**Trust Your Appetite**

**It Knows What is Best for Your Health.**

Your appetite knows what is best for your health. That is the theory of modern medicine—the doctrine of common sense. Bread your appetite does not like is bread that is bad for your health. How easily the human system assimilates good bread? How hard bad bread is on health. First, it's hard to eat the soggy, tasteless stuff, so many families call bread. Your appetite rebels against it. The appetite is wise. It knows what's best. You can trust it. If it doesn't want a certain bread, make up your mind the bread is wrong. The appetite is never wrong. We can safely leave our bread to the judgment of the appetite. Once one has tasted Royal Household bread, made just right by following the recipes, that person will accept no other. Other bread is flat and tasteless compared to it.

**Eating Bad Bread Sours the Stomach.**

Bad bread sours the stomach—lies undigested—creates dyspepsia. No dyspeptic can work well. No dyspeptic can be happy. Those with weak stomachs, the sick-invalids—convalescents, need and crave, most of all, thin slices of light, white well baked bread. In the sick room Royal Household is indispensable.

**What the Invalid Should Eat**

Give the invalid the best bread you can secure—give it to all your family and keep them well. Keeping well—health by good living—is the modern way. Royal Household is the modern flour. Send for the recipes. Send now. Don't wait till to-morrow. We send them free. OGIKVIE FLOUR MILLS CO., LTD. MONTREAL.

**HE MEANT WELL.**

But His Story Only Made Matters Worse Than What They Were. The shepherd of a flock in a certain suburb of Chicago had been finding it difficult to keep on good terms with one of the factions. While the members of the congregation preserved an outward show of general friendliness, there was under the surface a bitterness that, try as he would, the preacher could not dispel. Things kept getting worse and worse until there was no longer any attempt to conceal the difference between the pastor and some twenty-five prominent members of the church. They were sure to line up on different sides of every proposition that was broached, and they spoke in anything but respectful terms of one another. One Sunday morning just after the minister and those who were opposed to him had been in conflict at a business meeting the good man arose in the pulpit and began to tell his hearers of experiences that he had undergone in an Ohio city before being called hither. "At one time," he said, "we had a terrible epidemic of typhoid fever, and I had occasion then to see how true it is that God sometimes does his work in mysterious ways. People who had previously been enemies were brought together in loving friendship by the afflictions that were put upon them during those trying days. Old quarrels were forgotten, a spirit of religious fervor swept through the town, and I was called upon to offer prayers in homes where only wickedness and blasphemy had been before. The scourge was terrible, but it also brought glorious results. I remember that on one Sunday twenty-four coffins lay before me as I entered my pulpit to preach. Oh, that we might have a repetition of that glorious regeneration here." After that the breach seemed to grow wider, and it was not long before the congregation had a new guide.—Chicago Record-Herald.

**An Explanation.**

"We were bounding along," said a recent traveler on a local South African single line railway, "at the rate of about seven miles an hour, and the whole train was shaking terribly. I expected every moment to see my bones protruding through my skin. Passengers were rolling from one end of the car to the other. I held on firmly to my seat. Presently we settled down a bit quieter. At least I could keep my hat on, and my teeth didn't chatter. "There was a quiet looking man opposite me. I looked up, with a ghastly smile, wishing to appear cheerful, and said: "We are going a bit smoother, I see." "Yes," he said. "We're off the track now."—Kansas City Independent.

**Willing Spirit, Weak Flesh.**

The little woman placed her hands on her husband's shoulders and looked at him, her soul in her eyes. "There isn't anything you would not attempt for me, is there, Henry?" she asked. "Nothing," said Henry, his mouth shutting resolutely. "You would even risk death for me, wouldn't you?" "I would, and gladly." "Then, dear, please go down in the basement and discharge the cook." But Henry's face paled and his knees trembled, for he realized that he had spoken rashly.—Judge.

**As It Should Be.**

"No," said the dentist, "it would simply be a waste of good money for me to advertise in the newspapers." "Why do you think so?" queried the persistent solicitor. "Because," explained the tooth carpenter, "my work speaks for itself through the mouths of others."—Kennebec (Me.) Journal.

**Rewards and Penalties.**

"It is difficult for people to get what they really deserve in this life." "It is difficult for some of us," answered Miss Cayenne. "Others have to dodge."—Washington Star.
