 (Solomon, in the Shoe and Leather Journal)  
 Just wait.—If you are right you  
 can afford to let the mudslingers  
 have their say. There is nothing  
 impresses people so much as self con-  
 trol. The fellow who wants to jump  
 on these who criticize him, or who  
 runs around like a wet hen cackling  
 about his wrongs is nine times out of  
 ten no better than his neighbors  
 paint him. "By long forbearance a  
 prince is persuaded." Your cause  
 will gain friends as you keep your  
 mouth shut. Even those who doubt  
 you will become your defenders when  
 they see you calm under the attacks  
 of envy and spite. The men who  
 have patiently waited have made this  
 world. Some of them have been  
 hissed, hooted and mobbed, but have  
 lived to their ideas enthroned in the  
 hearts and lives of their fellows. If  
 you are right and know it just wait.  
 If you are maligned and abused wait.  
 If you are cast out of society or the  
 church wait. Nineteen hundred  
 years have passed since the howling  
 mob hurled its vituperation and scorn  
 at the man of Nazareth as he hung  
 upon the cross. To-day the civilized  
 world does homage at Golgotha.

An effective weapon.—If you want  
 to break every bone in your enemy's  
 body, don't take a club or an axe.  
 There is a more effective method.  
 "A soft tongue breaketh the bone."  
 You can limber up the worst old stiff-  
 necked, hard-boned enemy by the  
 proper use of the tongue. Two men  
 in this city were sworn enemies, and  
 it seemed that each was just waiting  
 the chance to get the knife in and  
 turn it round. One day a third party  
 made a disparaging remark to one of  
 them about the other. The statement  
 was a lie, and the man who  
 heard it knew it. He was in  
 enough to defend even an enemy in  
 his absence, and called down his trau-  
 ducer. It got to the ears of the party  
 interested and he came next day and  
 extending his hand to his enemy ac-  
 knowledged his obligation for the  
 generous defence. Many a time the  
 soft tongue has broken the bone. It  
 is sad, too, that a soft slimy tongue  
 has not only sometimes broken the  
 bone but the heart. Know how to  
 use your tongue for good. Not only  
 keep a civil tongue in your head, but  
 learn how to use it to kill strife and  
 promote moral health.

Poor tools.—People who don't look  
 below the surface wonder why the  
 Lord made so many poor people. The  
 Lord in most cases hadn't anything  
 to do with the business. Some people  
 will always be poor because they  
 have to run and ask some one every  
 time they want to wipe their noses.  
 Undependable people are the curse of  
 the world. Every business is ham-  
 pered with these barnacles. You can't  
 trust them out of your sight or they  
 will spoil something. The man who  
 gets on in this world is the one who  
 uses what little brains he has to 'do'  
 things and gets them done before you  
 have time to get round and ask him  
 the second time. These "second  
 time" people are not worth the  
 breath you spend on trying to im-  
 prove them. Brace up and get rid  
 of them if you have any hanging  
 around your establishment. "Confi-  
 dence in an unfaithful man in a  
 time of trouble is like a broken tooth  
 and a foot out of joint." He will go  
 back on you some time when it will  
 cost you a good penny. Don't run  
 the risk.

The bright side.—Get hold of things  
 right side up and remember the best  
 side is always the bright side. The  
 world has no use for "bellyachers."  
 You feel like giving out and cursing  
 yourself when one of these growling  
 plagues come around. One of the  
 sorest afflictions the Lord can send a  
 man is to put one of these Jeremiahs  
 in his circle who is always wailing  
 out harrowing tales of woe. Your  
 stock in the community will go up in  
 proportion to your optimism. There  
 is nothing succeeds like success, but  
 nothing helps on success like having  
 people believe in you. "I would as  
 soon see the devil come into my place  
 as that man," said a business man  
 the other day of one of these pessim-  
 ists. Believe in yourself, believe  
 others, believe in good, believe in  
 your country and believe in God.  
 Give people the brightest you get  
 out of a bright life of faith and you  
 will die young if you live to be eighty.  
 "As cold waters to a thirsty soul, so  
 is good news from a far country." People  
 are always thirsty for good news.

