Free, to any Woman who bakes her own Bread

"Royal Household" Recipes—they explain the new and easier way of making bread. Make a trial with the new Royal Household Flour, which is purified by electricity you would not believe there could be such a difference in flour—these receipes are certainly worth asking for. Send a postal card to-day.

SAVONAS, THREE MILE CREEK, B.C., November 28th, 1904. I have been using your flour exclusively since I came to Canada, fourteen years ago, and have been using "Royal Household" since its introduction. To show you how I value it my grocer lately could not supply me with it, and rather than use another brand, even temporarily, I sent to Kamloops, twenty-five miles away, and had it shipped to me per C. P. R., preferring to pay the railway loops, twenty-five miles away, and had it shipped to me per C. P. R., preferring to pay the railway charges rather than use an inferior brand. In fact, if I could not get it otherwise, I would ship it direct from the mills. I can always rely on having good bread when using it and nothing tends more to keep harmony in a house.

To this one fact you must get wise That rich or poor or high or low To win success must advertise.

A HOME SHAMPOO.

How to Clean the Scalp and Have the The Way a Showman Got Friendly

Washing the hair is a task most women dislike, and even the girl who can least afford the dollar a month necessary to a professional shampoo prefers to pay it at a sacrifice rather than bother to wash her own hair. Yet if the work is gone about in the right manner at home it need not be difficult at all.

The first thing is to prepare a shampoo liquid. Take a square inch of some good soap, shave it fine and dissolve it in half a cup of hot water. Then add a teaspoonful of violet ammonia and the raw white of an egg. Beat these thoroughly and strain through a wire sieve. Now stand with the head over a basin, pour a little of the shampoo over the scalp and rub briskly with both hands. Use all the liquid in this way, rubbing it thoroughly on the scalp. After this wash the scalp with several basins of warm water and then wash the long hair in the basin of water. Rinse by holding the head over the bathtub and pouring over it a stream of warm water, keeping this up until the water that drips from the hair is perfectly clean.

be difficult, and when the hair is ready

TAMING A TIGER.

Hair Soft and Fluffy.

You are now ready to dry the hair. First wrap it in a thick towel and wring thoroughly. Then spread a dry towel across the back, throw the hair back and rub the scalp well and dry. It may take some time, but it is the best possible means of drying, acting as a massage too. Call in the aid of the sun if possible, but never use steam. Do not brush the hair until it is thoroughly dry. Then, as you brush, ten." raise the hair, that the strands may be separated. After this combing will not to go up it will be soft and fluffy .-- Chi-

Coughs, colds, hoarseness, and other throat reliments are quickly relieved by Cresolene tablets, ten cents per box. All druggists.

HOG PROFITS

The hog is a machine to make pounds of por't. In raising hogs for

the market, the profit is rapid and healthy growth. Feeding to simply

sustain life makes you no profit. A food that will fatten your hogs in

the shortest time, and with the least waste, is the profit maker. To get

the most good out of its food, the hog must thoroughly digest and

assimilate it. It is this assimilated food that makes the pounds of pork.

The addition of Clydesdale Stock Food will enable it to do this. It

creates an appetite for a full ration. Many farmers seem satisfied

to let the hog "root" for itself. There is no better money maker

on the farm if given half a chance. Clydesdale Stock Food will en-

able you to get your hogs to the market at least thirty days sooner;

this is money saved. Mr. A. D. McDonald, Jericho, Ont., says: "I fed

it to six fattening hogs as a test and found the hogs that received

Clydesdale Stock Food made a decided gain over those that received

none." This is "WISE FEEDING." Don't neglect the "RUNTS",

they can be made to grow, and be kept growing, by using Clydesdale

Stock Food. It will also keep your hogs in such healthy condition as

will enable them to withstand Hog Cholera the greatest menace to hog

raising. Keep your hogs and pens clean by using Carboline Antiseptic;

as hogs thrive better when clean. If not satisfied after using, your money

will be cheerfully refunded by our dealers in your district namely :

RAHN BROS., Neustadi.

With a Fierce Beast.

A zoologist thus describes how as attendant brought about friendly relatools with a fierce tiger:

There was a showman I used to know named Melchior. He once bought a magnificent Bengal tiger, which he got at a low price because it had already killed two men.

"At first Melchior would put his foot or his hand into his cage, but from the way the tiger would leap at him he knew that to put himself entirely in its power would be suicide. Nothing he could do would establish a friendly relationship between himself and the

"Some originality was needed, and Melchior showed it by taking some old clothes, stuffing them with rags and throwing them into the cage. The tiger in a jiffy tore the old clothes to pieces, thinking that the figure was a human being.

"Next day and the next day and the next Melchior continued to throw in to the tiger stuffed figures, and the tiger continued to destroy them. But as time passed the animal ceased to put heart into its work and in the end it gave up altogether these attacks on the scarecrows. It would just play with them or else not notice them at

"Now was Melchior's time. He open ed the cage door one morning, walked in boldly and slapped the tiger familiarly on the back. It gave him a friendly look and purred. It took him for another manikin not worth bothering about. It lived seven years with Melchior and became as gentle as a kit-

WORSHIPERS OF BAAL.

