Sports in Durham.

We have not had sports on the 1st of July in Durham for four or five years. At that time we found a "snake in the grass" circulating false reports and working against the welfare of the cause which disgusted the promoters so much that there was no attempt to get up sports again until this year. We found the same "snake," with some assistants, doing their work directly against the interests of W. Black (when he was busily engaged helping to make the 1st of July 1904 sports, what they proved to be, the best ever held in Durham), but although the jealous, no-good for any town, sore heads, used their best endeavors to injure, they could not prevent the crowds from thronging to the establishment where customers feel they can get the worth of their money and everything they require in the Hardware line.

The sports are over, and every person who witnessed them were delighted; now we are at our posts for the purpose of satisfying our numerous customers, and will endeavor to give them "something good and substantial."

This week we will offer you Sections, Guards and Heads for your mowers and binders. DURHAM, — — ONTARIO.

THE GATHERING OF THE CLANS.

Dominion Day was celebrated in grand style here on Friday last. Some time ago the Sons of Scotland conceived the idea of getting up a big demonstration, and went to work with a will determined to give the best sports and the best entertainment ever witnessed in the old town. Their efforts were not unrewarded, and notwithstanding the lowering and unfavorable appearance of the morning, there was a good turnout before noon, and things seemed hopeful.

The celebration was well advertised not only by litho posters and small hand bills, but in all the local papers in the vicinity. The 48th Highlanders pipe band was held out as a special attraction, and the high-wire performances of Professor Riley as well as the trapeze exercises by Sato Bros. were additional inducements. A good list of prizes for Athletic sports drew others to the field and we feel safe in saying that there was never before so large a crowd of people assembled in this town.

Every Scotchman loves the bag pipes, let it be one instrument or a whole band. Hundreds of others are not in love with the pipes as an instrument of music. The band here on the first of July, however, has changed the opinion of many, and we believe that everybody liked the music dispensed here so liberally on our Natal Day. There were in all ten pipes, two small drums and a large drum, and the music was very fine. The big drummer was a dandy, and everybody admired the way he handled his sticks. He was, in fact, the most observed man in the whole band, and how he made the movements he did was a puzzle to the observer. The band was all right, and the antipathy to the pipes is now almost annihilated.

The high-wire man gave a very good exhibition of his ability, but can hardly be regarded as a high class artist. Any one with a good head, and sufficient nerve can walk a wire when strained almost to the breaking point if supported by a balancing pole such as the professor had here. The tricks performed looked a little daring, but were by no means difficult to a well developed athlete. We must not be too critical along this line, as the performance on the whole was very good and took well with the vast concourse of spectators. The trapeze exercises by the Riley-Sato combination way a very nice exhibition of skill and strength, and demonstrated nicely what may come from muscular development, and a little practice.

Considerable interest was shown in the games and the work in this respect was quite a success. Most of the programme, if not all was given as advertised and the public so far as we can see, have no reason to find fault with the management, who did their level best to give the full bill of fare.

The Concert in the Rink at night was also well patronized, and the programme was highly satisfactory. The meeting was opened by Dr. Hutton, Chief of Ben Nevis Camp and he immediately handed over his duties to Grand Chief Fraser who was present on the occasion. Miss LaDell, proved herself an excellent elocutionary entertainer, and delighted her audience with the grave and the gay. Her lightest piece was perhaps "The Boy's Bear Story," by Whitcombe Riley, and her best and most pathetic number was entitled "Laddie." Mrs. Caldwell, of Toronto, has a marvellous control of her voice as a vocalist, and her first appearance here has captivated the hearts of the music loving portion of the community. Bert Harvey took well in his comic songs, some pronouncing him the equal of Fax, "the inimitable Jimmy." Highland dancing by Jimmy Gardiner, of Toronto. Trapeze and bar exercises by Sato Bros, and an abundance of music by the 48th Highlander's Band completed an excellent programme.

