#### Discovered in Time.

On Friday afternoon Mr. J. Ramsay when passing Peel's shoe factory on Stephens street, noticed that a spark fron the stack had set fire to the shingles on the roof. He immediately notified Mr. Peel and the alarm was sent in first from box 25 and then box 42- Niether of these were in working order and a 'phone message had to be sent, so that fully twenty minutes elapsed before the brigage arrived. In the meantime some active boys had climbed up on the roof and had the fire nearly extinguished If this had not been done it is possible that the building would have been seriously damaged at least, When the brigade arrived the water was turned on and the little fire re-

maining was quenched -O S Times. many Walkerton people drive half next. And there isn't any truth in way to the cemetery with a funeral this story either. It is all we can do that when his funeral happens he town, let alone a wife. But if the or ke-pout of the procession. The to Creek sheet doesn't want to get of respect to show, a departed way for the next month or two. and back out after driving half a mile. There is a lot of humbug in towns and villages in connection with funerals-visitors come to offer sympathy and count the cost of the coffin to cheer the widow and see if she cries hard or only half hard, and men who hitch up and drive solemnly with the procession are well satisfied. through the streets where their attendance may be publicly noticed and then make a circuit home by the back streets when the outskirts of the town are reached. It a heartless business, and it would be better if people quit shamming and went right prices before you buy. ahead with their own business uutil their own time comes There is not perhaps a place in Ontario that does not need to be lifted your order and save you money. back to honest ground in its relation to funerals.-Toronto Star, Yes, quit shamming, and get back to hon est business. Honor the dead by re- one at once. membering your duty to the living. Don't go to a funeral announced for two o'clock which will start promptiv at 3.30 and stand and shiver for 90 minutes, contracting a cold that may land you at the head of the next solemn procession. Don't go and stand bareheaded in a cemetery for an hour or so on a cold winter's day; far better to go balf way and get back to your own fireside by way of the back street or any other street.

There is lots of shamming at funerals probably, but there is also lots

of very sickening mawkish senti-

mentality .- Harriston Review.

If your blood is thin and impure, you are miserable all the time. It is pure, rich blood that invigorates, strengthens, refreshes. You certainly know

# Sarsaparilla

the medicine that brings good health to the home, the only medicine tested and tried for 60 years. A doctor's medicine. "I owe my life, without doubt, to Ayer's Sarsaparilla. It is the most wonderful medicine in the world for nervousness. My cure is permanent, and I cannot thank you enough."

MRS. DELIA MCWELL, Newark, N. J.

for Lowell, Mass., \$1.00 a bottle. Poor Health

Laxative doses of Ayer's Pills each right greatly aid the Sarsaparilla.

#### SEED FAIRS

I am of the opinion that should be held throughout the another which our farmers have to the instance before us the actual to the West again after spending the cope with every year, it sthat of the moon is full at 3 h. 56 min. a. m., weed seeds have been rapidly on the done in the near future to check this time. Thus people adopting Greenspreading, our farmers will be unable to secure clean seed at any cost.

also. "whatsoever a man soweth that shall be also reap," and almost any of our farmers are aware that if large date of the Paschal full moon March plump seed is sown, large plump seed (44 epact). When the epact is equal shall be harvested, and that if small plump seed, shrunken seed or broken gives the date of the preceding full the seed will not grow, and weeds 20 and April 18. The latter day is will grow up instead.

We offer One Hundred Dollars re- at Guelph and other places, which mentioned In barley alone, a oil F. J. CHENEY & CO., Toledo O ference of three bushels per acre were grown from large plump seed We, the undersigned, have known than small plump seed; seven buslarge plump seed than from shrunken seed, and of ten bushels per acre more from pulp than from broken seed. This should be sufficient to show that large plump seed should be more fully sought atter for the growing of all classes of grain.

Farmers who are alive to their business are glad to pay an advanced price in order to get plump, pure. well cleaned seed. In any opinion there is no better means of obtaining such seed, than by holding seed fairs throughout the country; have, say, at least one in each county of the provinces where grain is principally grown. These fairs could be successfully conducted by Farmers' Insti tutes, if the matter was taken up and discussed more fully at the meetings now being held.

Ignorance

## A SLIGHT CORRECTION

The slanderous reptile who runs the Potato Creek Vindicator, in his latest issue asserts that our wife has sued us for divorse on account of excessive and repeated cruelty. In order that our readers may know just how much truth there is in this story we will explain. Our wife has not sued us for divorce at all We haven't any wife. We never had a wife. The whole story grows out of the circumstance that there is a report in circulation to the effect that The Bruce Herald complanies that we are to be married week after and then back and the editor remarks to support ourself in this durned hopes the people will go whole way lying other blatherskite of the Pota point is well taken. It is a poor mark into trouble, let him keep out of our

#### When Easter Comes

The Flaneur in the Mail and Empire says: I am in receipt of many letters asking various questions about Easter. Doubtless in the next few weeks I shall receive many more asking substantially the same questions. Therefore, I reproduce the following article from Nature (London) which contains about all there is to say on the subject :-

