

It is announced that an old lady has been sent to jail from the House of Refuge as insane, because she pulled the manager's whiskers. We suppose there are plenty of women in this county who will question the validity of the evidence as to the woman's insanity. By these, hair and whisker pulling is looked upon as a harmless pastime, and they would object strongly to being incarcerated as lunatics. In fact almost every county would require its asylum as well as house of refuge, if woman's standard of mental strength were gauged according to her in-or disinclination to pull whiskers. What does Brother Rutledge of the Markdale Standard think about this thing, anyway?—Flesherton Advance.

Throw Medicine To The Dogs!

At best they are unpleasant, often useless. You have some disease of the nose, throat or lungs. Doctors would call it bronchitis, asthma or catarrh. The common root of these disease is germs, or microbial irritation.—Catarrh not only destroys disease germs, it does more, it heals diseased and inflamed tissue. The disease is not only cured, but its return is forever prevented by using Catarrh which is splendid also for colds, coughs, and irritable throat. Remember you inhale Catarrh—Nature's own cure—use no other but Catarrh—it's the best catarrh cure made.

A preacher approached an editor in this fashion: You editors do not tell the truth. If you did you couldn't live; your newspaper would be failure. The editor replied: "You are right, and the minister who at all times tells the truth, dead or alive, will not occupy the pulpit more than one Sunday, and then he will find it necessary to leave town in a hurry. The press and the pulpit go hand in hand with whitewash brushes and pleasant words magnifying little virtues into big ones. The pulpit, the press and the gravestones are the great saint-making triumvirate." And the minister went away looking very thoughtful, while the editor turned to his work, and told of the surprising beauty of the bride while in fact she was as homely as a stump fence.

You Are Ailing.

Not quite sick,—but robbed of ambition to work—find it hard to think clearly. Not ill enough to think of dying, but bad enough for life to be pretty dull. There is a remedy—Ferrozone—that quickly lifts that half dead feeling. Gracious but Ferrozone makes you feel good; it sharpens the appetite, makes it keen as a razor.

Blood? Ferrozone makes lots of it, the rich nourishing kind that vitalizes the whole body. You'll be wonderfully quickened, immensely strengthened, feel hearty and vigorous after using Ferrozone. Buoyant health, surplus vigor and reserve energy all come from this great restorative. Fifty cents buys a box of fifty tablets at all dealers.

Not a few preachers would be glad to be the victims of such a practical joke that was recently played upon the Rev. Mr. Hagerman, of Oxford, Mich. At the annual meeting of the church of which he is pastor the question of hiring a preacher came up for discussion. At the last meeting of this society, when the subject was brought up, a good deacon arose and said: "All those in favor of retaining Brother Hagerman for another year—at the same salary—will please rise." Not a person rose, and the minister, who was present, felt uncomfortable as possible, and heartily wished himself anywhere else. Then the good deacon who had put the question arose and said, with a twinkle in his eye: "All those in favor of keeping the Rev. Mr. Hagerman at an increased salary—will please rise." Everyone got upon his feet. Then it dawned upon Mr. Hagerman that he had been the victim of a joke, and a smile lighted his eyes and the color returned to his cheeks. Some of his best friends had planned the surprise, and the little scheme had worked to perfection.

Purgatives Are Dangerous

They gripe, cause burning pains and make the constipated condition even worse. Physicians say the ideal laxative is Dr. Hamilton's Pills of Mandrake and Butternut; they are exceedingly mild, composed only of health-giving vegetable extracts. Dr. Hamilton's Pills restores regular movement of the bowels, strengthen the stomach and purify the blood. For constipation, sick headache, biliousness and disordered digestion no medicine on earth makes such remarkable cures as Dr. Hamilton's Pills. Try a 25c. box yourself.

It was a pitiful mistake, an error sad and grim. I waited for the railway train the light was low and dim. It came at last, and from a car there stepped a dainty dame, and, looking up and down the place, she straight unto me came. "Oh, Jack?" she cried "Oh dear old Jack!" and kissed me as she spoke; then looked again and frightened cried. "Oh what a bad mistake!" I said, "forgive me maiden fair, for I am not your Jack; and as regards the kiss you gave, I'll straightway give it back." And since that night I've often stood upon that platform dim, but only once in a man's whole life do such things come to him.

