

**CHOLERA INFANTUM.**

**Child Not Expected to Live from One Hour to Another, but Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy.**

Ruth, the little daughter of E. N. Dewey of Agnewville, Va., was seriously ill of cholera infantum last summer. "We gave her up and did not expect her to live from one hour to another," he says. "I happened to think of Chamberlain's Colic, Cholera and Diarrhoea Remedy and got a bottle of it from the store. In five hours I saw a change for the better. We kept on giving it and before she had taken the half of one small bottle she was well." This remedy is for sale at Parker's Drug Store.

**POMONA.**

On Friday evening of last week, a large number assembled at S. S. No. 7, Glenelg, and expressed their sorrow towards Miss L. Madigan on her departure from their midst, by presenting her with a silver combination sugar bowl and spoon holder. The following address was read by Miss Lizzie McAuliffe:

TO MISS MADIGAN,  
Our Dear Teacher,—We, your pupils here assembled before you so often have stood in your presence before whilst pursuing our studies under your care, we gather here this evening to bid you an affectionate adieu, for now our relation as teacher and pupil ceases, perhaps forever, but they shall not be forgotten, unlike those, to-day remembered and to-morrow forgotten. They shall indelibly be stamped on memory tablets, so that when long years have passed they will be green in memory's cherished view. Words fail us now to give full expression to our feelings and sentiments, but if we could make them kind we would be forcing the sentiments of our parents and community in general, and as a token of our esteem we ask you to accept this present, hoping you will accept it in the spirit in which it is given, and we will always remain

Your affectionate pupils,

L. McAULIFFE  
M. MAGHER  
Signed, A. McMILLAN  
M. DUNBAR

In a few words Miss Madigan very kindly thanked the pupils and people for their generosity and kindness toward her during her short stay with them, and assured them if it were at all possible, she would be happy to continue for a longer term in their school. Mr. J. M. spoke in behalf of the trustees and expressed the success which the school has had during the past year. They were sorry to see Miss Madigan leave, and wished her the best of success in her future career of life. Miss Madigan leaves a host of friends, and the section joins in extending to her a hearty welcome at any future time.