The present year is one of which

rule were strictly followed. Dr. ination papers are read by a board of examiners specially appointed, its diplomas are an excellent recommendation in both Almanac office, States that inquiries these countries. have been address d to him on the subjet. According to the Prayer every person, and young people with a Book Easter day ( " which all other business training are always in demand. movable feasts and noly days depend)
"is always the firs. Sunday after the good positions in April and May. All our full moon which ha, pens upon or next students are taught separately at their after the 21st day of March," In 1905 own desks, and do their work independent the moon is full on the morning of of one another. In this way, they receive special attention in such subjects as are difficult to them, and are enabled to ac-Greauwich time, a d therefore Easter complish considerable in a short time. day would seem to be the Sunday fol. They may also, begin the course at any lowing, March 26. But, explains Dr. Downing "the moon referred to in the ecclesiastical calender is not the actual moon in the sky, which is full at a definite instant of time; but a nctitious moon, the times of the phases of which are so ard fairs ranged as not to differ much from the actual moon. These phases are held to occur vaguely on certain days Pretty as Pretty Sees ountig during the winter months. held to occur vaguely on certain days If there is one thing more than and hold good for all longitudes. In seed problem. For the past few years Greenwich mean time, while the same moon is full at 11h. 48 min. p. m. (on increase, and if something is not the preceding day) Washington mean wich time would keep Easter on Mar. 26. while those adopting Washington It is an old saying and a true one time would keep it on April 23, the next full moon " Dr. Downing gives us the simplest expression for the to or greater than 24 this expression seed be sown, the result will be other- moon is found by adding 29 to this wise than sa isfactory when harvest date. In 1905 the epact is 24, and time comes; as a large percentage of the calender moon is full on March therefore the Paschai full moon, and Experiments have been conducted Easter day is the Sunday following, April 23 -as stated in the almanacs.

In buying a cough medicine for children never be arraid to buy Chamberlain's Cough Remedy. There is no danger from it and relief is always sure to fellow. It is especially valuable for colds, croup and whooping cough. For sale at Parker's Drug Store.

W. T. CLANCY, Prin.

So with Many Eyes.

" My face is my fortune." said the pretty maid in the old English ballads. She had proper appreciation of the value of a fair face in the matrimonial market. Eyes make or mar many a face, the other features may be ever so comely, a pair of weak red, inflamed or twitching eyes will spoil all beauty. Properly adjusted glasses will cure most of these troubles. Our qualifications and equipment for eye examination are the most thorough and modern, our choice of frames and taste for fitting them is unexcelled.

tor. Buy Peel's hand made. AUCTION SALE. On Saturday April 1st. Mr. E. H. Kinnee will sell by Publie Auction the articles mentioned elsewhere, a full list of which appears,

John Clark, Auctioneer. AT the fire here on Thursday night, a spade belonging to Ye Editor was loaned for the occasion. A young scamp in town, thinking he had more right to it than we had, took possession, but we found out who he was in a day or so after, and now we're after his scalp. There are too many youth-

ful thieves allowed off too easy.

WE notice there were several errors in last week's paper, but there's no use now in making apologi s. Our paper is an all-home print, and it takes a lot of work to get it in shape every week. There is only one other all-home print in the county, outside Owen Sound, and should we be a little off color sometimes, we hope our readers will overlook our shortcomings.

A FEW weeks ago, the ratepayers of Allan's School, Egrement, decided to repair the old building in preference to building a new one. From after consideration, we understand they have rued their decision, and are again talking of creeting a new school. This we think, is a good move, as the 8000 for repairing the school now used. would go a long way towards the erection of a new one. In any case, a reconstructed old building is seldom

satisfactory.

RAILWAY accidents in this country are becoming fearfully common. Scarcely a week passes without rome fearful calamity, or an account of the loss of lives. The whole railway system seems to be carelessly managed. Accidents to employees are by no means rare, and the level crossings are a standing menace to the traveller on the public highways. The street railways of Toronto are getting their work of destruction in well. It will soon become unusual to hear of a day passing without some one being run down and killed. Life, it would seem, is becoming of little value and the fatalities are so frequent that one can hardly take time to read all the accidents; recorded in the dailies.

a very severe trial during the past three morths, on account of the illness of his son, and the worry and work entailed have rendered him ill also. The better class of citizens think Mr. Allan, who has been a most faithful worker in the school for the past seventeen years, is entitled to a rest. and a movement is on foot to give him a holiday till after midsummer vacation, and allow his salary to go on, just the same as if he worked. This, we think, a proper thing to do, and a sure way of recognizing the merits of a faithful and energetic teacher. We hope to see him get the holiday. We hope to see him improve by the rest, and we hope to see him return to work with renewed vigor. Some will kick,

no doubt, but we expect to find kick-

ers to the end of the chapter.

> PRINCIPAL ALLAN has gone through
