> What might have resulted in ser ious loss to G. T. R. Co., and, in King street west, Toronto. probability death to some of its employes, was prevented in a rather extraordinary manner here on Friday morning. Mr. Perry, formerly a brakeman through here, but who was discharged some two months ago for a slight offence, was walking north along the track, and when about a hundred yards from the depot he noticed the track was spread and the switch at Nolan's siding thrown oren. Just then he heard the whistle of a train approaching from the south and at once ran to meet it, flagging it about half a mile up the track. Had the train not halted, it would have rushed in on the siding, and, undoubtedly, into the pond. The mishap to the track is thought to have been caused by a truck of a previous train jumping the track ane righting itself at the frog on the switch. The G. T. R. officials at once notified Mr. Perry that his situation was again ready for him, also three month's salary, the time since he was discharged .-Tottenham Sentinel.

Passengers on C. P. R. Train See Village Wiped Out-Mountain Broke Loose.

Victoria B. C. Aug. 14 .- Passengers on the Transcontinental limited witnessed the destruction of an Indian town on Thompson River yesterday afternoon by a gigantic landslide. At least a score of Indians were killed, and not a trace of the town is left. Most of the victims who were not entirely buried were horribly mangled.

The little town was located on the north side of the river, which is a quarter of a mile wide. A great section of the mountain suddenly broke loose and swept down on the village. In an instant not a vestige of the town remained, but a few of the shattered buildings were Struck With Stone Weighing Five or thrown far up on the mountain on the other side. The river was swept from its bed, while earth and rocks filled the stream to a depth of forty feet. Most of the victims and many horses were buried deep under the debris. The railway escaped damage as it is well above the stream.
