these were practically identical. While admitting that the majority of cases of consumption were due to infection by inhalation, he claimed that a considerable percentage could be definitely traced to infection through the digestive tract by food, particularly milk and meat. The few figures available seemed to indicate that about 25 per cent of children's cases were due to the latter cause. He had no knowledge of any case of an adult becoming consumptive in this way. In conclusion, Dr. Ravenal urged that while it is important to educate the public, to build sanatoria, and to establish large institutes for the treatment of advanced cases the whole duty of prevention was not being done if the possibility of infection from animal sources were neglected. The speaker was most favorably received, and at the close of the lecture was accorded an unanimous vote of thanks on the motion of His Excellency, the Governor General, who has always taken a great interest in the work of the association.

Fresh Air, Light and Sunshine. The keynote of the convention was:—"Live as much as possible in the open air." Fresh air, light and sunshine are most important preventives of consumption, and all rooms occupied by consumptives should be as well lighted and ventilated as possible. Living in over crowded, ill-ventilated, dark, dirty rooms; insufficient or bad food; dissipation; or anything which enfeebles the constitution and thus impairs its power of resistance, is likely to facilitate the invasion of the system by the germs. These are found in vast numbers in the dust particles of the dried spit of the consumptive and in the minute droplets sprayed into the atmosphere by the consumptive in coughing, consequently spitting about the streets or in buildings (churches, schools, theatres, railway stations,

**Just What You Need!**  
Chamberlain's Stomach and Liver Tablets are just what you need when constipated; when you have no appetite, feel dull after eating and wake up with a bad taste in your mouth. They will improve your appetite, cleanse and invigorate your stomach and give you a relish for your food. For sale by H. Parker.—2.

The Imperial Cement works will resume work on Monday with a staff of seventy men. Extensive alterations have been made to the plant and they will have an increase output of high quality. The company are taking on all the men they can secure.—Owen Sound Times.

**WEAKNESS**  
PECULIAR TO MEN AND WOMEN  
It is sad to contemplate the unfortunate condition of so many men of our day and generation. At 30 they feel 50; at 40 they feel 60, and at 50 when they should be in the very prime of life, they are almost ready for the grave. The fire of youth has gone out, the fountain of vitality is exhausted. Premature old age! No matter what produced it, whether evil habits in youth, later excesses, or business worries, the one thing for you to do is to get back the vim, the vigor and vivacity of manhood. Don't lose your grip on life. There are yet many happy, golden years for you if you only get help. We can and will not only help you, but cure you to stay cured. Curing diseases and weaknesses of the nervous and sexual system has been our exclusive business for the past 30 years, during which time we have cured enough fallen men to make an army. OUR NEW METHOD TREATMENT will restore to you what you have lost. It purifies and enriches the BLOOD, strengthens the NERVES, vitalizes the sexual organs, checks all unnatural drains and losses and fits a man for the active duties of life.  
**Cures Guaranteed or No Pay.**  
We treat and cure Blood Poison, Varicose, Stricture, Gleet, Urinary Drains, Sexual Weakness, Kidney and Bladder diseases. CONSULTATION FREE. If unable to call, write for a Question Blank for Home Treatment.
