Photographs

To Introduce

Our fine large Photographs we have made arrangements to give one with every dozen Cabinets. These large Photographs, finished in the latest style, mounted on a beautiful American mount, are worth \$1.50 alone.

This is going to advertise our studio far and wide and hundreds of people will see them. We do not say how long we can give this offer as it means a lot of extra work and expense. We know this style of Photograph will please you as it is real artistic.

FRED W. KELSEY
DURHAM, ONT.

In the beginning God created the heavens and the earth, then the editor, then the liberal advertiser—which were all good. The next day it snowed and he created the man who does not believe in advertising, another that does not take the home paper, and then he rested. And then the devil got into the moulding room and created the man who takes the paper for several years and fails to pay for it. After he had completed this sorry job, and having a few imps left, he created the excuse of a man who settles his subscription by informing the postmaster to mark his paper "refused."

How Pneumonia Starts

You catch a little cold to-day, by to-morrow it has reached the throat, next day the lungs are affected and you wish you had used "Catarrhoxone" which kills colds in five minutes. In the first place Catarrhoxone soothes the irritated membranes and relieves congestion—then it cuts out the phlegm and destroys the germs. It enables the blood to retain a natural supply of oxygen, lung food, and vitality. In any cough, bronchitis or lung affection it's guaranteed to positively cure. Decline any substitute for "Catarrhoxone"

CALVING COWS

There is no more important period in a cow's life than at calving time. Many thousands are lost every year at this time, because the animal's system is not in such condition as to stand the strain. The feeding of Clydesdale Stock Food a sufficient time before and after calving will tone up the system so that no trouble need be feared. Read what Mr. J. A. Lever, Flesherton, Ont., says:—"I have found an excellent preparation for feeding cows before calving and never had cows do better after." It cannot be repeated too often, "don't let the calf loose its calf flesh." It cannot lose it without stunting its growth. The raising of "Baby Beef" or early fattened beef, the highest priced beef on the market, is easily done if the calves are kept growing. If this can be done, you can easily realize from one to two cents a lb. more than otherwise. There is nothing better with skimmed milk for calves than Clydesdale Stock Food. Mr. Gregory McIntyre, Secretary, Farmers Institute, Renfrew, Ont., says:—"I have been using your food on my eleven calves, and consider they are the best lot I have ever raised. The only other food being skimmed milk and grass." If you are not satisfied after feeding Clydesdale Stock Food, your money will be cheerfully refunded by our dealer. Sold in your district by

FOR SALE BY
W. L. FALKINGHAM, Edgehill

His Ma's Own Boy.
Dere teacher, pleze excuse my sun Per absents yesterday. I hadd to have him home because My servint went away. He washe dishes, swepes an' dusts As expert as cud be; We're all soe proud of him at hoise. He's such a help to me.
"Say, mother," he sez yesterday, "We kids all love Miss Drew; She's jist ez nice ez she kin be An' mighty pretty too."
An' when I maid him stay at home His fase growed awful sodd. "I can't see teacher then," he sez. "Alas, ain't thatt too badd!"
My sun rites all my notes for me; He's ritin' this to you, I hirt my hand a weke ago, Er maybe it was two. But Willie's such a darlin' boy; He's helppe me all he cud. Excuse his absents if you pleze. Yures truly, Mrs. Wood.

Best and Most Popular
"Mothers buy it for croupy children, railroad men buy it for severe coughs and elderly people buy it for the grippe," say Moore Bros., Eldon, Iowa. "We sell more of Chamberlain's Cough Remedy for than any other kind. It seems to have taken the lead over several other good brands." There is no question but this medicine is the best that can be procured for coughs and colds, whether it be a child or an adult that is afflicted. It always cures and cures quickly. Sold at Parker's Drug Store.

LOOK AT THIS !!

Other towns are not willing to be left Why should we be?
Perth, April 10.—The by-law to grant a loan to of \$20,000 to Messrs. Winn & Co., boot and shoe manufacturers, of Milton, was carried by a vote of 473 to 25. By the passing of this by-law the town will loan \$20,000 to Messrs. Winn & Co., repayable in twenty years at \$1000 per year, without interest, and exemption from taxation for ten years. Messrs. Winn & Co. are to build a two-storey factory, 150x50 feet, and employ not less than 75 hands, and pay out not less than \$35,000 per year in wages.

Rheumatic Pains Quickly Cured

The excruciating pains characteristic of rheumatism and sciatica are quickly relieved by applying Chamberlain's Pain Balm. The great pain relieving power of the liniment has been the surprise and delight of thousands of sufferers. The quick relief from pain which it affords is alone worth many times its cost. For sale at Parker's Drug Store.

YE EDITOR'S NEEDS.

It is reported, says an exchange, that one of our newly married ladies kneads bread with her gloves on. The incident may be peculiar, but there are others. The editor of this paper needs bread with his shoes on; he needs bread with his pants on; and unless some of the delinquent subscribers of this paper pay up before long he will need bread without so much as anything on—and this is no Garden of Eden, either, in the winter time.

When You Grow Old
The body needs patching—wasted tissues must be rebuilt, played-out organs restored—blood needs extra nourishment. Elderly people need Ferrozone, need it because it vitalizes and rejuvenates as no other remedy can. Ferrozone builds up the kind of strength that makes one feel good—keeps back the decay of old age and makes you feel young and handsome again. Forget nervous exhaustion, renew your vital energy, again re-enter the life of youth. Your remedy is Ferrozone, only fifty cents per box at all dealers.