Make friends.—Don't get into that  
 whirl of excitement in the pursuit  
 of money or pleasure that lets friend-  
 ship go to the devil. There is a  
 screw loose here in our modern con-  
 ditions. Our fathers had their  
 staunch friends and relationship  
 meant much to them. Their sons  
 have their acquaintances and are  
 prepared to ignore or tread them  
 down if at any time they get in the  
 way of otherwise interfere with their  
 selfish purposes. The man who cuts  
 out friendship is on the way to a bu-  
 caneer's life. Give yourself a chance  
 to gather a few people around you  
 whose hearts are not petrified with  
 money grabbing. "Thine own friend  
 and thy father's friend forsake not."  
 There are some men who would sell  
 their own friends, their father's  
 friend and two or three of their moth-  
 er's for a five cent piece with a hole  
 in it. Anything for money. You  
 are, perhaps, getting there. Get out  
 of this indifference as you would out  
 of a plague district.

People rebuke.—It is not necessary  
 to be an ignorant boor to be plain

spoken or candid. There are times  
 when a man is required to speak out.  
 It is cowardly to be silent when silence  
 is consent to wrong. At the  
 same time be sure your speech on  
 such an occasion is wise as well as  
 sincere. Don't be afraid to rebuke  
 wrong, but let your rebuke be such  
 as to leave no poison. "He that re-  
 buketh a man afterwards shall find  
 more favor than he that flattereth  
 with his tongue." Few men worth  
 the name will resent a word fitly  
 spoken, and few are deceived with  
 soft speech or cowardly acquiescence  
 in their own wrong doing. There  
 are, however, those who think it the  
 proper thing to hit a man on the head  
 with a stuffed club and then expect  
 him to turn around and kiss the rod  
 that smote him. There are times  
 when a good crack in the jaw is the  
 proper answer to so called candid-  
 ness.

Braying praise.—Next to the wear-  
 some ass who gives free vent to his  
 ill opinions of people on all sides is  
 the fellow who slobbers all over his  
 friends in public. There is little  
 enough good said of people in this  
 life, and it is well to strew flowers  
 in the path of our friends instead of  
 waiting to heap them on their coffins.  
 But the man who makes a business  
 of taffying people on purpose to work  
 some scheme on them or their friends  
 is a dangerous person. "He that  
 blesseth his friend, rising early in the  
 morning, it shall be counted a curse  
 to him." When you hear some one  
 say nice things about others you  
 instinctively look around to see  
 where the string is. Don't either  
 with design or out of foolish heart  
 be caught plastering your friends  
 with mushy compliments. If they  
 know anything they will despise you  
 and the world at large will take you  
 either for an ass or an knave. If you  
 want to say good things of folks go  
 to them.

**Societies Owning Stock.**

A great deal of interesting infor-  
 mation has been gathered lately by  
 H. B. Cowan, Provincial Superinten-  
 dent of agricultural societies, regard-  
 ing the ownership of pure bred breed-  
 ing stock, by several societies in the  
 Province. A number of these soci-  
 eties, it has been found are doing ex-  
 cellent work. It is believed that if  
 many of the societies in the Province  
 which are holding small exhibitions,  
 were to give up this work and own  
 and circulate pure bred stock, they  
 would accomplish much more good  
 for their sections. On Saturday,  
 June 11, Mr. Cowan visited the home  
 of Mr. A. M. Stewart at Dalmeny,  
 Russell County, who is secretary of  
 the township of Osgood agricultural  
 society. This society has been own-  
 ing pure bred stock since 1867. The  
 Directors are unanimous in the belief  
 that their society has done more good  
 than it could possibly have done had  
 it endeavored to hold annual exhibi-  
 tions. Mr. Stewart states that it is  
 the general opinion in the county  
 that the county of Russell won the  
 banner offered by the Ottawa Valley  
 Journal to the county in eastern On-  
 tario owning the best stock, largely  
 as a result of the excellent work done  
 by this society.