RALPH CONNOR

The Story of the Man and His Books

In the Highland settlement of Glengarry, in the heart of a Canadian forest, Rev. Charles W. Gordon, better known to the reading world as Ralph Connor, was born in 1860. In his career, the markings of heredity and environment are more manifest than in most men, as some hands show the veins more strongly than others. To the virility, intensity, individuality and friend-making genius of the primitive pioneer days of Canada's backwoods forty years ago, was united in him the sympathy, mental keenness, literary temperament, spiritual insight and hunger for helpfulness that distinguished his mother. In the woods through which he went to school, and where his early childhood days were spent, he grew into that close reverent love and communion with Nature that has become part of his very life, and pulsates through all his pages. At eleven, the removal of his family to another section gave him better school advantages, and prepared him for his course at Toronto University. He earned money in the fields to pay for his education; he was not a hard student, but passed his examinations seemingly by instinct. After a three years' course at Knox College, where prizes and scholarships dropped into his hands when he was not looking, he spent a year in Edinburgh and on the Continent to gain back his fleeting health. On his return he went to Banff, the National Park of Canada, inhaling the pure, clear air of the mountains and the spiritual atmosphere that seemed nearer to God because nearer to unspoiled Nature. On Sundays he preached in the little Presbyterian Church to an audience of villagers and tourists, and it was while a home missionary in the Northwest that he grew discouraged over the small appropriation made for the work among the miners. His friend, the editor of "The Westminster" of Toronto, invited him to wage his war for funds through the pages of his paper, and, in accepting, Mr. Gordon decided that a strongly human story might win its way to the hearts and purses of the people. The story was "Black Rock," that virile, crisp series of pictures of life in the mining camps, that made their author famous. Then came "The Sky Pilot," "The Man From Glengarry," "Beyond the Marshes," and "The Prospector," all tingling with vitality—stories tender, humorous, picturesque, pathetic, strenuous in action and simple in thought.

Entered according to Act of the Parliament of Canada, in the year 1905, by W. C. Mack, at the Department of Agriculture.

Strained Back And Side.

"While working in a saw mill" writes C. E. Kenny, from Ottawa, "I strained my back and side so severely I had to go to bed. Every movement caused torture. I tried different oils and liniments, but wasn't helped till I used Nerviline. Even the first application gave considerable relief. In three days I was again at work. Other men in the mill use Nerviline with tremendous benefit too." An honest record of nearly fifty years has established the value of Poison's Nerviline.

The railway crossing at Frank street came very near being the scene of a fatal accident on Monday night. Some fool boys have contracted the habit of running across the track in front of rapidly approaching trains. On the evening stated a little lad of about seven years was among the batch, and not being able to move as quickly as the others he was within two feet of being struck by the pilot of the engine. In fact Engineer Gregg did not think it possible for him to escape, but he did, much to his relief. The practice is most reprehensible one, and parents living in the vicinity of the railway line should endeavor to put a stop to it. If they don't the railway authorities will.—Canadian.

ALL THIN, PALE WOMEN

Can Learn the Cause of Their Nervousness, Used-up Condition

With women, ill-health is usually traceable to nerve exhaustion. Feeling run down and tired most of the time is nature's warning that more nerve force is required. You must build up, nourish the body vitalize the nerves, get more flesh and blood. It's the abundant nutriment and building material in Ferrozone that enables it to cure so many sick women. It increases the appetite, adds weight and strength, restores lost color and develops a surplus of energy and nerve force that defies sickness of any kind. There is living proof in Mrs. Daniel Ferguson, Jr., of Pre cot, Ont. Read her statement:

"A year ago my health failed. I grew thin and exceedingly pale. At times I was prostrated with nervous and sick headache. All day I was tired. At night it was difficult to obtain restful sleep. My appetite was variable and indigestion bothered me considerably. I became morose and suffered from heart palpitation. You could scarcely believe the benefit I derived in one week from Ferrozone. Color came back to my cheeks. My vitality and appetite increased. Renewed nerve force and better spirits came also. Ferrozone is a world of good and made me well." Remember this: No alcoholic stimulant can nourish and build up like Ferrozone. Fifty cents per box or six boxes for \$2.50. At all dealers, or N. Holston & Co., Kingston, Ont., and Partlow, Conn., U. S. A.

