WE took a trip to Thornbury last week and found the roads much better than we expected. Three weeks previously the snow was piled up as high as the fences in many places, and the great transformation in so short a time was quite a surprise. In only a few places is snow now to be found.

DURHAM Junior Epworth League of Christian Endeavor purpose holding an open meeting on the evening of Good Friday next, in the Methodist church. The Rev. Wray R. and Mrs. Smith will (D. V.) be present and take part in the program for the evening's entertainment which is being prepared by the Juniors. Silver collection.

GEORGE LAWRENCE is out fifteen dollars anyway. On Friday afternoon last, he tells us, some one slipped in behind the counter, opened the money till and carried off a ten and a five, and perhaps four or five one dollar bills. Though considerable money was left, George says there is no doubt about the theft having been committed, as it was only a short time before he missed the money that the ten dollar bill was put in the drawer.

THE forty-fourth annual meeting of the Ontario Educational Association, will be held in the University of Toronto building on Tuesday, Wednesday and Thursday, April 25, 26, 27. Reduced rates on the railways will be granted to trustees, teachers and others attending the convention and becoming members of the Association, at one first-class fare and one-third for the round trip, if more than fifty holding railway certificates attend; or one first-class fare if three hundred or more holding railway certificates attend. These tickets are good from April 20th to May 1st.

In this issue will be found two communications regarding the re-building of the Furniture Factory, one signed "Worker," and the other "Ratepayer." Both, alike, endeavor in their own best style to have a large vote for the by-law, and both seem to feel that its failure to carry will be a calamity to the town. A factory, recently started in Clarksburg by outsiders, is now closed down, and the citizens are exceedingly anxious to have another industry spring up in its place. Wherever you go it's the same old story. The failure of an industry is followed by the inevitable "deadness." Clarksburg, to-day, is ready to offer inducements to any concern that will give employment to the people.

CLOVER and Grass Seed. Best quality at Geo. Lawrence's.—1f

LADIES and Gentlemen should all all and see Peel's new spring footwear. They're the very nicest.

FOR SALE.—A team of good working horses. Apply to J. W. Crawford, Durham.

It has been remarked that the man or woman who could not be booted at Peel's could not be suited anywhere.

HOLSTEIN is going to have a local paper, so our correspondent tells us. They call it the "Holstein Leader." It's a good name and we'll watch earnestly to see what it leads to.

SPECIAL bargains at Flarity's this week in Men's Ready-to-wear Raincoats. We find that there are plenty to do looking after Men's ordered suits and cravenett coats, and will clear out the ready-to-wear at a sacrifice.

THE pastor will preach at both services in the Methodist church on Sabbath next. The subject for the morning discourse will be "Children's Rights," and evening "The King's Insurance Company." All seats free and everybody welcome.

THE Cement Company is getting down to business again. For some time they have been grinding the clinkers left over winter in the storage, and now they are getting the rotaries into operation, one by one. The demand for cement so far is ahead of last year and with better prices and growing reputation the National brand gets wherever used, the financial returns for 1905, will, we trust, be much ahead of previous years. In Thornbury last week, we learned that nothing used in the sidewalks gave the same satisfaction as the cement made in our mill. It was also used in the Dry Dock at Collingwood, and the superintendent of the works there informs us that it was all right. It may take a little time, but it will not be long before the Durham Cement will be known to head the list for quality.

A. C. P. R. official, Mr. Savage, was in town Monday collecting data regarding the amount of shipping in and out of Durham, with a view to building the road through here by way of Walkerton, Hanover, Durham and thence to connect with the T. G. & B. somewhere between Markdale and Dundalk, and thence through to Collingwood. Mr. Savage gave the information that surveyors were already at work looking over the route, and if satisfactory the road is sure to be built. No part of Western Ontario is in greater need of a road than a cross country line from Lake Huron to some point on the Georgian Bay, let it be Collingwood, Meaford or Thornbury. It has certainly been a long felt want that thousands will be glad to welcome. There is not a single railroad running across this part of Ontario and crossing, as it will, the various lines running North and South it will be a great convenience to the travelling public.

After a long silence we again venture to send a few items as many inquiries have been made as to our part in the interests of the Chronicle. We have no excuse or apology to offer other than the fact that the weekly contributions had grown monotonous but the genial Frank Irwin invigorated us somewhat and again we have consented to send in our budget at least occasionally.

The prosperity of our burg is largely due to the enterprise of our business men. Almost every line of business is carried on to some extent at least. True we have not the electric car or street lights, but no doubt these, with all other modern improvements will come in due time.

Mr. Alvin Durrant is at present in Dr. Groves' hospital, Fergus. He has undergone a double operation and is progressing very favorably. He is expected home about the first of May.

One of the busy places in our village is at and around the saw mill. Mr. Moyer, the proprietor, has a very large stock of logs and his men are busily engaged in cutting out the stock. They are obliged to run overtime in order to keep up with the work.

Jordan Bros. millinery opening last week was an event of the season. We were informed that our business was thronged by those interested. Any attempt on our part to describe the styles, shapes and trimmings would only end a failure, but Miss Watson, the milliner, has the faculty and taste to describe and decorate to suit the most exacting. Now that the opening is over the work will still be continued.

Our barber, Mr. H. Colwell, is now fully established and is prepared to do work in his line in the most artistic manner.

Again our football boys are in the field. The boys thought it looked rather blue for players during the present season as many of the old players have left the village, but as the season advances the prospects are growing brighter and now there are hopes that a good team can be secured which will do credit to the village. We trust that a good moral tone will be the sentiment of all interested and that nothing will mar the harmony that should characterize these manly sports.

Miss M. Nichol, who has been seriously ill lately, is now quite convalescent.

Mrs. C. A. Drumm has again had an attack of appendicitis, but is again able to be around her household duties.

It will not produce any great wonder when we tell our many readers that we are to have a newspaper established here. The proprietor, Mr. Seim of Ayton, asked the villagers to name the child and by common consent the new publication is to be known by the name of the "Holstein Leader." The press and outfit are expected to arrive soon.

Mr. C. McKinnon, who has been quite ill during the past month, is somewhat improved.

Extensive repairs are being made at present to our butter factory. Two cream vats have been added, a new "Success" churn has been purchased from C. Richardson & Co., also a new 8-horse-power engine. The factory is undergoing a thorough renovation and we hope to be able to manufacture an Al article during the coming season. Mr. D. Cameron, the maker, has extensive experience in this line and he has secured the services of Mr. J. Fisher of Molesworth, also a good practical man. Work is expected to commence about the 10th of May.

Darkies' Corner.

Your Aberdeen reporter spoke of us having a large kind of crow down here. He says the crows up there are numerous, but he has failed to note any increase in size. Well now that must be due to so much electricity in the air around that sweet little burg, having stunted their growth. Say! Was it on account of the crows being so numerous that left Durham in darkness so long?

Miss Jennie Meenagh, of your town spent Sunday at the home of her brother, Mr. Thos. Meenagh.

Mr. David Ritchie recently invested in a fine new disc harrow.

Mrs. Duncan McNabb had the misfortune to lose a very valuable cow recently.

Mr. A. Scott has finished getting out timber for a barn. He intends erecting this coming summer.

Mr. C. L. Grant, and daughter, of your town, called on Mr. and Mrs. Farr Sunday.

Mr. Richard Barker spent Sunday at Mr. John Staples'.
