The Cause of Serious Loss. Preventive Measures.

venting it. the late blight which causes the rot, favor on him. Foolish fellow! If Phytophthera infestans. The early these bashful boys but knew! It was blight causes the spotting of the the young man's conviction that he ing presentment:leaves early in July. These spots was destained to live his life in single blight does not attack the tubers and other. If the leeves are punctured by cheerful attributes of home. But it beetles or from some other cause the disease gets a foothold easier.

causes by far the greater loss, both ways for Sunday when there was Frost & Wood stem. During the latter part of July him by name, asked him why he did it produces on the undersides of the not get married. He replied with leaves myriads of tiny spores, which characteristic modesty that he didn't in the mass have a frost-like appear. think there was anyone who would ance. These spores make the rust have him. This was glorious! Easy of all kinds for the stage, which is caused by the leaf "Have you," she cried, "why I wil tissues drying up where the spores have you." The young man turned have been feeding on them and caus | red and white by turns but managed ing dark brown spots, It is from this at last to stammer out "all right, stage that future infection takes Why continue? Its dead easy girls. place, as the spores are carried rapid- This young couple are now married ly by the wind and alight on the foli- and it promises to be a case of "lived age. They are also washed below the happy ever afterwards." surface of the ground and reach the young tubers, and in time cause the rot. The potato rot itself is a dry rot; the wet rot comes through the growing right on into September by ly. Price 50c, at druggists. thorough cultivation and spraying. The important point is to get them past the period when they are in a weakened condition, without injury

Expermiments conducted at the Vermont Experiment Station proved that over half the crop of marketable Bed comforters well filled with all pure are usually dead after that date. The great gain is keeping potatoes grow-\$1.25 each ing until late in September is here very apparent. Very marked results 72x72. extra heavy...........83.00 each in spraying with Bordeaux mixture for blight have been obtained by the Fermont Station, the Irish Department of Agriculture, and the Dominion and Provincial Experimental Farms. In 1901 experiments by Mr. Macoun with eight varieties showed an average difference in favor of spraying of 109 bushels of marketable potatoes and in 1902 with eleven varieties the average difference was 120 bushels per acre. With the Em pire state variety there was a differ ence o 165 bushels per acre. In 1902 the vines were sprayed four times, on July 10th. July 22nd, July 30th and August 13 h, the formula used being 6 pounds bluestone, 4 lbs. lime 40 gallons water. While the Colorado beetles were active eight ounces of Paris Green were added to each forty allons of the mixture for large areas the expense for bluestone would be in the neighborhood of \$6. per acre, and the total expense probably not more than eight or nine dollars. Even at \$10 per acre the result of the above experiment for 1902 would show a profit of \$38. per acre, po-

from fungous diseases or insects.

tatoes selling at 40 cents a bushel. These results should convince spraying their potatoes for the prevention of blight and rot. The work must be thoroughly done. Spraying and the vines kept covered with the mixture until the close of the season.

It is generally recognized that some varieties of potatoes have greater power than others to resist this disease, and it is safer to cultivate only Men's Raincoats, were \$4.00, for stained a heavy financial loss. We varieties which are superior in this respect. All diseased refuse from an affected field should be burned. It is also advisable to avoid using for seed purposes potatoes from a diseased crop, even though the tubers appear healthy.

Your very truly, W. A. CLEMONS, Publication Clerk,

FIRST-CLASS LINE of Bakery WANTED-Industrious man or woman as permanent representative of big manufacturing company, to look after its business in this county and adjoining territory. Business successful and established. Salary \$20.00 weekly and expenses. Salary paid weekly from home office. Expense money advanced. Experience uot essential. Enclose self-addres-ed envelope. THE GRAND JURY.

The following gentlemen compose the Grand Jury at the court of general sessions being held this week: Eleazer Raymond, Thornbury, foreman, Archibald Carnahan, Meaford, every country in Ontario during the these, for he was very bashful, quite Robert Heron, Osprey, Thomas Matthews, Markdale, George Turner. Sydenham, James H. Horney Holland. growers sadly wanting in knowledge lady approaching, and if it was too Wm. J. Moore, Sullivan, John Mc-Phail, Proton, Adam Brown, Sydenham, A H. Jackson, Durham, H. embarassment was really painful to Hair, Egremont, W. G. McLauchlan,

Presentment of Grand Jury.