**One Dollar Saved Represents Ten Dollars Earned.**

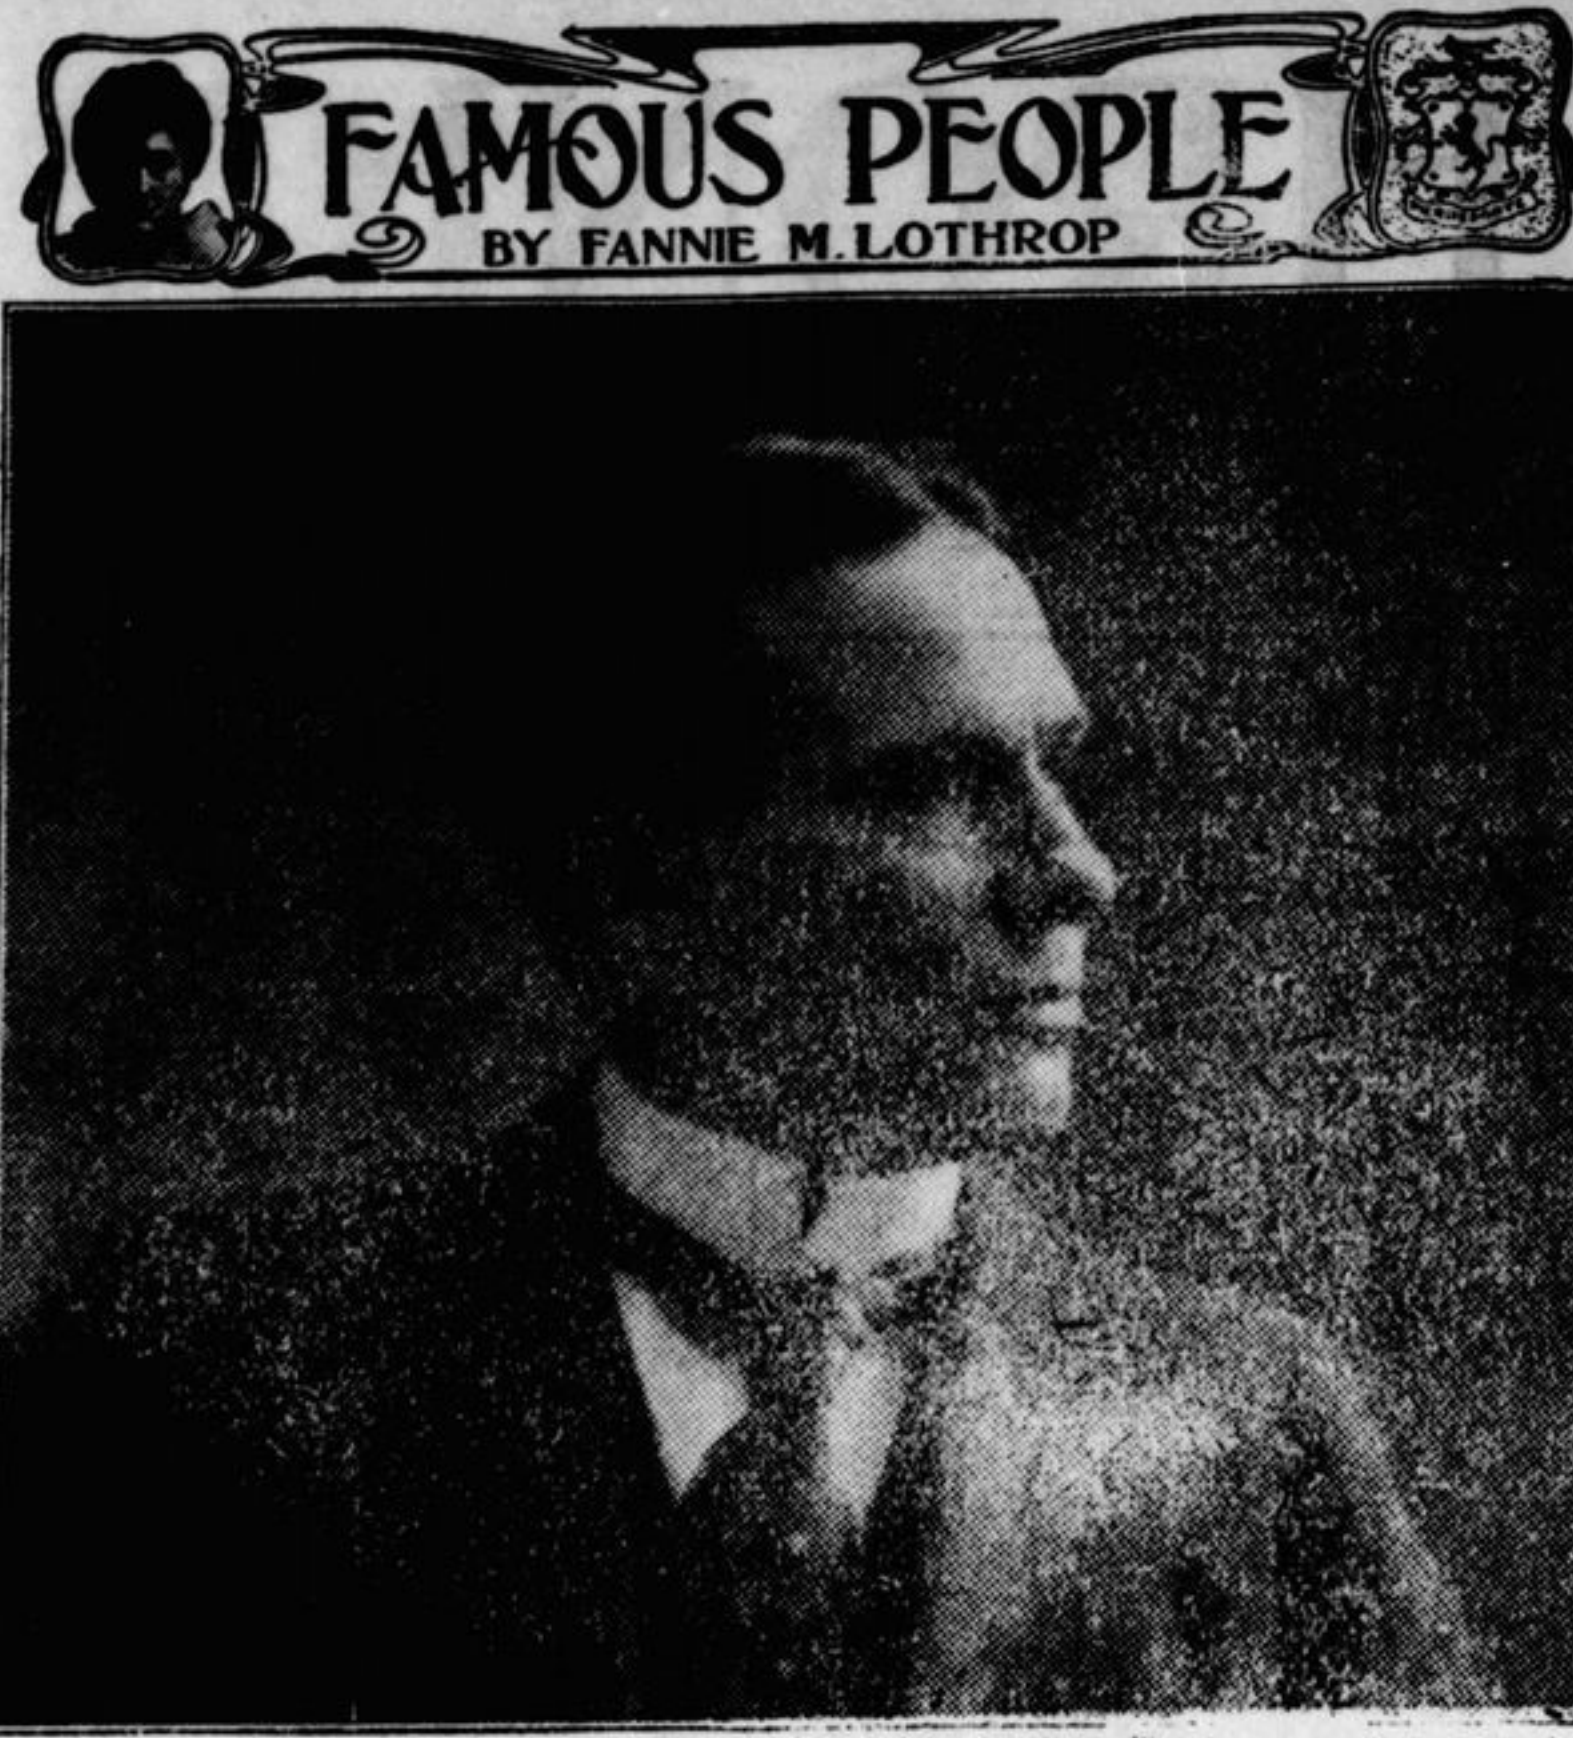

The average man does not save to exceed ten per cent of his earnings. He must spend nine dollars in living expenses for every dollar saved. That being the case he cannot be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars outlay later on. It is the same in buying Chamberlain's Colic, Cholera and Diarrhoea Remedy. It costs but a few cents, and a bottle of it in the house often saves a doctor's bill of several dollars. For sale at Parker's Drug Store.

**ABERDEEN.**

The Statute Labor is completed, and a right good job was done. A baby cyclone passed our way a week ago Sunday. The damage was slight; the only thing noticeable was the shell was cracked on some sort of egg, and a new scribe from Mull Corners came to light. S. Jackson captured a monster turtle last week, and informs us that it weighs about 35 lbs. The Inspector visited our school and has given it a good report. A Fair Start for a Durham Boy.—One of our citizens informs us that while driving to town he passed a Durham boy on the way, who, because he was not let get onto an already loaded buggy, threw stones with some vigor at its occupants, narrowly missing them. D. McLean purposes putting a cement floor in his stables right away. Mr. and Mrs. Geo. Smith, of Glenelg, called on friends here, since last writing. Mr. and Mrs. Archie Beaton of the Centre passed through here a week ago.

