### EXCHANGE ARTICLES

Jack the Hugger was loose on Main street on Monday evening. At least three ladies were the victims of his obnoxious attentions within half an hour and were badly frightened. The man was followed up and is known. He does not live in town and was apparently sober. It is a pity he did not get a night in tho lock-up, and a good round fine in the morning .-Confederate.

While about 20 men were engaged in pulling down a barn owned by Mr. Adam Lemweber, of South Easthope township, last week, the framework gave way and came down with a crash. Half a dozen men were injured, two of them, it is feared, fatally. Mr. Henry Meyer was struck in the back and had his spine broken, besides other injuries. Mr. John Wittig's spine was broken in three places. Mr. Henry Otto had his right shoulder blade broken, besides other cuts and bruises. Mr. Noah Smith had his leg sprained, and Mr. Jacob Herlich was severely injured .- Blyth Standard.

An advertisement in a daily paper states that 300 teachers will be required in the northwest. This gives some idea of the demand there is for teachers, and shows why so many Ontario teachers are going west. At present Ontario 1st and 2nd class certificates are recognized anywhere in the west, and as the west will not be able to supply its own teachers for some time, these certificates will likely be recognized a good while before the prairie provinces feel disposed to "protect" its native teach ing industry. With the rapid development of the west, will follow a continuous demand for teachers, so that the day of extremely low salary is over .- Bruce Herald.

A meeting of the shareholders of the Imperial Cement Company on Wednesday confirmed the recent decision of the directors to proceed at once to convert the plant into a slurry system. The changes will involve an expenditure of about forty thousand dollars which will be expended on the rotary kills which will have to be installed. Much of the present machinery and plant can be used. The big kilns will be used for the storage of the clinkers as they come from the rotaries. Other machines can be adapted to the changed system. The order has been placed for the machinery and in the meantime the foundations and alterations necessary will be proceeded with .- Owen Sound Sun.

When the factory of the Durham Furniture Co. was burned on 23rd of March, the Company owed the town the sum of \$10,000 which had been guaranteed as a loan. The factory had been in operation 6 years and by the fire was \$50,000, insurance ened by some pounding noise on the and if we are not badly mistaken, telligence.-Standard. the by-law will carry.-Chesley Enterprise.

most parents neglect their duty in the government to the extent suppose it would be all right to Herald. include the Bible as a text book, but in a mixed population, such as we have in Canada, the Bible is a bone of contention, that ought to be removed from our schools altogether. It is this question of teaching religion in schools that at the present moment is creating so much trouble. With all due respect for the opinion of such men as Dr. Henderson, this great family journal holds up both hands for secular schools, pure and simple.-Walkerton Telescope.

Photo. by Lafayette, London SIR THOMAS LIPTON

The Merchant Prince of England The first time that Sir Thomas Lipton came to America was in 1865 ac a stowaway in an old-fashioned little tramp steamer, and when the vessel

neared port he was busily engaged in shoveling coal into the furnaces. The latest time was in 1903, when a whole nation held him in honor as a valiant and true sportsman, making his third brave but vain attempt to take a silver cup back to England. On this occasion he lived like a prince on his steamer "Erin," surrounded by his fleet of thirty-three boats-steamers, houseboats, barges, tugs, cruisers, steam launches, gigs, jolly boats and dingies-maintained at his expense and manned by over two hundred men.

Sir Thomas was born in Ireland, but spent his early years in Scotland; his education was a hurried, unconventional, picked-up variety, and at fifteen, with rosy dreams, he ran away from home, smuggled himself into a steamer and came to New York. His eight dollars did not last long, and after working in the rice fields of South Carolina, driving a street car in New Orleans, canvassing for a crayon portrait concern, stealing rides on freight cars, and making a day-by-day living as best he could, went back two years later to Glasgow. empty of purse but rich in experience.

The prodigal was received with open arms, and with £100 of his father' savings, he opened a little meat and provision store. He introduced American ideas, worked, as he says, "twenty-five hours a day," and advertised to the limit of his ingenuity. One day, seven of the leanest, gauntest, hungriest men in the kingdom paraded the town in Indian file, bearing on their backs the legend: "We are going to Lipton's." Next day, seven of the fattest men that could be found, walked the streets proclaiming in large letters: "We have been to Lipton's." Meanwhile, the proprietor slept under the counter.

This little shop in High street was the beginning of Lipton's 500 stores throughout England, his fruit farms in Kent, bakeries in Glasgow, the greatest tea plantations in the world in Ceylon, his curing factorics in Liverpool, his candy manufactory in London, his fruit trees in Georgia, and his other vast industries, giving employment to ten thousand people, and having made for their owner a fortune of \$50,000,000 and an income of \$7.50 a minute. He gave £25,000 for the Jubilee Memorial dinner to the poor of Loudon, and his check seemed little to him when his eyes filled with tears at the sight of 310,000 poor people eating as his guests. Not till later did the world learn that it was his gift; for the only thing he never advertises is his charity. Entered according to Act of the Parliament of Canada, in the year 1904, by W. C. Mack, at the Department of Agriculture.

Mr. Walter Cook of East Zorra, had employed 60 men. the annual wage a peculiar experience with a sick bill being about \$30.000. The loss horse the other night. He was awak-\$25,000. In commenting on the defeat of Local Option in Southampton, the Beacon says: "Immediately upon the announcement of the defeat of the by-law the hotel bars were thrown wide open and liquor flew fast and furious for about an hour. It was a sad mistake. How much better would it have been had the bars remained closed until next morning. The contest is over and both sides are heartily glad of it, but the temperance element, who had defeated the measure, were disgusted at the show that was made, and if another vote was taken next day many of the Ex-reeve Guy, of Ospery was so un- electors would have reversed their

## School Inspectors' Salaries.

in Ontario. Thanks to the County Council of 1905. The pistol is being held at the neck of the two school inspectors, and they are being asked to sign an agreement to work for \$5 per school, and if they refuse it is expected that the two-third vote for think it right, but because of the pistol the inspectors will probably sign the agreement. Let us now go into Jan. 28-tf. the history and facts of the case. Many years ago the salaries of school inspectors were fixed at \$5, but one year ago the Legislature of Ontario, in view of the increased cost of living. gave them an additional dollar per school. This was only in keeping Council, however, are wiser than the Toronto, who, we fancy, met with a chilling reception. At all events we have not read any statment that the views of the Bruce Council would be April 4, 1904.-tf. given careful consideration.

What is this enormous salary of the inspector anyway? Well, after deducting his expenses it is about \$1,400 per year. That is positively the way it figures out, and to earn over the country twice a year, be is the time to get these lots. For further away from his home most of the time and undergo a life of considerable privation. Now. we submit \$1400 April 12, 1904 .- tf. per year is not too high a salary for a professional man. There are some members of the County Council who would not like to have their earnings whittled down that fine, and why should they want it of others? With With regard to the inspector for this end, who is now somewhat aged, lars apply to and who has given 32 years of service. When he is physically and mentally unfit for his work another man shoud be got, but in the interests of educat ion we insist that we not want a cheap class of inspectors. There are no men in the country occupying more important positions, and it is only fair to them that they should be well paid. The council has made a March 1-tf mistake, but it is not too late yet to do justice to these deserving public servants .- Wiarton Echo.
