KING EDWARD VII.

ALEXANDRA, QUEEN CONSORT.

We have been informed that the item we published last week from an Alton correspondent concerning certain immigrants related to some of those that landed here a few weeks ago. If this is the case the story of hard luck told to their rescuers of that village was not what might be termed truthful. The facts of the matter are, as far as Dundalk is concerned, these people were taken in hand on their arrival here by the Council and put to work at excavating the cellar for the new town hall at one dollar and fifty cents per day, and a house was found for that particular family. Their comrades were therefore as much surprised as any when they lit out one Monday morning on their journey towards the south. The others are all working yet, and have proved to be steady, industrious fellows. Excavating at

one dollar and fifty cents per day may have proved obnoxious to the man with the family, but he will walk a long time before he will convince the public he is fit for a railway president's chair or something of the sort, for which doubtless he is looking.—Dundalk Herald.

THE CODLING WORM OF THE APPLE.

The codling worm is the cause of greater loss to the apple industry, than any other insect. The extent of the loss to Ontario alone, runs up every year into the hundreds of thousands of dollars, and into the millions in the United States,—all because the remedies which have been discovered by the Etymologists have not been applied by the apple growers.

While there is but one brood of the codling moth east and north of Toronto, there are two broods west and south of the same place. The different stages of this insect pest should be familiar to the apple grower, for only with this knowledge can he apply his remedies intelligently. The life story may be stated concisely as follows: The insect winters over as a caterpillar in a cocoon in some protected place, and in early June when the blossoms are falling from the apple the adult winged moths appear. The females deposit their eggs on the leaves and newly formed fruit. In about ten days the caterpillars escape from the eggs and a few days later enter the apples, usually at the calyx end. The worm remains inside the apple about 20 days, after which it comes out to spin a cocoon, within which it lives until spring if there is but one brood, but only about two weeks if there are two broods in a season. The second brood of moths appear about the end of July or the beginning of August, then eggs are again deposited, and the worms which hatch from these eggs enter the developed apples about the middle of August, leaving them again in September to make cocoons within which to spend the winter.

With our knowledge of these facts we are able to state quite definitely the best time to apply remedies. The plan is to poison the worms with Paris Green or some other arsenic mixture, before they enter the fruit. The trees should be sprayed (1) a few days after the blossoms fall, and (2) about the middle of August for the second brood of larvae. An additional spraying ten days or two weeks after the first will, in most cases be productive of much good. It is advisable, of course, to use the arsenic mixture along with Bordeaux to control the apple scab fungus at the same time that the codling worm is being treated. For the scab, two additional sprayings are necessary, one before blossoming and one in July.

The Bordeaux—Paris Green mixture is prepared according to the following formula: Copper Sulphate or Blue Stone, 4 lbs; Fresh Lime, 4 lbs; Water, 40 gals; Paris Green, 4 to 6 ounces. The blue stone is dissolved in 15 to 20 gallons of water in a barrel, and in another barrel the lime is slaked carefully, and 10 to 15 gals. of water are added to make a milk of lime. Then the contents of the two barrels are poured into the spray barrel through a strainer. Finally the Paris Green is made into a paste with water and put into a barrel along with the Bordeaux. It is very necessary that the agitator should work while pumping is going on so as to keep the Paris Green well distributed throughout the mixture. Use a good spray pump and spray the trees carefully at the times mentioned above.

The practice of banding trees is commendable, but every thing taken into account, is more expensive than spraying, and is moreover, actually harmful, unless the bands are examined and the larvae destroyed every ten days or two weeks during the latter half of June and all of July.

Every fruit grower should acknowledge the value of such birds as the Chickadee, Downy Woodpecker, Nuthatch, Bluebird, Swallows, Wren, and Song Sparrows in checking the increase of the codling moth and other injurious insects, for without them fruit would scarcely be grown. Encourage the birds, then, to come about the orchard, by keeping the gun at a distance, and by punishing the robber of birds' nest.

CARD OF THANKS.

I desire to publicly express my sincere gratitude to the Orange Mutual Benefit Association for their promptness in paying the claim of one thousand dollars held by me on the death of my late husband, George Adlam. I desire also to express my thanks to the brethren of the Lodges here, for the devoted kindness during all my trouble.