The following are the prize winners in the athletic contests:—
200 yard Race—A. C. Brickert, (Listowel) E. Siegner.
Running High Jump—Robert Williamson, A. C. Brickert, C. D. Brickert.
Running Hop Step and Jump—C. D. Brickert, E. Siegner, W. C. Pickering.
100 yard Race—A. C. Brickert, C. D. Brickert.
Vaulting with Pole—R. Williamson, C. D. Brickert, E. Siegner.
Putting the Shot—A. C. Brickert, Ed Sullivan.
Highland Fling Dance—Jas. Gardiner, W. Ross, W. Gardiner.
Sword Dance—W. Ross, Jas. Gardiner.
Seann Trubhas Dance—Jas. Gardiner, W. Ross, W. Gardiner.
Tossing the Caber—Ed. Sullivan, A. Black, D. McKinnon.
Irish Jig—Jimmy Gardiner, W. Gardiner.

Tug of War—Bentnick and Glenelg—Glenelg Victorious.
Throwing the Hammer—R. Williamson, D. McLachlan, Ed. Sullivan.
Amateur Pipe Competition: J. Ross (Acton); Peebles (Toronto); Thompson (Toronto).

The firemen gave an exhibition that created quite an interest, and gave themselves a little practice.

NOTES.

The day was cool with Scotch mists at intervals. C. C. McFayden was the most interested listener to the pipes. The boys kept off the ground

when they had to. The gate receipts ran up between four and five hundred dollars and the receipts at the Concert must of been over two hundred.

The demonstration was all right, and will likely be repeated next year.

The total expense was between six and seven hundred dollars.

The Society is highly grateful to town and vicinity for their liberal support and their liberal patronage.

If some enterprising speculator struck the committee Friday morning he might have made a little money by offering to pay all expenses in exchange for all the proceeds.

A Man Hates Himself

Mr. Antonia Wendling, owner of Deveras 211-1/2, and proprietor of the Clifton House, Brockville, says no liniment compares with Nerviline for general use around the stable. For strains, sprains, swellings, internal pains and especially for affection of the whirl bone Nerviline is unequalled. Mr. Wendling believes Nerviline is indispensable as a horse liniment. It has strength, penetrating power and works thoroughly. Every horse and stock owner should use Nerviline Sold in large 25c. bottles.

ADDRESS AND PRESENTATION.

Delivered by the pupils of Hutton Hill to their teacher John A. Graham on retiring from the position he held for the past three and a half years.

Hutton Hill, June 27th 1904.

Dear Mr. Graham:—It was with true feeling of regret and surprise that we learned a short time ago of your intention to sever your connection with us as a school.

For the past three years you have ever been kind in looking after our mental requirements, forbearing with us in our weakness, and indulgent with us in our waywardness and wrongdoings. Your government has been the personification of kindness, and the kindly spirit in which you governed us in the way of right and righteousness have stamped on our young minds an appreciation for the enviable reputation you bear as a teacher and high school disciplinarian. Always strict but never harsh we respect your manner of government. You tried to be one of us, and one with us and lacking as you do that spirit of dogmatism which so often breeds antipathy we learned obedience from pleasure and duty rather than fear and the dread of punishment.

We have not always been what we should have been but any opposition we may have shown to your authority has been tempered with respect and a feeling of esteem. We know your highest and best interests were for our advancement, and the results of your work are sufficient evidence of your ability as an instructor.

Now that we are about to part perhaps never again to stand in the relation of teacher and pupils, we beg of you to accept this small token of our esteem, not for its intrinsic value but simply to remind you of your sojourn here. The watch chain is for yourself, and the butter-cooler we trust may long be service to your better half at home.

Wishing you long life and continued prosperity wherever you may go we remain your affectionate pupils.

Signed in behalf of the school.

MR. TYERMAN HONORED.

On Leaving S. S. No. 9. Glenelg.

Dear teacher:—In view of our separation as teacher and pupils in a few days, we have felt moved to mark this occasion by expressing thus freely and untedly our sense of the loss we sustain at the same time recognizing heartily the benefits derived from your example, your kindness and your abilities.

We are aware that while you have been ever faithful in duty, kind and loving in your intercourse with us, anxious always for our welfare, and that we should make true progress in knowledge and character, we have sometimes failed to meet your efforts with what diligence and attention they deserved, and we ask you now to forgive us the lapses we have made.

While sorry to lose you we wish you all success and abundant happiness in your future life, and hope that the experience of your three years among us will furnish some bright spots on which memory loves to dwell.

As a touching token of our sentiments we ask you to accept these small presents as tokens of our esteem.

Signed on behalf of the school.