Traverston.

Mr. John Love of Lauriston is in the neighborhood with his threshing outfit.

The harvest is in with a rush and the laborers being few, and not in much demand anyway, the poor beggars of farmers have to hump along at double rate.

Mr. Bert Somers of Toronto is holidaying in the neighborhood and wowing—we won't tell. He's a handsome fellow.

Mr. Alf Staples and his brother Herb, spent last week at the old McClocklin home. They have grown into stalwart bright youths. They leave for Flint, Michigan in a few days, where the former has been for some time, filling a good position.

Miss Sarah Jack arrived home from Rochester on Saturday looking the picture of health.

Mr. Ed. McGrade, who has spent the past few years out in British Columbia, returned home some time ago and last week purchased the old Dulan farm for which he planked down nearly the even \$3000. Ed. has done well out West and we predict success for him here. He has already taken possession.

Mr. and Mrs. George Peat spent the first of the week with Mr. and Mrs. Furneau at Durham.

Dr. and Mrs. Wm. Greenwood Sr. returned, lately, from a week's pleasant visiting among Collingwood friends.

A young man started in the livery business a few weeks ago, and the first thing he did was to have a sign painted representing himself holding a mule by the bridle. He was particularly proud of this stroke of business enterprise, and straightway asked his wife, "Is that not a good likeness of me?" "Yes," she replied "it is a perfect picture of you; but who is the fellow holding the bridle?"

All Honors Taken.

That honor should be given where honor is due was evidently recognized by the judges at Winnipeg Exhibition this year. The New Scale Williams Pianos were granted the highest possible award of all the instruments exhibited and the award was certainly a popular one as far as public opinion and appreciation was shown.

Visitors to Winnipeg Fair were unanimous in declaring the exhibit of the New Scale Williams Pianos the best thing they had ever seen. The number of handsome designs shown could not be excelled in artistic excellence, and the solid quality of the instruments themselves, as was repeatedly demonstrated, compelled admiration from all true music lovers. One of these beautiful pianos may be seen in the waterrooms of the Farmer's Manufacturing and Supply Co.

A Warning to Mothers.

Too much care cannot be used with small children during the hot weather of the summer months to guard against bowel troubles. As a rule it is only necessary to give the child a dose of castor oil to correct any disorder of the bowels. Do not use any substitute, but give the old fashioned castor oil, and see that it is fresh, as nauseates and has a tendency to gripe. If this does not check the bowels give Chamberlain's Colic, Cholera, and Diarrhoea Remedy and then a dose of castor oil, and the disease may be checked in its incipency and all danger avoided. The castor oil and this remedy should be procured at once and kept ready for instant use as soon as the first indication of any bowel trouble appears. This is the most successful treatment known and may be relied upon with implicit confidence even in cases of cholera infantum. For sale at Parker's Drug Store.

NOW IS THE TIME TO GET WELL

Nature Helps Mi-o-na Cure Stomach Troubles in Short Order.

The summer months are the best in the whole year for the treatment and cure stomach troubles. The outdoor life, with natural exercise, the fruit and berries which are so freely eaten, all help to restore healthy action to the digestive organs.

Now when Nature will aid Mi-o-na in curing indigestion and giving strength to the stomach and whole digestive system, is the best time to use this remarkable remedy.

Taken before each meal, Mi-o-na will soothe and heal the inflamed and irritated lining of the stomach and solar-plexus, and strengthen the nerves of the digestive tract. Used at any time of the year, it cures all diseases of the stomach, excepting cancer, but in the summer months it gives health and strength twice as quickly.

If you suffer with, indigestion, flatulence, specks before the eyes, fermentation heart burn, dizziness, or have a variable appetite, and a general feeling of despondency or weakness, it shows clearly that the stomach is not digesting the food as it should. Instead of the food being assimilated and making rich, red blood and good solid flesh and muscle it is turned in the stomach into a sour, slimy, fermenting mass that causes gases, distress after eating, and poisonous germs that fill the whole body with poor health.

Just one little tablet out of a 50 cent box of Mi-o-na for a few days, and all this will be changed for the better, and health restored, Ask MacFarlane & Co. to show you the Mi-o-na guarantee.

We Make Men
