

Purchase of Horses in Canada For the Imperial Army.

A great deal of misunderstanding having arisen concerning the objects of Imperial Government in sending officers to this country to purchase horses...

There is an idea abroad, and certain ministers and statesmen in this country have brought it forward and may be considered responsible for it...

The average price paid in England is an open secret; it is £40, or say \$200. The cost of freight and insurance will certainly not exceed another \$50...

It is, further, of more importance to Canada than to anyone else that, as the horses purchased will be regarded in England, as well as in this country...

Two classes of horses are to be bought. 1st.—Riding horses, fit for heavy and light Cavalry, from say £5 to £15 hands.

2nd.—Driving horses, fit for being driven postillion, with Horse and Field Artillery. The latter must not be less than 1230 lbs, 15.2 to 15.3 hands in height...

In the case of riding horses, those with a near cross of the Thoroughbred are most likely to take the eye of the Inspecting Officers.

The British Remount Officers are in possession of detailed specifications, showing the exact type and qualifications of the horses required.

Unless you want to be stricken with incurable Bright's Disease, don't let your kidneys go without attention. Ferrozone is a special remedy for this trouble...

FAMOUS PEOPLE BY FANNIE M. LOTHROP

MADAME CURIE The Famous Discoverers of Radium

All the known radium in the world could be put into a tablespoon, yet this less than an ounce of the magic metal has set the scientists of two continents guessing at this new conundrum of nature.

They are poor, hard-working people, consecrated to science, caring little for wealth or fame or position. Reserved and conservative, they speak with extreme caution as to their discovery made in 1898...

In a little, old-fashioned house at the extreme end of Paris, near the outer boulevard, whose criminals have given the section an unsavory name, lives the devoted couple with their one child and M. Curie's father...

Some of the experiments of Becquerel on the radio-activity of uranium specially appealed to her, and she determined to experiment on the refuse ore of pitchblende, from which uranium is taken.

As a grain of musk will perfume a room for a century or more, constantly throwing off fine particles without decreasing its weight, so radium bombards the ether with light, heat, energy, and half a dozen other marvelous effects...

Interest according to Act of the Parliament of Canada, in the year 1904, by W. C. Mack, at the Department of Agriculture.

Summary Of Information Gathered From a Study of the Composition of Ontario Feeding Stuffs

The animal body is made up mainly of four classes of substances—water, ash or mineral matter, nitrogenous matter, and fat...

Pea meal, linseed meal, maize gluten, gluten feed, middlings, and wheat bran, are by-products which contain a large quantity of protein and are, therefore, most valuable components for a ration intended for dairy cows.

There are objections, however to some of our food stuffs which contain a very large quantity of protein. Cotton seed meal, for example, contains, on an average, 45.73 per cent of protein...

For a Weak Digestion No medicine can replace food but Chamberlain's Stomach and Liver Tablets will help you to digest your food. It is not the quantity of food

addition of cotton seed meal to a ration for calves or pigs results in serious derangement of the digestive organs of these animals.

Regarding mill feed, oat hulls, and such low grade materials little need be said. The tables of composition show them to be entirely unfit to feed as substitutes for pea meal, linseed cake, and such nitrogenous materials.

Terrible Back Pains.

They fairly agonize your life. Something powerful and penetrating is needed. Doctors know of nothing so swift to relieve as Nerviline, a strong, penetrating liniment made to cure just such pains as yours.

Dundalk now has a small colony of immigrants. Some are from England and others are from the Island of Jersey, in the English Channel.

For a Weak Digestion

No medicine can replace food but Chamberlain's Stomach and Liver Tablets will help you to digest your food. It is not the quantity of food

taken that gives strength and vigor to the system, but the amount digested and assimilated. If troubled with a weak digestion, don't fail to give these Tablets a trial.

SYMPTOMS THAT INVITE GERMS.

Little Ailments That Should Be Looked After If One Wants To Keep Well.

Anyone who has any of the many symptoms caused by poor digestion should take special care to avoid conditions where disease germs are likely to be present.

Uneasiness at stomach, Confusion of mind, Flatulency, Waterbrash, Spitting up of food, Nausea, Colic, Gripes, Sensation of weight or heaviness at pit of stomach.

Coated tongue, Sour taste in mouth, Diarrhoea, Sore mouth, Dry skin, Constipation, Nervousness, Sediment in Urine, Sick Headache, Night Sweats, Congestion of the head, Headache, Vertigo or dizziness, Cold hands and feet, Dizziness, Pain under shoulder blade, Sleeplessness, Pain between shoulders, Palpitation of the heart, Defects of vision or hearing.

These little ailments which indicate a weak stomach and imperfect digestion, should be looked after by the use of Mio-na, if one wants to keep well.

Mio-na is so nearly infallible in curing indigestion and the many diseases resulting from a weakened stomach, that we guarantee to refund the money is given with every box, should it not give perfect satisfaction.
