The Threads of Wire Upon Which

So Many Lives Daily Depend. While the longest ropes are used for hauling purposes, some of the most interesting data in connection with wire ropes are obtained with their use for hoisting purposes. Hundreds of thousands of lives are literally each day hung by a small wire thread as the men are lowered into and hoisted from the bowels of the earth, and in many cases the only means of communication between the surface and the underground workings, which are from a few feet to a mile in depth, is by a emparatively small hoisting rope. Think of hanging from the end of a cable only a few inches in diameter and a mile long, being hoisted at a rate which is faster than that of the average railroad train, and some idea of the holsting problem can be gained. To the honor of the wire rope manufacturers it must be said that very few shaft accidents are due to the breaking of the rope, excepting where the cage is overwound and unwarranted demands are made upon the rope or which are traceable to false economy on the part of the users of wire rope. No part of a mining plant is more carefully inspected and watched than the hoisting cope, and very few mine managers will take any unnecessary risks in the hoisting of men. The skill of the wire rope maker is taxed to the utmost to provide ropes for hoisting from great depths. To make a rope of practicable and that will bear even its own weight more than the material lifted; hence we have taper rope intended to give a varying section dependent on the amount of rope off the drum or reel .-Mines and Minerals.

SETTING THE CLOCK FAST. A Pleasant Sort of Deception Com-

mon to Many People. It is a common thing to find the clocks in nine out of ten households either fifteen minutes or half an hour fast, and should you happen to be in a hurry or mention the fact that you have to be going you are at once reas sured by the fact that you have no cause to hurry, as the clock is so much ahead of the time.

Has it ever occurred to you wh clocks are usually put ahead? Son physicians have said it is due to haz ness, for it is such a satisfaction to to lazy man to find when he has to go up at 7 in the morning and strains hi half closed eyes to look at the clock that it is half an hour fast and he has so much more time to doze, with the result that he oversleeps himself any how and misses his train or boat. Said a watchmaker when asked

about the subject: "Yes, it is a peculiar thing with mos people to put their clocks fast, and The Big 4 while there may be some satisfaction in it when it comes to dozing a little longer, there is really no advantage in it, for when you wake up, say, at 6 and glance at the clock and it registers hal! past 6, the fact remains that it is a half hour fast. While this may make you feel easier, knowing that you still have thirty minutes to doze, I confess I don't see much advantage in it.

"Why not have the clock right? It i the same thing in the end. "Suppose railroads were to put this into practice, how many trains do you think people would miss thereby? This putting clocks fast is really only 7 piece Glass Berry Sets 40c and 45c pleasant form of deception which peo-" Table Sets, 3 patterns30c ple like to practice on themselves, but it does more harm than good."

A Way Spencer Had.

Herbert Spencer had a passion for Chenile Table Cloths, 12 yds square...1.15 generalization. If you remarked it was " " 2 " " ...245 a fine day, Spencer would answer, "Yes: anticyclonic conditions like Large size White Counterpanes......1,40 those of yesterday seldom break up other eleven for nine days, locked up in without warning of the advent of a the jury room, when they gave in, and depression from westward." Durham Bakery!

THE BEST PROOF

We want regarding the quality of our bread is the increased amount consumed by the people of Durham. Since starting here a few months ago our trade has been constantly and steadily growing, over four times what it was when we started business. We feel truly grateful for the liberal patronage accorded us and with the increased and competent assistance we have secured we hope to merit a continuance of the public patronage.

We make all kinds of CAKES and CONFECTIONERY and give special & prompt attention to Wedding goods.
