WANTED.

CHARLOTTES OF GOOD SER-
viceable working horses from
1500 lbs. for Manitoba. Ap-

"Royal Household" is in a class by itself.

Flour that gives half nourishment and double work to digest is not good flour.

Cheap and inferior flour gives the digestive organs double work and half pay—inferior flours contain indigestible waste—this waste must first be overcome by nature,—that means extra digestive work.

Indigestibles destroy the nutriment of flour, therefore poor flour gives more work and less nutriment to the system.

Royal Household Flour is in a class by itself—it is the only really pure flour—and it is pure because it is purified and sterilized by electricity.—it is the most easily digested and most nourishing because it is absolutely pure.

The moment a woman puts her hands into "Royal Household" she knows it is a finer flour than she ever used before.

"WESTERN" A WINNER.

How the London Exhibition Has Adhered to Educational Features While Embodying Entertainment As Well.

For thirty-eight years the people of Western Ontario and points more distant have been visiting the Western Fair.

It has come to be recognized as the great rallying point for all the people of this peninsula.

Small was its beginning. It can't live said onlookers. No annual fair of its dimensions had been made to pay its way before.

But the Western Fair was established on a solid and logical foundation. It started out to foster and develop the agricultural and industrial arts. It aimed to make farmers better farmers; to make artisans better artisans; to keep the people posted in a practical way in the general progress of the world.

It has adhered closely to these lines, and is now the foremost agricultural and industrial annual fair in North America from an educational standpoint.

Its entertainment features are always clean and bright. This year the celebrated Ninety first Highland Band will give three concerts daily; Monsieur Bretonne will leap the gap in mid air in a steam automobile, and Prof. Hardy, the American Blondin, who has several times crossed the Niagara Gorge on a slender rope, will give daily performances on the high wire.

This year it will be held from Sept. 8 to 16.

MRS. WILLIAM TOCHER.

Sister to Inspector Campbell Victim of a Runaway Accident in Owen Sound.

Suffering from a compound fracture of the right thigh, two broken ribs, a three-inch cut back of the left ear and another over the right eye, the rupture of abdominal blood vessels and other internal injuries, Mrs. William Tocher breathed her last between nine and ten o'clock on Friday evening, just four hours after being admitted to the general and marine hospital. The accident which caused her death was the result of a runaway and is one of the saddest tragedies that has recently occurred in Owen Sound. Accompanied by her sister, Mrs. John Henderson of Terrace street, Mrs. Tocher was being driven by her husband northward along Poulett street and when opposite the residence of Mr. David Rutherford the horse suddenly became frightened and dashed down the street at a terrific pace. In the excitement of trying to curb the animal the buggy was twisted partly around and Mrs. Tocher thrown out with terrible force against a tie post in front of Dr. Cameron's residence and again tossed against the curbing at the side of the road. Mrs. Henderson was also thrown out but miraculously escaped with a slight bruise. Mr. Tocher was not so fortunate, as he received a very painful scalp wound about four inches long back of the temple beside having his chest and shoulder badly bruised. The Misses McLarty of Victoria street who were eye witnesses of the tragic affair immediately telephoned for medical assistance and aided in raising the unconscious woman from the road and removing her to Dr. Cameron's lawn where a physician was soon in attendance. A hasty examination revealed the fact that the injuries were serious and a message was sent for the ambulance which conveyed her to the hospital. Mr. Tocher though bleeding profusely from his wounds and suffering severely forgot his own condition in his anxiety for his wife and accompanied her in the ambulance. The injured woman remained in a semi-conscious condition until death relieved her sufferings as already stated. The remains were taken to Port Elgin on Saturday for interment. Rev. P. McNabb of Kilsyth accompanied the funeral. Mrs. Tocher, with her husband and three little daughters arrived on a visit from Livingston, Montana, about six weeks ago and were to have left Owen Sound for Port Elgin on Saturday to visit her mother, Mrs. Campbell. Mr. N. W. Campbell, public school inspector for South Grey, and Mr. A. G. Campbell of Harriston are brothers. After the occupants of the buggy had been thrown out the horse continued its race down the east side pavement scattering parts of the broken rig along the way and colliding with another horse and buggy standing in front of Mr. J. H. McCorkindale's implement rooms. Seated in this buggy was Mrs. Robert Jennings of Keppel township waiting for her young daughter who was on an errand into one of the stores. Mrs. Jennings was thrown head first over the dashboard and badly tangled up in the debris, but was rescued from her perilous position by Mr. A. McMillan before sustaining any serious harm. Her horse was badly injured by a piece of broken shaft penetrating its shoulder to a depth of fifteen inches but with careful attention will soon be all right again. The horse responsible for all the trouble came out of the affair with scarcely a scratch.—O'S. Times.

DAIRY COMMISSIONER'S BRANCH.

An analysis of the report of correspondents to date shows a continued falling off from the good indications of previous reports. Fungous diseases are beginning to show seriously though insects are not as prevalent as usual.

Apples will be a light crop, probably about 50% of last year's crop. It must not be forgotten, however, that the general scarcity will prevent any waste such as has been common for the last two years. Apples are being made at \$1.00 to \$1.25 for No. 1's and 2's on the trees. Barrels are lower in price than last year, running from 25c. in Nova Scotia to 30 and 35c. in Ontario, but where proper arrangements have not been made early in the season prices are likely to go higher than this.

Pears will be a very light crop, scarcely enough for the local market. Blight has worked sad havoc in many orchards this year.

Plums: the "drop" and plum rot have lessened the prospect for plums to such an extent that the prospects can be rated for a light to medium crop.

FRUIT CROP REPORT

Peaches show a light crop in the Essex and Kent Districts; a medium crop on bearing trees in the Niagara District. The market will not be overloaded.

Sweet cherries have rotted badly; sour cherries have been a medium crop, though badly infested in many cases with fruit worm. Small fruits have been a medium crop, realizing good prices.

The reports from Great Britain and the Continent would indicate a light to medium crop. Reports from twenty of the largest apple-growing American States show seventeen States having a light or poor apple crop, some a failure; three, Wisconsin, Kansas, and Oklahoma, report the crop promising or good.

Careful estimates by correspondents place the exports from the Annapolis Valley at 200,000 barrels. The apple crop in British Columbia is below the average but a considerable increase in the acreage will make the exports into the North West Territories somewhat larger than last year.

It is pleasing to note the increased confidence in the effect of spraying. There are several enquiries for power machines.

Yours truly,
 A. MCNEILL,
 CHIEF, FRUIT DIVISION