The Grand Jury made the follow-

We the Grand Jurors in attendance increase in size, unite and form large blessedness, that his days were to be at this settings at the high court of justice for the County of Grey beg leave to make the following present-

> We join in your Lordship's congratulations upon the comparatively small number of indictments presented before us. In our judgment this is good evidence that the people of this large county are peaceable and Pumps. law abiding citizens.

In accordance with your instructions we have visited several of the spring when the vines begin to grow heart) now that the good year of 1904 public institutions of the County and it starts to develop, growing up is in. So one fine morning she ap- are pleased to be able to report all of

The County Goal, under the supervision of Governor Miller, we found to be well kept, clean and healthy. There are at present confined therein 14 prisoners viz. 12 males 2 females. of these 4 are confined as insane. It is satisfactory to know that this institution is no longer being now used for the confinment of those whose only crime is old age poverty or physical infirmity.

The General and Marine Hospital was visited and found to be in excelent condition. It is gratifying to see the splendid work being done here by Miss Duncan, the lady superintendant decay of the tubers. It is when the And conclude of course that the and her staff of nurses, in the alletubers begin to form that the blight stomach is at fault. So it is, but viation of human sickness and sufferbegins to appear. This is just when there is a cause away back of the ing. The hospital we found crowded the potato has passed the most vigor- stomach that must be reached before with patients and an enlargment of ous stage, the stage when in a wild the stomach can be made to do its premises is a necessity. This institustate it would be blossoming and pro- work. The cause is nerve distur- tion is deserving of a larger measure aucing seed. At this stage the con bance or nerve debility. First get of financial aid from the county than stitution of the plant is weakened, the nerves in shape and then the it at present receives and in our judgwhich probably makes it more subject stomach will be right also. Ferro- ment the county council by increasto disease at this time. Ferrozone is a food One generous hearted lady of Owen gust. Why should they die so soon for the nerves and works wonders in Sound, the widow of the late Dr. when they do not produce seed? If stomach trouble. Where digestion Horsey, has equipped the operating the season is fairly favorable even appetite and assimilation are faulty room with a complete set of up-tothe earliest varieties may be kept just try Ferrozone, it cures thorough. date surgical instruments. We trust her worthy example may be emulated by other citizens in supplying much needed things for the hospital.

> The County House of Refuge was opened this year at Markdale for the reception of the poor and feeble of the county, and the jury felt it their duty to inspect this new public inmembers were obliged to pay their travelling expenses out of their own pockets. We feel that this is not right and therefore recommend that the county council provide for the lands in Ontario and North West for county undertaking at least twice a if no sale.

This institution we found to be an admirable one. The house itself is well built, commodious and thorough ly fitted with everything necessary for the comfort and convenience of those who have to occupy it. We recommend however that the county council purchase a quantity of hose for fire protection.

Although the house has been open only a few months, there are now 23 inmates viz: 19 males and 4 females. all apparently happy contented and well pleased with their surroundings and care.

We do not think however that the Ladies' Coats, all sizes, latest style, matron can continue to discharge the heavy homespun and beaver cloth, heavy duties developing upon her. and full length, regular price In our opinion the county council from \$5 to \$10, now from \$2 to \$5 should supply further help for the house work.

We regret to be unable to report favorably upon the barn. It is not in keeping with the rest of the Institution, and does not appear to be suitably designed or constructed for the purposes intended.

The county is to be congratulated upon having now a comfortable well ebuipped and up-to-date home for those aged citizens who through should be begun by the middle of July 500 yards Dress Goods, Homespun, poverty, infirmity or misfortune have

The one unhappy circumstance connected with the erection of this House of Refuge is the fact as we are in Sydenham Mutual recommend that the county council do not allow the contractor who has done his work in such a thorough and Men's knit, all-wool Guernseys, were satisfactory manner to be a loser through his faithfulness in the performance of his contract.