**JACOB GOULD SCHURMAN**  
The President of Cornell University

When Jacob Gould Schurman was a boy on his father's backwoods farm on Prince Edward Island, where he was born in 1854, educational advantages were scant in quality and costly in time and energy. Books were few, the one newspaper that connected the family with the outside world was but a provincial weekly, and the district school was taught by one teacher who gave the staple things of education, with no fancy dishes of the modern class.

When Jacob was thirteen he had to become self-supporting and secured a clerkship of the general utility type in a country store at thirty dollars a year and his board and washing. In his second year he received sixty dollars, and with this coming of wealth came a longing for a better education.

In two years he had saved eighty dollars and with this as a bulwark against starvation he attended the village high school, studied voraciously day and night and entered a competitive examination for a scholarship at Prince of Wales College at Charlottetown, on the island. He won the scholarship of sixty dollars and went to the college. Then after a year of teaching he went to Acadia College, where his appetite for prize-winning became insatiable. He won a scholarship of \$500 a year for three years offered by the University of London, followed by his winning the travelling fellowship of the Hibbert Society, and other prizes, scholarships and similar rewards, with predestined certainty and monotonous iteration.

He studied in London, Paris, Edinburgh, Berlin, Göttingen, and half a dozen other cities, and when six or seven nations had given him all they could supply but not nearly all he could absorb, he returned to Canada as professor in one of the colleges.

In 1885, Andrew D. White recommended him to Cornell, and the year following, at the age of thirty-two, he became head of the Department of Philosophy; in 1891 was made Dean of the Sage School of Philosophy, and in 1892 he received the degree of Doctor of Laws from Edinburgh University and became President of Cornell, being the only man ever considered for a moment for the position.

Dr. Schurman is remarkable as a lecturer, broad and liberal as a teacher, searching for truth with his students rather than giving them his opinions as finalities; sincere and thorough as an investigator; clear, eloquent and effective as an orator; simple and direct as an author; and as a man, popular, magnetic, sympathetic, sterling and broad-gauged.

Registered according to Act of the Parliament of Canada, in the year 1904, by W. C. Mack, at the Department of Agriculture.

**Ferrozone.**

Thousands are kept in health and free from kidney complaints by Ferrozone. Among those who speak in the most laudatory terms of Ferrozone is Mr. Chas. F. Olive, of the Gazette, St. John, N. B.: "For several years I have had kidney trouble," says Mr. Olive, "until quite recently I suffered torture. A few months ago my condition assumed a very serious form. I consulted several city doctors, used different pills, but without the slightest benefit. I suffered from an intense pain in the groin, and the increasing seriousness of my trouble prompted me to try Ferrozone. It gave me quick relief, and half-a-dozen boxes cured. Ferrozone I can recommend as a specific for disordered kidneys."—Chas. F. Olive.

Ferrozone not only cures kidney complaint, but also such maladies as Rheumatism, Gout, Sciatica, Skin Eruptions, Diabetes, Lassitude and Nervousness, which are caused by defunct kidneys. It neutralizes and destroys all poisons in the system, cleanses the blood, and invigorates enfeebled energies. It is mild, gentle and certain. Costs 50c. per box, or six boxes for \$2.50. **Sir James Watson's Opinion.**

He says that the commonest of all disorders, and one from which few escape is Catarrh. Sir James firmly believes in local treatment, which is best supplied by "Catarrhozone." No case of Catarrh can exist where Catarrhozone is used; it is a miracle worker, relieves almost instantly and cures after other remedies fail. Other treatments can't reach the diseased parts like Catarrhozone because it goes to the source of the trouble along with the air you breathe. Catarrhozone is free from cocaine, it leaves no bad after-effects, it is simply nature's own cure. Accept no substitute for Catarrhozone which alone can cure Catarrh.
