It is really too bad that people can not be honest. Last week there appeared a local advertisement in this paper by a lady who lost a chatelaine, a small sum of money and a bunch of keys. The modest request was made that if the finder did not care to return the chatelaine and money it would oblige the loser to have the keys returned to a certain post office box in Durham. Now, in our opinion any person who will keep a chatelaine and about sixty-five cents in money will never be honorable enough to return the keys. We rather suspect those keys, would be kept and locks they would fit would be subsequently stolen to complete the outfit. What a lot of mean people we find running round loose.

THROUGH misplacement of a copy of the Lacombe (Alta.) Globe, we omitted last week to give an account of Sunny Alberta, written by the Editor after a tour of a hundred miles or so through this very prosperous part of our great Dominion. To give the account word for word as it appeared in the paper would not be of any particular interest to the majority of our local readers. Range after range was described as excellent land for agricultural and ranching purposes and from all we learn in other ways was quite accurate in detail. Mr. McCormick, of the Rocky, kindly furnished us with the paper and as an eye witness of the productiveness of some of the district mentioned, and as a land owner as well, he vouches for the truth of the account, so far as he has seen the land described. He intends going west again shortly to work on his claim. A letter from some of our readers in the West would be of interest just now.

"HELLO! where are you going?" "Keep quiet; will see you again. Must hurry up to Flarity's and order an outfit—suit, hat, tie, fancy shirt and other little necessities. I am sick and tired of both the feel and appearance of the ready made outfit mix up."

We are again pleased to report progress of Mr. A. W. Hunter, medical student at McGill College, Montreal. This year he stands third on the Honor List of third year candidates. In the Montreal papers he was reported to have failed on one subject, but this proved erroneous and the matter was subsequently rectified. Mr. Hunter has taken honors every year and we expect to see him shine in his final time next year.

Mr. and Mrs. Alex. VanAlstine, of Box Elder, Montana, are now visiting Mrs. VanAlstine's brother, Mr. John Aldred, and her sisters, Mrs. Harry Burnet and Mrs. J. W. Blyth. We regret that Mrs. VanAlstine is not well.

MR. ROBERT GALBRAITH, Mathematical Master of Simcoe High School, was appointed School Inspector for North Wellington to fill the position recently held by Inspector Clapp, of Harriston, who tendered his resignation some time ago. Editor Wright, of the Mt. Forest Confederate, was one of the applicants, and while he does not condemn the appointment, he thinks the Council should have decided on a local man. Mr. Wright is, no doubt, a good man for the position, a university graduate and fully qualified. Yet Mr. Galbraith may possess equal qualifications, and some additional features that appealed to the Council. We do not think for a moment that sentiment should have anything to do with the appointment of a public official and the Council that does its duty will select the best man according to their judgment, let him be a local man or otherwise. Our Council has to appoint an Inspector for East Grey, and we hope they will make a wise choice and not unload on the people an inefficient officer, whom they or their successors may have difficulty in removing. We are hardly free to offer an opinion regarding the appointment, not knowing whether the Council intends reducing the three inspectors to two or allowing the county to remain in three divisions as now.

WE are in receipt of the 1905 Prize List for the Western Fair to be held at London Sept. 8th to 15th. This is one of Canada's leading Fairs, and is a close rival to the Industrial at Toronto.

THE annual meeting of South Grey Farmers' Institute was held in the Town Hall here on Wednesday last. President Young occupied the chair and opened the meeting with a brief address on the work of the year. The usual routine business of reading minutes, auditor's report, etc., was transacted. The cash receipts for the year were six hundred and fifty eight dollars, expenditure five hundred and one dollar, and balance on hand one hundred and fifty seven dollars. There were ten meetings held during the year, with an aggregate attendance of 1900. Thirty seven addresses were given on agricultural and kindred questions. Meetings for the coming season are to be held in Durham, Hanover, Elmwood Ayton, Holstein and Dromore. The meeting in Durham will be two days, the Seed Fair to be held on the second day. Officers elected for the ensuing year were:—W. J. Young, Pres.; R. Morrice, Vice-Pres.; G. Binnie, Sec.-Treas.; J. Picken, W. Hastie, H. H. Miller, M. F. V. Kirchner, T. Gadd, R. Barber, W. Allan, D. Hamilton, W. Smith, D. Edge, A. S. Hunter, W. Irwin, Directors; C. Ramage, A. Davidson, Auditors. Prof. J. W. Reynolds gave an address on climatic conditions affecting Agriculture. The three requisites in the soil are moisture, heat and air. We cannot control the moisture in the atmosphere, but can, to a considerable extent, control it in the soil. The chief object of autumn cultivation should be to put the soil in such a condition as to take in and retain as much water as possible. The soil should be loosened in the fall, as loose soil will take in and hold much more water than will compact soil. On clay loam the difference would be 49 tons per acre. In spring, shallow cultivation is best to prepare a seed bed, mellow, moist and warm, the loose surface soil acting as a blanket to keep the moisture from below from evaporating into the atmosphere. After cultivation on root or corn land should be continued as late in the season as possible, the surface soil stirred often, especially after rain, to hold the moisture and allow the entrance of heat and air.