The Bishop of Llandaff, says London Tit-Bits, is fond of the concoction of conundrums, with which, when a country parson in Pembrokeshire, he loved to bewilder the grave historian, Thirwall. The story goes that not long ago Bishop Lewis concluded a clerical meeting by asking his flock: "If it takes you bishop a week to eat a ham, how long would it take to eat a hammar?" and made a diplomatic departure to catch his train. When the company had given up the problem they wired to Llandaff for the solution, and received the maddening reply: "I don't know; I've never tried."

However much she may dislike her milliner, a careful woman never allows the milliner to suspect the state of her mind.

A man who is not looking for temptation may hope he will not be able to withstand it if temptation should accidentally come his way.

Things do not look half so enticing to you if you have the money in your pocket to buy them as they do if you don't have it.

A man's wife does not go out of her way to pick a quarrel with him on pay day.

When a man smites you on the left cheek, swing him on with your right. —Philadelphia Telegraph.

FARMING IN THE OLDEN TIME
By Torpedo Palmetto.

CANTO NO. II.
Old Timothy Oats had cause to growl For he couldn't make farming pay, When he had lots of grass, to save his soul He never could sell his hay.
But it sometimes happened that hay was dear, And then, 'tis strange to tell, It happened on that particular year, That he never had hay to sell.
And when he raised a pile of grain, And hauled it into town, His luck was exactly the same again, For the markets all were down.
But it sometimes chanced he had grain to buy, And that was not very nice, It always made old Timothy sigh, For he bought at a famine price.

He tried his hand at a poultry yard With exactly his previous luck, And his fortune was certainly very hard, For he lost every chicken and duck.
He had a hope that the eggs might be A supply to his empty till, But the Yankees knocked his plans a-lee With their old McKinley Bill.
"Bad luck to the farming," old Timothy said, And Timothy very near swore, And it nearly drove him out of his head
When the bills came in from the store.
"Bad luck to the farming," he hollered again, "Bad luck to the markets, I say, For there's nothing in poultry, there's nothing in grain And there's nothing in Timothy hay."

Leading Varieties of Vegetables for a Home Garden.
By Prof. H. L. Hutt
At this season of the year the question of the farmer's garden usually comes up. Too often the arrangements for the making of the home garden are neglected till too late, and especially is this so in regard to the ordering of the seeds. It frequently occurs that it is necessary to order some varieties of seeds from a distance and therefore it is well to decide early what varieties are to be planted. The following list of varieties of vegetables have been prepared with a view to aiding in the choice of the kinds suitable for the home garden, and very brief culture notes have been appended to each.
Asparagus—Conover's Colossal and Palmetto. Plant in rows 4 feet apart and two feet apart in the rows. Apply manure liberally and cultivate thoroughly.
Beans—Summer, Golden Wax, Autumn, Burpee's Bush Lima, Winter, Navy Sow when danger of spring frost is past.
Beets—Globe, Egyptian Turnip, Long, Long Smooth Blood. Sow as soon as ground is fit to work. Thin when small to three inches apart, and take out every other one as soon as they are large enough to use.
Carrots—Chantenay and Scarlet Nantes. Sow early and thin the same as beets.
Cabbage—Early, Winningstadt, Late, Flat Dutch and Savoy, Red, Mammoth Rock. Sow seed of early variety in hot bed about middle of March, and transplant to open ground about end of April. Sow seed of late varieties in the open ground about the end of May, and transplant about the 1st July.
Cauliflower—Extra Earl Erfurt and Early Snowball. Treat the same as cabbage.
Celery—Early, White Plume, Medium, Paris Golden Yellow, Late Giant Pascal. Sow seed in seed box or hot bed about 1st of May. Prick out flats or cold frame when about an inch high, and transplant into trenches four or five feet apart about the 1st of July.
Corn—Early, Golden Bantam, and White Cory, Medium, Metropolitan, Late, Country Gentlemen, and Stowell's Evergreen. Sow about 1st of May, and if plants are injured by cold or frost, sow again about the 24th of May.
Cucumber—For slicing, White Spine; for pickling and slicing, Cool and Crisp. Sow in hills about four feet apart when danger of frost is over.
Lettuce—Toronto Gem and California, Cream Butter. Sow early as possible and at intervals of one month for succession of crops. Thin plants to six or eight inches apart to secure good heads.
Musk melon—Rocky Ford or Emerald Gem and Montreal Market. Sow seed in enriched and well prepared soil when danger of frost is past. Hills should be five or six ft. apart.
Onions—Yellow Danvers, Prize Taker, and Red Weatherfield. Sow seed as early as possible. The thinnings may be used as green onions.
Parsnips—Hollow Crown. Sow as early as possible and thin to six inches apart in row. Leave part of the crop in ground over winter for spring use.
Peas—Early, Steele Briggs' Extra Early, Medium, Gradus, Late, Champion of England. Sow early kinds as early as possible, and others at intervals of two weeks to obtain succession of crops.
Potatoes—Early, Early Ohio, Late, Empire State. Keep potatoes for early planting in a warm room in the light for three weeks before planting. Plant a few for early use as soon as the ground is fit to work, and follow with others when danger of frost is past. Plant late varieties about the 24th of May.
Rhubarb—Victoria, or any carefully selected seedling variety. Plant 4 feet apart. Manure liberally, cultivate thoroughly and break out seed stalks as they appear.
Salsify—Long White. Sow as early as possible and thin to 4 inches apart in the row. Part of the crop may be left in the ground over winter for spring use.
Squash—Summer, Crookneck and White Bush Scallop, Winter, Hubbard. Do not plant until danger of spring frost is over. Bush varieties require about 4 feet of space between hills. Rhubarb should have at least 8 feet.
Tomatoes—Earlg, Earlians, Dominion Day and Mayflower. Sow seed in seed box about the middle of April. Transplant in the open when danger of frost is past.
Watermelon—Hungarian Honey and Cole's Early. Plant when danger of frost is past in well prepared hills 8 feet apart.
