

EXCHANGE ARTICLES

Two lazy loafers with a brown bear struck town last Saturday and had the animal do a few tricks for the amusement of the populace, not forgetting to pass the hat. There are different easy ways of getting a living, and this way of taking it out of the hide of a bear is probably one of the easiest. If the bear would make a meal of its captors the world would be done a good service.—Harrison Tribune.

Your Worm-Out Stomach.

What it needs is the strengthening influence of Dr. Hamilton's Pills—they work marvels where the stomach and digestion are poor. In one day the appetite increases and the whole system is rapidly strengthened. No stomach specialist could write a better prescription than Dr. Hamilton's Pills of Mandrake and Butternut. At all dealers in a yellow box, price 25c., or five boxes for one dollar.

It is expected that, in the forthcoming budget speech, some provisions will be made to grant relief to the binder twine industry. The aim and object of the International trust is to crush the Canadian manufacturers out of existence, when they will have control of the market and be enabled to lay the iron hand of monopoly on this indispensable article by raising the price to the customer to a point far beyond the market value. These immense trusts are not actuated by philanthropic motives, as every user of twine will find out to his cost, unless the government intervenes and puts its veto on such transparent means of shutting out our own market from Canadian manufacturers.—Telescope.

Broken Sleep-Tired Next Morning.

Sleep not only rests, but builds up the body. Cut down the hours of sleep, and you cut down health in the same proportion. Rebuilding then ceases, nerves go smash, you grow tired, weak, and wretched.

To restore sleep you might get more bodily strength, more nutritious blood, healthier nerves. Ferrozone solves the whole problem, makes you sleep soundly, gives endurance, vim, ambition. No more morning weakness—instead the fire of youth will run in your veins, supplying abundance of energy and vigor. Witchery expresses the instant effect of Ferrozone; try it.

One effect of the long session is to give the excuse for a demand for an increase of sessional indemnity. Until a couple of years ago the indemnity of members was one thousand dollars per session. It was then increased to fifteen hundred, but even this had not satisfied them and now there is a demand for another increase. The London Free Press says that round robin is in circulation and will be presented to the government demanding an increase of another thousand a session. This would bring the sessional indemnity up to \$2500, a sum out of all proportion to the value which a majority of our representatives are capable of giving value for. But since the matter lies entirely with the members themselves, they are complete masters of the situation. And of course, if the members get an increase, the cabinet ministers will have to get an increase, every senator will get an increase, and the bill to the country will be a large one. We are inclined to think that such a proceeding would not meet with much favor in the country.—Telescope.

Sell Your Cold For \$1?

You surely won't stop at a dollar bill to cure that horrid sniffling cold? Go to any druggist and get "Catarrhoze" and your cold will be a thing of the past. There is almost witchery in the swift way Catarrhoze kills colds. But when you consider the penetrating, healing and antiseptic qualities of Catarrhoze perhaps it's not so wonderful. Certainly there is no remedy half so prompt for colds and catarrh as Catarrhoze. Refuse a substitute and insist on having only "Catarrhoze."

Provisional Detective Joseph Rogers, of Toronto, who, with four railway officials, has just completed a tour of the settled parts of the Province for the purpose of dealing with the tramp nuisance, has made an interesting report to the Attorney-General's Department. He says that the party covered 2,300 miles on the G. T. R. and C. P. R., making a careful inspection of the yards and old hangouts, and they did not find a single tramp. Railway employees report that they have seen very few tramps on the lines this year, and local police tell the same story. Wherever tramps have been found and arrested the Magistrates have given them the extreme limit of punishment allowed by the law. Six persons riding on the bumpers of freight cars in order to save fares were arrested by Mr. Rogers and his assistants, and every one was fined \$10 and costs or 30 days in jail.

Found a Cure for Dyspepsia.

Mrs. S. Lindsay, of Fort William, Ontario Canada, who has suffered quite a number of years from dyspepsia and great pains in the stomach, was advised by her druggist, to take Chamberlain's Stomach and Liver Tablets. She did so and says, "I find that they have done me a great deal of good. I have never had any suffering since I began using them." If troubled with dyspepsia or indigestion why not take these Tablets, set well and stay well? For sale by Parker's Drug Store.

INDUSTRIAL HOME NOTES.

From our own Correspondent.

To THE EDITOR DURHAM CHRONICLE:

DEAR SIR.—Being an ardent admirer of your clean and spicy paper whenever an opportunity presents itself of perusing its contents and thinking perhaps, that a few items from this institution may be acceptable and perhaps interesting to the many readers of your valuable columns, not only in and around Durham, but also in those remote points to which it finds its way; and feeling that those of your ratepayers who are paying taxes for the erection and maintenance of this admirable and comfortable home for the aged, homeless and deserving poor of the country, would naturally desire to be informed occasionally of its progress and welfare of its inmates. To that end the writer, a grateful and contented refugee, is prompted to send a few items, which, though but few in number, are nevertheless the best

It was the original intention of the

writer, Mr. Editor, to give a more descriptive account of the Home and its inmates, but, owing to the circumstance of this being my first attempt in a correspondence with your paper and fearing to trespass on your valuable space, I thought it would be better to refrain from a more lengthy correspondence until further approved of.

INMATE.

Beware of Ointments for Catarrh that Contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is tenfold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo O. contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists. Price 75c. per bottle.

Take Hall's Family Pills for constipation.

Vickers.

a comfortable, conveniently situated house on Lambton street west. Spring water tap in kitchen. Rent reasonable. Apply to

N. MCINTYRE, Durham.
Nov. 8th.

Dolphin as Pilot.

"Pelorus Jack" is the name of an old dolphin which is protected by a special act of the New Zealand Legislature.

According to an Australian colonist, Mr. George Hayes, who sends an account of the fish to Lloyd's Weekly, the official proclamation of the Government prohibits any interference with Pelorus Jack under the penalty of £1,000.

Forty years ago when Mr. Hayes first emigrated to Australia, he heard an old sailor's tale, according to which a shoal of dolphins grounded on the shores of Cook Strait, and one of them escaped into the sea. That one, which is now acknowledged to be Pelorus Jack, never left the locality where he lost his companions, and as Mr. Hayes says, he is now protected by the law as he has always been by sentiment.

The most remarkable fact of all is the reason for the passage of the law which is that Pelorus Jack acts as a most effective pilot, escorting all kinds of vessels in and out of the French Pass, Cook Strait, always keeping to deep water.

For years he was believed to be a beluga, or white whale, but recent scientific investigation has shown that he is really a dolphin. As he is never absent from his duties the proclamation has been received with keen satisfaction throughout Australia by sailors who have to use the French Pass.