The Osgood society owns three  
 bulls, two of which are Ayrshires,  
 and a Shorthorn, twelve rams and  
 four boars. The sheep are mostly  
 Shropshires, but include two Lei-  
 cesters and one Oxford down. The  
 hogs include one animal each of the  
 following breeds, Tamworth, York-  
 shire, Berkshire and Chester White.  
 These animals are located in five dif-  
 ferent sections of the township. Any  
 twelve farmers in the township, who  
 will agree to pay \$2. each for three  
 years and take proper care of stock  
 will, on request be furnished with a  
 pure bred bull, ram or boar, by the  
 Society, or with all three, if they ask  
 for them. Generally one animal is  
 asked for the first year, more being  
 taken after this subdivision of the  
 main society has become well estab-  
 lished.

If the Society has no animals on  
 hand a committee is appointed to pur-  
 chase them. Some bulls have cost  
 the Society as high as \$400. Accord-  
 ing to Mr. Stewart, the Society has  
 never secured a good bull which did  
 not cost at least \$100 laid down at  
 Dalmeny. The society has purchased  
 bulls that have won the gold medal  
 at such exhibitions as Toronto.

"In the past," continued Mr. Ste-  
 wart, we have always been able to  
 furnished all the animals asked for.  
 If a local section asks for three ani-  
 mals, the Society loses money, but  
 if they only ask for one animal, we  
 generally make a little. The \$24,  
 received each year from the twelve  
 farmers forming one of these sections  
 together with the government grant  
 we receive and a little extra funds,  
 which come in in other ways, gener-  
 ally enables us to meet the expense  
 of keeping the animals. Some times  
 we have been forced to go into debt,  
 while at other times we have had as  
 much as two or three hundred dol-  
 lars to the good. At present, we  
 have over \$100 on hand, with the  
 government grant coming due. Our  
 grant is usually about \$63. Some  
 years we have had as many as eight  
 bulls, thirteen rams and six boars.  
 At the end of a couple of years, these  
 breeding animals are changed around  
 from division to division to prevent  
 inbreeding. When the breeding  
 stock has passed its usefulness, it is  
 sold to the butcher and the money  
 comes back to the Society.

Members have the use of a ram for  
 all their sheep and of the boar for  
 two animals twice a year. Each  
 member is entitled to breed four cows  
 during the year, and if the bull is  
 not used much, members are allowed

to take more cows. The man who  
 keeps the bull, has the use of him for  
 all his stock. The same privilege is  
 allowed the man who keeps the ram  
 and he also gets the ram's fleece  
 extra. Twelve to \$20 a year is al-  
 lowed the man who keeps the boar.  
 At the same time our Society paid  
 members as much as \$10 a month for  
 keeping the bull. Members also had  
 the use of the bull free. This was  
 found to be too much of a good thing  
 for the man keeping the bull and the  
 Society soon got into dispute and  
 membership fell off, until the Society  
 was partially dead. About ten years  
 ago we changed this method and  
 adopted the present system which has  
 worked admirably. We pay about  
 \$20 for our hogs when they were six  
 months old and \$20 to \$35 for our  
 rams.

"I am satisfied, continued Mr. Ste-  
 wart, that if most of the societies  
 which held exhibitions were to give  
 them up and keep pure bred stock  
 instead, the way our society does, it  
 would be a great improvement over  
 the present system, where there are  
 so many fairs that they conflict with  
 each other. We have a sort of un-  
 written law that any man who keeps  
 any of our stock, must do so subject  
 to inspection by some member or  
 members appointed for that purpose.  
 There have been occasions where it  
 has been found necessary to take ani-  
 mals away from members, but not of  
 late years."