MARtha ADLAM.

This Week

WE wish to make special mention that we have a lot of

New Summer Hats.

Having attended the Summer Openings in Toronto we are prepared to make up prettier hats than ever. The styles have changed greatly and we have made it a point to visit all the leading retail stores as well as wholesalers and get thoroughly acquainted with the new styles for Summer Millinery.

DURHAM — — — ONTARIO

Local News Items

GATHERED DURING THE PAST WEEK FOR CHRONICLE READERS.

WANTED—Immediately a good general housemaid. Mrs. T. G. Holt.

House and lot for sale.—Apply Mrs. Thos. Fox.—tf

MR. FRED A. LEWIS, Piano tuner at the Knapp House.

Plough shares and sole plates for various plows in use at the Durham Foundry.

If you want to purchase a hot and lot in Durham, see A. H. Jackson. Price reasonable and good terms.

IMPROVEMENT has been made in the appearance of Dan Campbell's property by the new cement walks laid down.

THE boys are learning to call Flarity for the all-round suit. Best workmanship, best appearance, best goods for the money.

MISS PORTER, head trimmer at Dick's Millinery, was in Toronto last week looking up new ideas for the Midsummer Opening held Thursday and Friday of this week.

DR. BURT, specialist in diseases of the Eye, Ear, Nose and Throat, is at the Middaugh House, Durham for consultation, Wednesday, June 10 from 10 a. m. to 4 p. m. Eyes tested and glasses fitted.

THE CHRONICLE extends its best congratulations to Mr. and Mrs. Grant McComb whose marriage announcement appears in this issue. Welcome them as citizens, hope they may live forever and enjoy every of the way.

SERVICES preparatory to the reunion will be held in the Presbyterian Church on Friday at the hour 2:30 in the afternoon and 8 in the evening. At both services the Rev. Matheson, of Priceville will preach.

OUR old friend, Dr. John Cochran writes from Liverpool that he has returned from a three months' trip to a Platte River steamer to Buenos Aires and that he is about to start another for Valparaiso, Chile. The doctor is employed as ship surgeon and is getting a sight of the world his pay at the same time. We wish him health, wealth and prosperity.

WE regret very much to learn that Archie McDougall is on the sick and is now in Owen Sound two months' holiday. On Monday of last week he left here to his position in Tillsonburg, but was able to remain for more than ten days. Archie is none too well best, but we hope to learn soon complete restoration to perfect vigorous health.

SEVEN cars of export cattle shipped from here on Tuesday noon last, by train to Montreal from there to London, England, via Lake Michigan. The ships was bought in the surrounding ships by Mr. Lionel Robson of town and Mr. T. R. O'Brien of Fergus. There were over twenty-six head in all and the fine lot of animals.

In this issue we give an account of the death of Mr. Thomas G. Owen Sound, who spent many years as School Inspector in West. For a long time we have known the deceased gentleman, and admired him for his kindly and methodical neatness ever since the clerical part of his work. The first Inspector to visit us when he started out nervous early seventies to teach "the idea" how to parse. It is on that we should regard with the man who had the power and intimidate but was ever his visits, and the "half hour" a pleasant reminder of the past. That he and the late one who died only a few weeks passed over to the "Great Beyond" no cause of wonder when we around us and see gray heads who were mere infants when gentlemen were in the active business and verging well on the meridian of life. Mr. G. was in his eighty-fifth year.

Great Expansion

Our business is expanding so rapidly that at the request of our numerous shareholders we are opening up a ware room in another large town. In the meantime, we are attending to the wants of our shareholders and customers in this locality. All our shareholders are satisfied. Many testify that they make money dealing with us. We are not giving away goods, but, by reducing the expense, we are furnishing them to our shareholders at a much lower price.

We have ordered Wire Fencing and Gates.

Call and examine for yourselves. Get our prices.

It Will Pay You

To become a Shareholder in this great co-operative movement which has come to stay in this country. It has accomplished much. It will accomplish more in the future. The best farmers in the country endorse it by becoming shareholders. Call and see our stock. Subscribe at once.

We carry full lines of Implements, and Household Utensils. We can get you anything you want in those lines.

Farmers' Manufacturing and Supply Co., Limited.