Queer Ways of an Extraordinary Sect In Turkey.

devil worshipers of Turkey, are an extraordinary people, and, although forced by the laws of conscription to serve in the Ottoman army, the seizure of one or more of their young men by a Turkish recruiting party is such a distressing spectacle that once witnessed it can never be forgotten.

Wails and yells of despair are raised. Men, women and girls kiss the recruit's eyes, cheeks, mouth and hands. Throwing themse es on the ground, they even embrace his legs and

The conscript appears quite dazed with sorrow. He folds in his arms and caresses over and over again his weeping kindred, whom he will never see again. He kisses the walls and the hearth of the cabin in which he was born, but which he is about to quit forever, and wets them with his tears, but when, accompanied by his Turkish captors, he leaves the village the lam-

Then, and as though nothing had happened, the latter go about their ordinary occupations. Never again is the conscript's name mentioned, and on joining his regiment the young Yezidee becomes a Mussulman. His kindred, believing him accursed, affect to forget him, and were he to approach the village from which he has been forcibly dragged away every Yezidee, even his dearest friends, his father, mother, brothers, sisters and sweetheart, would drive him from their presence with curses and pelt him with stones.

The Human Foot.

It is asserted by a sculptor that the human foot is becoming smaller. The masculine foot of twenty centuries ago was about twelve inches long. The average man's foot of today is easily fitted with a No. 81/2 shoe, which is not more than ten and seven-sixteenths

The flags to be hoisted at one time in signaling at sea never exceed four. be given.

A GIRL'S ROOM.

Some Suggestions Pointing the Way to Health and Comfort.

It is much better to forego all drapery about the bed, although if you feel that you must have a canopy let it be a dainty muslin that can be frequently laundered.

Be most particular to have your bedding well aired and sunned every day, all except feather pillows. Sun is said to draw the oil from the feathers, but they should be exposed to a current of air. Great danger lurks in damp bedclothes. Especial precautions in this regard should be observed in travel. Damp linen offers encouragement to microbes. And now as to the walls of this habitation of yours. Oil painted walls are the most hygienic and most satisfactory. In hospitals a pale yellow or drab has been found most pleasing to the eye. A plain color is always more restful than a figured hanging. Have you not all had the experience when you were sick of chasing some grotesque figure around and around with your wearied mind until the very pattern was seared into your brain? Oil painted walls, too, can be wiped down daily if you wish with oiled cloths. They are indestructible, too, unless you disfigure them with nails. Your ceiling should be light in color. It is most advantageous to have a hardwood floor in the bedroom. Carpets should be banished and only rugs employed. Choose a closely woven rug that it may hold as little dust as possible. Your summer rug should be made of grass or fiber. Such a floor. covering is both satisfactory and inexpensive. These can be taken up and cleaned every week.

The broom should always be dampened when used, and a carpet sweeper is better, for it gathers up all of the dust without scattering it around the room. When dusting use a damp cloth, never a feather duster. Keep your dust cloth clean, washing it out after its use.-Ladies' Home Journal.

SERVICEABLE SCREEN.

Cover a Hinged Frame With Burlap and Daintily Decorate It.

One of the prettiest ways of getting up a screen is to have a carpenter make a plain, strong wooden frame, with its three "leaves" separate, and then to cover it yourself with burlap in colors that fit in with the general color scheme of the room. The burlap

BURLAP SCREEN.

should be tacked on neatly and smoothly, without a wrinkle, then the leaves joined by little brass hinges and the whole screen decorated. One girl gave herself a constant reminder of NEW GLASSWARE. the woods in autumn by painting autumn leaves in rich glowing colors on her dull green screen. Another chose blue and painted in outline work a row of little Dutch figures clear across the top.-Philadelphia North American.

The Ball That Can't Tangle.

Those who knit and crochet know the trouble caused by the ball of yarn or FLANNELFTE BLANKETS. floss falling and rolling about the floor. This trouble is easily obviated if the yarn is wound so that it can be used from the inside of the ball instead of FLOOR OILCLOTH. in the ordinary way. Unrolling from the outside is the cause of the ball's rolling propensities. First wind the wool or silk six or eight times over the outstretched fingers of the left hand, giving as great a length as possible to the windings and keeping in mind the ed from the center when the ball is Groceries always on hand. finished. With these first windings always protruding at the top and bottom, proceed as usual, winding very loosely. When the skein is wound the outside end is tucked in securely, and the first is pulled out. After once using and experiencing the satisfaction of a nonrolling ball the knitter will never go back to the old method of working from the outside.

The Lovable Girl. To be placed in the corner of a young girl's mirror and read while she is making her toilet:

She cultivates reserve. She thinks, then acts. She speaks ill of no one. She is loyal to her friends. She lives in her mother's faith.

She writes nothing she may regret. She knows there is nothing more undignified than anger.

She knows that to love and be loved is her birthright if she is but worthy of love.-Hubbard City News.

Bath Mitts.

For the after bath rub nothing is better than the mitts of Turkish toweling, which quickly bring an exhilarating glow to the skin. They can be bought in the shops, but are far less expensive when made at home.

Use the ordinary Turkish toweling by the yard, and bind the seams and top with linen tape.