**THE DRUMMOND AGRICULTURAL SOCIETIES**  
 This same line of work is also being  
 conducted by the Drummond Agri-  
 cultural society, located near Perth  
 in Lanark county. Mr. Cowan re-  
 cently visited the section and was  
 shown the stock kept by the society.  
 In the evening a meeting was held  
 at the home of Mr. P. M. Campbell,  
 of Balderson, the secretary, at which  
 a number of well known breeders  
 and officers of societies were present.  
 This society has been keeping pure  
 bred stock since 1668 and owns two  
 bulls, a Shorthorn and an Ayrshire.  
 During the winter two hogs were  
 kept, a Berkshire and a Tamworth;  
 more hogs will be bought in the fall.  
 Up to two years ago, the Society kept  
 pure bred rams. The Durham Bull  
 cost \$140 at the auction sale of stock  
 held in Ottawa and the Ayrshire cost  
 \$90 bought from a private breeder.  
 The bulls are boarded around at the  
 rate of \$3 a week during June and  
 July and for \$3 a month during the  
 rest of the year. The keep of these  
 animals thus costs the Society about  
 \$54 each year. The man boarding  
 the animals have the use of them for  
 their stock. The bulls are kept at  
 three different places in the township  
 and about every three weeks they  
 are moved around to suit the con-  
 venience of the members. Members  
 are charged \$1 each to join, for which  
 fee they are permitted to breed two  
 cows to one bull or four altogether.  
 For four more cattle an extra dollar  
 is charged. The society has a mem-  
 bership of 67 and receives a govern-  
 ment grant of about \$67, as well as  
 a county grant of \$30. For their  
 dollar members can take a sow to  
 each boar. Members holding stock  
 can collect membership fees. The  
 parties keeping the rams are allowed  
 to charge members 12 1/2 cents a week  
 for each ewe which is kept at their  
 place. No member can take more  
 than two ewes to a ram. In this  
 way members of the society for their  
 membership fee are allowed to breed  
 four cows, four ewes and four sows,  
 all for \$1. Boars are kept at a cost  
 to the Society of \$10 for the season.

For a number of years this Society  
 has bought seed at wholesale prices  
 and furnished it to members, who  
 have thus secured a reduction equal  
 to about 14% on all the seed they  
 buy through the Society.  
 At the meeting held in the evening  
 the opinion was unanimously ex-  
 pressed by those present that great  
 good would be accomplished were  
 societies to receive a government  
 grant on the basis of what they ac-  
 tually expend for agricultural pur-  
 poses, instead of largely on the mem-  
 bership basis as is done at present.

Particulars regarding the show  
 may be had by writing to the Sec-  
 retary, Supt. H. B. Cowan, Parliament  
 Buildings, Toronto.

**A Rival For The Winter Fair.**

The arrangements already made  
 for the provincial fruit flower and  
 honey show, which will be held in  
 Toronto during the second week in  
 November, indicate that it is likely  
 to prove as important an event in its  
 line as the big winter fair held yearly  
 at Guelph. No effort is being spared  
 to make each feature of the show  
 the greatest of the kind that has ever  
 been held in Canada. The Ontario  
 Fruit Growers' Association has  
 drawn up a liberal prize list and will  
 pay the transportation charges one  
 way on all exhibits of fruit sent to  
 the show.

Special prizes will be offered for  
 the best exhibit of fruit made by any  
 agricultural society. It is expected  
 many of the societies in the province  
 will send their total exhibits from  
 their fall fairs to this show. Ar-  
 rangements have been completed to  
 keep this fruit in cool storage. In  
 this way, it is hoped to have repre-  
 sentative exhibits of fruit from all  
 parts of the province. Demonstra-  
 tions in packing fruit will be given  
 and bulletins will be issued describ-  
 ing the special qualities of each var-  
 iety of fruit and stating whether it is  
 best for cooking or eating purposes.  
 In this way, householders will be en-  
 abled to secure the best varieties of  
 fruit for their purposes. On the last  
 day of the exhibition a big auction  
 sale of fruit will take place.

The money offered for flowers is  
 over 100%, more than has ever before  
 been offered in Toronto. About \$1500  
 will be given in prizes in this section  
 alone. The arrangements are in  
 charge of a floral committee of which  
 Mr. Edward Tyrrel, president of the  
 Toronto Horticultural Society is  
 chairman. The honey prize list is  
 also a liberal one. Several prizes are  
 offered for commercial packages.

Amongst the important gatherings  
 that will take place at the time of the  
 show will be the annual meeting of  
 the Ontario Fruit Growers' Associa-  
 tion and the Ontario Bee Keepers'  
 Association, while a meeting of dele-  
 gates from the various horticultural  
 societies of the province will also be  
 held. The Ontario Government has  
 made a grant of \$1000 to aid the ex-  
 hibition, which has been supplement-  
 ed by a grant \$200 from the city of To-  
 ronto.
